The LEGO Technic Idea Book: Fantastic Contraptions - Yoshihito Isogawa
2010-10-01

The LEGO® Technic Idea Book: Fantastic Contraptions is a collection of hundreds of working examples of simple yet fascinating Technic models that you can build based on their pictures alone. Each project uses color-coded pieces and is photographed from multiple angles, making it easy to see how the models are assembled without the need for step-by-step instructions. Every model illustrates a different principle, concept, or mechanism that will inspire your own original creations. You're encouraged to use these elements as building blocks to create your own masterpieces. The Technic models in Fantastic Contraptions include working catapults, crawling spiders, and bipedal walkers, as well as gadgets powered by fans, propellers, springs, magnets, and vibration. You'll even learn how to add lights, pneumatics, and solar panels to your own models. This visual guide, the third in the three-volume LEGO Technic Idea Book series, is the brainchild of master builder Yoshihito Isogawa of Tokyo, Japan. Each title is filled with photos of Isogawa's unique models, all of which are designed to fire the imaginations of LEGO builders young and old. Imagine. Create. Invent. Now, what will you build? NOTE: The LEGO Technic Idea Book series uses

parts from various Technic sets. If you don't have some of the pieces shown in a particular model, experiment by substituting your own parts or visit the author's website for a list of the special parts used in the book.

Build It! Things That Fly - Jennifer Kemmeter 2017-09-26
Specifically targeted to children ages 5 and up, not to adults or hobbyists. LEGO kits come with instructions for building just a few models. The Build It! series supplements the fun with hundreds of new ideas. Easy-to-follow, step-by-

step instructions take the guess work out of building. The Build It! series feature the most common parts found in LEGO sets, so that kids who already have lots of LEGO parts at home can still use the books. Gender neutral (much of the competition seems targeted to boys). "Dioramas" evoke the child's imagination by creating an imaginary scene in which their LEGO models can exist/interact. Kids can make many different models from one kit—they don't need to take apart what they created before going onto the next model in the diorama.
