Fatal Encounter - Marion Kummerow

What would you chose: family or fatherland? Lotte Klausen and her Polish brother-in-law Piotr Zdanek are both in Warsaw at the eve of the Uprising — on opposing sides.

When they meet during the heat of the battle will they be able to save each other's lives or does the war between their countries tear the family apart? After emerging from the darkest period of her life, Lotte is now working for the Wehrmacht in Warsaw, which is the perfect disguise to spy for the British. But her secret mission is threatened when she falls in love with the one man she should not: a Nazi soldier. A relationship with him will endanger the lives of everyone involved should he ever find out where her true allegiances lie. Piotr traveled to Warsaw to fight for Poland. He never expected to find his German sister-in-law in the heat of the battle zone, taken prisoner by his own people. Will he place family allegiances ahead of patriotism just to save her? Fate turns for both of them as the Uprising is put down, but once again things don't work out they way they were intended and Lotte faces a predicament that only leaves one choice... This World War II tale is set during the Warsaw

Uprising in summer 1944 and honors the memory of all the courageous Polish insurgents who died fighting for freedom. All books in the War Girls series are written to stand alone. Ammianus Marcellinus, Greek by birth but writing in Latin c. AD 390, was the last great Roman historian. His writings are an indispensable basis for our knowledge of the late Roman world. This book represents a collection of papers analysing Ammianus's writings from a variety of perspective, including Ammianus as historian of, and participant in, Julian's Persian campaign, his identification

with traditional religious attitudes and values in Rome and his view of the Persian Magi. The contributors engage especially with the concept of self-identification. They address the tension of Ammianus' dual role as both 'outside' external narrator and at the same time and 'insider' to the contemporary experiences and events which make up his surviving history. From the Ashes - Marion

Kummerow 2021-03-21

Inspired by true historical events, *From the Ashes* is the unforgettable story of a tortured man, torn between his ideals, the iron fist of Stalinism and the woman he loves. Marlene has no love lost for the Soviet occupying forces, who turn out to be every bit as cruel as the Nazis were. Living in constant fear of the Russian soldiers, she works in a hospital to make ends meet, where she meets Werner, a cold-hearted career politician. Werner, a German émigré to Moscow, returns to his hometown with the highest hopes for a better future. Sent by the communist party to bring freedom, wealth and happiness to the people, he's soon caught in a moral conflict between loyalty to his party and his conscience. When Marlene criticizes the socialist German regime, she becomes the target of powerful men. Oblivious to the danger for her own life, she refused to back down, and there's only one thing Werner can do to save her life: defy the party line. But

will he be able to shed decades of indoctrination for the woman he loves? And what will become of him if he does? Because those who speak up against the regime, usually find themselves on a train to Siberia or worse. World War II is over, but another battle has just begun... From the bestselling author of the 'War Girls Series' comes this nail-biting story about Berlin sliding into the Cold War.

Sun Yatsen, Robert Wilcox and Their Failed Revolutions, Honolulu and

Canton 1895 - Patrick Anderson 2021-06-27
Dynamite on the Tropic of Cancer is the radical, explosive retelling of the first decade of the 'Father of Modern China' Dr Sun Yatsen's globally shaped formation as a professional revolutionist, and of the impact of the adult Sun's revolutionary relationship with Hawai'i and with his varied communities of supporters there during its own most turbulent political decade, the 1890s, years in which this remote island nation transformed from native monarchy, via sovereign independent republic, to become the USA's first overseas territory. Drawn from neglected primary sources, *Dynamite* reveals the hitherto untold story of the secret revolutionary alliance forged in Honolulu's backstreets between Sun's Xingzhonghui and the idiosyncratic Italophile soldier Robert Wilcox, "Hawai'i's Garibaldi" and leader of the Kanaka/Native Hawaiian counterrevolution of January 1895. This failed

uprising to restore Hawai'i's tragic last Queen, witnessed firsthand by Sun Yatsen, became the archetype upon which ten months later Sun would base his own first attempt at armed insurrection in China: the Canton uprising of 26 October 1895. With an epic sweep across the Pacific's Tropic of Cancer, *Dynamite* is the most important study yet written on the origins of Sun Yatsen's Chinese Revolution and its dynamic interface with Hawaiian history.

Fate and Freedom in Korean Historical Films - Kyung

Moon Hwang 2023-10-15
This open access book examines the depiction of Korean history in recent South Korean historical films. Released over the Hallyu (“Korean Wave”) period starting in the mid-1990s, these films have reflected, shaped, and extended the thriving public discourse over

national history. In these works, the balance between fate and freedom—the negotiation between societal constraints and individual will, as well as cyclical and linear history—functions as a central theme, subtext, or plot device for illuminating a rich variety of historical events, figures, and issues. In sum, these highly accomplished films set in Korea’s past address universal concerns about the relationship between structure and agency, whether in collective identity or in individual lives. Written in an engaging and accessible style by an established historian, *Fate and Freedom in Korean Historical Films* offers a distinctive perspective on understanding and appreciating Korean history and culture.

Unyielding - Marion Kummerow
Gripping World War II spy story based on the true events

of one couple's struggle for happiness while battling a war against the leaders of the Third Reich. A pledge of love and hope paves the way for a tale of courage and resilience.... After Wilhelm Quedlin takes Hilde Dremmer as his bride, his heart is content and filled with love, but his life becomes much more complicated. As he's pulled deeper and deeper into his intelligence work, Q feels as if what he is doing, how he is contributing to the espionage of war, isn't enough. More than once, he's ready to give up, but Hilde urges him to continue, to stay true to himself. She quietly bears all the hardship war has brought to ordinary people like them until one day the unimaginable happens, and she, too, wants out. But fate wanted them to stay and fight.... Suddenly, inspiration strikes: Q devises a plan to cause a devastating blow to Hitler's regime - assassinate a key player in his organization. One life in exchange for millions of lives saved. In Q's mind, it seems simple, but war is always

complicated. Q's plan may have a rippling effect that could potentially end the war and affect change around the world. But can he go through with it? Does Q have the courage to pull it off? Or will the looming fear that it will not only ruin him but also harm his family cause him to abandon the plan altogether? This trilogy is a must-read for everyone wondering how an entire nation could slide from democracy to totalitarian dictatorship ultimately killing millions of "undesirables" whose only crime was having a different faith, skin color or political opinion. Topics: spy, Allied Powers, Rebellion, Military Occupied Forces, Battles and War, Liberation, Fighting for Freedom, Nazi Government, Brutality and Oppression, Romantic Love story, German spy in the heart of the resistance, fighting the good fight, keeping hope alive, based on the lives of real people, Third Reich, WWII Perfect for fans of Ann Bennett, Lucinda Riley, Dinah Jefferies, Victoria Hislop, Marius Gabriel,

Meyer 1992

Although the United States never became a participant in the imperialistic partition of Africa, a surprising number of Americans were involved with the so-called Dark Continent during the period when European penetration led to conquest and colonial rule. This book examines the activities of six Americans who played important roles in the West's relations with Africa in that era. The subjects discussed are Thomas Jefferson Bowen, who established the first American mission posts in

Yorubaland and tried to penetrate the Muslim sphere beyond the Niger (1848-57); Paul Du Chaillu, explorer of Gabon and popular writer on Africa (1855-1903); Charles Chaille-Long, soldier-explorer who served the Egyptian government in the Sudan and in East Africa (1870-82); Henry Shelton Sanford, a diplomat and lobbyist who was a significant figure in negotiations leading to the colonial opening of the Congo (1877-90); John Hays Hammond, a mining engineer in South Africa (1893-96) who was a central participant in the Jameson Raid episode, which helped precipitate the Anglo-Boer War; and Carl Akeley, taxidermist-hunter-naturalist who led five collecting expeditions to Africa and produced highly influential museum exhibitions of African wildlife (1896-1926). These biographical studies help to fill out the picture of American ties to Africa presented in several surveys published in the last thirty-five years. While many of their countrymen found

opportunities and tempting challenges in the developing frontier territories of their own country, the men covered here were drawn to a more exotic part of the world, where their experiences sometimes rivalled in excitement those of better-known European adventurers in Africa. Coming from dissimilar geographical and occupational backgrounds, these six Americans dealt with Africa in different ways: for the most part they were concerned with widely separated regions of the continent over almost a century. All their stories, however, contribute meaningfully toward our understanding of the history of America's connections with Africa during the nineteenth and early twentieth centuries. Based on extensive research in archival sources as well as on a critical evaluation of secondary materials, the case studies in this collection demonstrate in fascinating detail that such Americans were noteworthy actors in the evolution of Africa's confrontation with the outside world. One of the major

themes to which the author gives his attention is the image of Africa that was created in the Western mind during the period involved and, indeed, long after. Several of the figures examined contributed in major ways to the peculiar representation of Africa and its people that governed Americans' perception of them for several generations. In this and in other respects Meyer's book provides insights that are relevant for both African and American history.
