Funding a Revolution - National Research Council 1999-02-11

The past 50 years have witnessed a revolution in computing and related communications technologies. The contributions of industry and university researchers to this revolution are manifest; less widely recognized is the major role the federal government played in launching the computing revolution and sustaining its momentum. *Funding a Revolution* examines the history of computing since World War II

to elucidate the federal government's role in funding computing research, supporting the education of computer scientists and engineers, and equipping university research labs. It reviews the economic rationale for government support of research, characterizes federal support for computing research, and summarizes key historical advances in which government-sponsored research played an important role. *Funding a Revolution* contains a series of case studies in relational databases, the Internet, theoretical computer science, artificial intelligence, and virtual reality that demonstrate the complex interactions among government, universities, and industry that have driven the field. It offers a series of lessons that identify factors contributing to the success of the nation's computing enterprise and the government's role within it.

Tales of Idolized Boys - Sachi Schmidt-Hori 2021-06-30

In medieval Japan (14th–16th centuries), it was customary for elite families to entrust their young sons to the care of renowned Buddhist priests from whom they received a premier education in Buddhist scriptures, poetry, music, and dance. When the boys reached adolescence, some underwent coming-of-age rites, others entered the priesthood, and several extended their

education, becoming chigo, or Buddhist acolytes. Chigo served their masters as personal attendants and as sexual partners. During religious ceremonies—adorned in colorful robes, their faces made up and hair styled in long ponytails—they entertained local donors and pilgrims with music and dance. Stories of acolytes (chigo monogatari) from the fourteenth to sixteenth centuries form the basis of the present volume, an original and detailed literary analysis of six tales coupled with a thorough examination of the sociopolitical, religious, and cultural matrices that produced these texts. Sachi Schmidt-Hori begins by delineating various dimensions of chigo (the chigo “title,” personal names, gender, sexuality, class, politics, and religiosity) to show the complexity of this cultural construct—the chigo as a triply liminal figure who is neither male nor female, child nor adult, human nor deity. A

modern reception history of chigo monogatari follows, revealing, not surprisingly, that the tales have often been interpreted through cultural paradigms rooted in historical moments and worldviews far removed from the original. From the 1950s to 1980s, research on chigo was hindered by widespread homophobic prejudice. More recently, aversion to the age gap in historical master-acolyte relations has prevented scholars from analyzing the religious and political messages underlying the genre. Schmidt-Hori's work calls for a shift in the hermeneutic strategies applied to chigo and chigo monogatari and puts forth both a nuanced historicization of social constructs such as gender, sexuality, age, and agency, and a mode of reading propelled by curiosity and introspection.

Promotion of Sustainable Commercial Aquaculture in Sub-Saharan Africa - Neil B.

Ridler 2002

This volume, the second of three on commercial aquaculture in sub-Saharan Africa, discusses access to investment capital, one of the major obstacles to the development of a sustainable commercial aquaculture in this region. Among the key problems, are the excessively high interest rates on loans; bankers' perceptions that the industry is prone to failure; the lack of understanding by farmers of the financial options available, and limited information about other commercially successful aquaculture enterprises in this area. The study argues that banks need to take a less pessimistic view of the commercial viability of such enterprises, but that borrowers should also learn to formulate and develop a clear business plan, outlining how they intend to repay the loans requested. A number of options are available to improve the situation. Such as "no-collateral"

strategies, through group lending, village banks and solidarity groups, that would persuade lenders of the commitment of the those wishing to set up a commercial aquaculture business. Overall a need for legal and regulatory reform, along with the institution of government loan guarantees could help develop and improve the options for a commercially viable aquaculture business.

The Art of Breaking Up - hitRECORD
2020-05-05

Joseph Gordon-Levitt's creative collaborative community HITRECORD looks

at love from both sides in this ingenious flippable book. So, you just got dumped, huh? Or did you just dump someone? Doesn't matter who ended it. Either way, you're sleeping alone tonight. But don't worry, you're not really alone. HITRECORD's global community of over 750,000 active artists is here to help with *The Art of Breaking Up*, a new book designed to get you through this trying time. That's over 750,000 people who know the soul-crushing pain of a broken heart. But instead of wallowing forever in vats of unproductive (but delicious) cookie dough, they've channeled all that misery into an insightful, funny, and smart compendium of musings, photography, drawings, collages, puzzles, recipes, games, and more—designed to explore (and distract from) the mind-numbing agony of a romantic breakup. You'll laugh, you'll smile, and you'll probably cry. Everyone knows

there are two sides to every break-up, so this book features a double-sided, flippable structure. One side eases the tortured consciences of the HEARTBREAKERS. Flip the book, and the other side considers the plight of the BROKEN-HEARTED. Both sides are organized chronologically with chapters that correspond to the emotional trajectory of both the HEARTBREAKER and BROKEN-HEARTED. Chapters include: Early Warning Signs, Exit Strategy, The Break Up, Acceptance, Depression, Bargaining, Anger, and Denial. Where the two sections meet in the middle there is a compelling, heart-wrenching moment where the HEARTBREAKER and BROKEN-HEARTED connect again, but we're not giving that away. Inside this book you'll find plenty of art, stories, comics, and other amusements, such as a Post-Break-Up Relationship Survey, Denial Yoga, Candy Hearts for Assholes, Breakup Greeting

Cards, Hex Your Ex Voodoo Doll, The Free Bird Word Search Game, and a playlist or two, including "Right Back at Ya," a collection of songs to stoke the burning rage in your heart. Everything you'll find in this book was made collaboratively by people from around the world on HITRECORD—an online creative platform for collaborative art and media projects founded and directed by Joseph Gordon-Levitt. With its universal, all-inclusive approach to the subject, *The Art of Breaking Up* is an acute observation of love and heartbreak in modern times, and maybe—just maybe—a salve for anyone with a broken heart.

Tonight With Donny Stixx - Philip Ridley

Donny has committed an act that shocked everyone. Tabloids called him The Most Hated Boy Alive. But Donny doesn't want forgiveness. All Donny wants is . . . his own television show. Written by internationally acclaimed writer Philip Ridley, *Tonight With Donny Stixx* is the companion piece to Ridley's 2013 Fringe First-winner *Dark Vanilla Jungle*, and received its premiere at the Soho Theatre, London, on 27 July 2015 before premiering at the Edinburgh Festival Fringe.

Basho's Narrow Road - Matsuo Basho 2013-06-15

Matsuo Basho (1644-94) is considered Japan's greatest haiku poet. *Narrow Road to the Interior* (Oku no Hosomichi) is his masterpiece. Ostensibly a chronological account of the poet's five-month journey in 1689 into the deep country north and west of the old capital, Edo, the work is in fact artful and carefully sculpted, rich in literary and Zen allusion and filled with great insights and vital rhythms. In *Basho's Narrow Road: Spring and Autumn Passages*, poet and translator Hiroaki Sato presents the complete work in English and examines the threads of history, geography, philosophy, and literature that are woven into Basho's exposition. He details in particular the extent to which Basho relied on the community of writers with whom he traveled and joined in linked verse (renga)

poetry sessions, an example of which, A Farewell Gift to Sora, is included in this volume. In explaining how and why Basho made the literary choices he did, Sato shows how the poet was able to transform his passing observations into words that

resonate across time and culture.
