Developing Control Concepts in the Twentieth Century (RLE Accounting) - Lee D. Parker
2013-12-04

This book examines the conceptual development of control in the literature of both management and accounting disciplines, from 1900 to 1980. In order to portray the development of control concepts over time, the chapters are organized into sections relating to the schools of thought from which they emanated and a model of control is constructed to represent each group of concepts and their hypothesised inter-relationships. Having traced the development of control models a comparative analysis of historical development in the two streams of management and accounting literature is undertaken. This analysis reveals a pronounced

lag of accounting development behind that of management literature. The reasons for this are then discussed.

Tax Reform in the 21st Century - John G. Head
2009-01-01

No government can be sustained without the ability to tax its citizens. The question then arises how can a nation do so in a way that's fair and equitable to taxpayers while simultaneously promoting economic growth and providing the state with the funds it needs to adequately address the needs of its citizens? This insightful work, featuring contributions from a stellar array of international tax experts and economists, addresses the crucial, relevant issues which developed countries will confront in the early decades of the 21st century: The pursuit of tax reform. Personal tax base: income or consumption? Tax rate scale: equity and efficiency aspects. Business tax reform:

structural and design issues. Interjurisdictional issues. Controlling tax avoidance.

Handbook of the Sociology of Education in the 21st Century - Barbara Schneider 2018-10-10
This handbook unifies access and opportunity, two key concepts of sociology of education, throughout its 25 chapters. It explores today's populations rarely noticed, such as undocumented students, first generation college students, and LGBTQs; and emphasizing the intersectionality of gender, race, ethnicity and social class. Sociologists often center their work on the sources and consequences of inequality. This handbook, while reviewing many of these explanations, takes a different approach, concentrating instead on what needs to be accomplished to reduce inequality. A special section is devoted to new methodological work for studying social systems, including network analyses and school and teacher effects.

Additionally, the book explores the changing landscape of higher education institutions, their respective populations, and how labor market opportunities are enhanced or impeded by differing postsecondary education pathways. Written by leading sociologists and rising stars in the field, each of the chapters is embedded in theory, but contemporary and futuristic in its implications. This Handbook serves as a blueprint for identifying new work for sociologists of education and other scholars and policymakers trying to understand many of the problems of inequality in education and what is needed to address them.

Transforming Public Leadership for the 21st Century - Ricardo S. Morse 2014-12-18

The forces of globalization are shifting our world, including the public sector, away from hierarchy and command and control toward one of collaboration and networks. The way public leadership is thought about and practiced must be, and is being, transformed. This volume in the "Transformational Trends in Governance & Democracy" series explores what the shift looks like and also offers guidance on what it should look like. Specifically, the book focuses on the role of "career leaders" - those in public service - who are agents of change not only in their own organizations, but also in their communities and

policy domains. These leaders work in network settings, making connections and collaborating to create public value and advance the common good. Featuring the insights of an authoritative group of contributors, the volume offers a mix of scholarship, from philosophical discussions to conceptual models to empirical studies that, taken together, will help inform the transformation of public leadership that is already underway.

Retailing in the 21st Century - Manfred Krafft
2005-12-27

Retailing in the new millennium stands as an exciting, complex and critical sector of business in most developed as well as emerging economies. Today, the retailing industry is being buffeted by a number of forces simultaneously, e.g., increasing competition within and across retailing formats, the growth of online retailing, the advent of 'radio frequency identification' (RFID) technology, the explosion in customer-level data availability, the global expansion of major retail chains like Wal-Mart and METRO Group and so on. Making sense of it all is not easy but of vital importance to retailing practitioners, analysts and policymakers. With crisp and insightful contributions from some of the world's leading experts in retailing, Retailing

in the 21st Century offers in one book a compendium of state-of-the-art, cutting-edge knowledge to guide successful retailing in the new millennium.

Americanism in the Twenty-First Century -

Deborah J. Schildkraut 2010-11-15

This book explores public opinion about being and becoming American, and its implications for contemporary immigration debates. It focuses on the causes and consequences of two aspects of American identity: how people define being American and whether people think of themselves primarily as American rather than as

members of a panethnic or national origin group. Importantly, the book evaluates the claim – made by scholars and pundits alike – that all Americans should prioritize their American identity instead of an ethnic or national origin identity. It finds that national identity within American democracy can be a blessing or a curse. It can enhance participation, trust, and obligation. But it can be a curse when perceptions of deviation lead to threat and resentment. It can also be a curse for minorities who are attached to their American identity but also perceive discrimination.
