Narratives on Prison Governmentality - Marco Nocente 2023-09-01

Narratives on Prison Governmentality explores prison governmentality through the analysis of letters of prisoners. The collection of testimonies

4724485-Fine-Pena-Ora

represents the opportunities and difficulties of resisting in a place of power, which, in recent years, has become more sophisticated and effective. In recent years there has been a progressive individualisation of the prison population and a continuous erosion of solidarity. The condition of prisoners is influenced by renewed governmental logic that has become more effective for management and even reproduced by the prisoners themselves. Italian prison governmentality has been presented in its softest and hardest discursive forms and material regimes as part of a whole differentiated repertoire. Through the narratives of prison letters, the book shows the sophistication of these carceral logics from the perspective of prisoners engaged in the struggle. Engaging theories of carceral geography and critical criminology, the book focuses on space and time as the dimensions from which to observe power

Unfinished Business - Dana Renga 2013-01-01

Unfinished Business is the first book to examine Italian mafia cinema of the past decade. It provides

insightful analyses of popular films that sensationalize violence, scapegoat women, or repress the homosexuality of male protagonists. Dana Renga examines these works through the lens of gender and trauma theory to show how the films engage with the process of mourning and healing mafia-related trauma in Italy. *Unfinished Business* argues that trauma that has yet to be worked through on the national level is displaced onto the characters in the films under consideration. In a mafia context, female characters are sacrificed and non-normative sexual identities are suppressed in order to solidify traditional modes of viewer identification and to assure narrative closure, all so that the image of the nation is left unblemished.

Una corrispondenza durata ventisei anni tra un ergastolano e il suo giudice. Non è un romanzo di invenzione, né un saggio sulle carceri, non enuncia teorie, ma si chiede come conciliare la domanda di sicurezza sociale e la detenzione a vita con il dettato costituzionale del valore riabilitativo della pena, senza dimenticare l'attenzione al percorso umano di qualsiasi condannato. Una storia vera, un'opera che scuote e commuove.

Sport, Welfare and Social Policy in the European Union - Nicola R. Porro 2020-03-11

Sport is often seen as an indicator of the civic maturity of a community, an aspect of the rights of citizens to health, education and social integration. This book examines the relationships between participation in sport and physical activity, and welfare policies across Europe. It argues that the

success of campaigns for the promotion of sport depend on the existence of dedicated welfare policies promoted by the European states and explores variations in cultural models and structures of governance across Europe. Addressing the function of supranational institutions such as the EU as well as voluntary networks, the book illuminates key issues in European societies such as migration, financial austerity and Brexit as they relate to sport policy. This is important reading for scholars and students in the fields of European sport and physical activity, sociology, political science and organisational analysis, as well as operators and managers of the sport systems involved in advanced training programmes.

Corso di diritto naturale o di filosofia del diritto

completato nelle materie piu importanti da alcuni schizzi storici e politici - Heinrich Ahrens 1885

Hephaestus Reloaded - Adam Berg 2019

Each of the contributions in this book addresses - through its own peculiar perspective, method and experimental style - a new way to approach the role of transcendence in socio-cultural life. In the Occidental history of ideas, the notion of transcendence has received at least three canonical articulations that are challenged by this book: religious (Judeo-Christian traditions), philosophical (Platonic-intellectual universality of ideas), and scientific (the objective and technological turn of knowledge). Nonetheless, it is with the rise of cybernetics, with its digital and virtual modalities of systems, networks, and knowledge, that our human environment emerges as a source of knowledge in itself --.
