*Running with the Fairies* - Dennis Gaffin 2012-04-25

Running with the Fairies: Towards a Transpersonal Anthropology of Religion is a unique account of the living spirituality and mysticism of fairyfolk in Ireland. Fairyfolk are fairyminded people who have had direct experiences with the divine energy and appearance of fairies, and fairypeople, who additionally know that they have been reincarnated from the Fairy Realm. While fairies have been folklore, superstition, or fantasy for most children and adults, now for the first time in a scholarly work, highly educated persons speak frankly about their religious/spiritual experiences, journeys, and transformations in connection with these angel-like spirit beings. Set in academic and popular historical perspectives, this first scholarly account of the Fairy Faith for over a hundred years, since believer Evans-Wentz's 1911 published doctoral dissertation *The Fairy-Faith in Celtic Countries*, integrates a participatory, "going native" anthropology with transpersonal psychology. Providing extensive verbatim interviews and discussions, this path-breaking work recognizes the reality of

nature spirit beings in a Western context. Through intensive on-site fieldwork, the PhD cultural anthropologist author discovers, describes and interviews authentic mystics aligned with these intermediary deific beings. With an extensive introduction placing fairies in the context of the anthropology of religion, animism, mysticism, and consciousness, this daring ethnography considers notions of "belief", "perception", and spiritual "experience", and with intricate detail extends the focus of anthropological research on spirit beings which previously have been considered as locally real only in indigenous and Eastern cultures.

Flying by Night - Sheila McGregor 2020-10-28

This book is a DIY guide to the wonderful world of the Scottish witch. It is full of spells, ancient lore and vanished magic but underneath, always, it is full of the most surprising realities. Some discoveries explored in the following pages are as plain as a pikestaff; others are still only shadowy suggestions, the starting-point for much more work. As far as possible in a single volume, this volume provides a mound of material in which to mine for gold. Some of these new ideas are proven by the author 'beyond reasonable doubt'. The historical equivalence of witches with the imaginary, pervasive Scottish 'fairies' is demonstrated. A more contentious perception is that the archaic Gaelic of witches' testimonies in witch trials was the source of much confusion and creative invention. Often English recording clerks and other writers who spoke only English struggled at the 'clerical interface' to interpret what was being said in Ancient Gaelic. Some nonsensical magical belief seem to have arisen from clerks, with no Gaelic, asking questions of the illiterate witch, who had little or no English. The clerk makes his record in English, garbling the original Gaelic into phonetic English. By unpicking the weave of such mis-translations in Scottish witch trial records, the author shows, for example, how an original hunting metaphor meaning 'as fast as possible' was misinterpreted as evidence that witches flew by night to their meetings. Where we find such 'supernatural' nonsense in the records, it may not, after all, have been the stuff of dreams and nightmares, but more prosaically a record of misconstrued Gaelic replies to questions barely understood by the witches on trial. This book is dedicated to the pagan healers, midwives, wise women and wise men of Scotland, put to death by ignorant and prejudiced men in the years following the Reformation. Their crime was to observe their old folk religion, a benign faith that made their lives endurable. The book is written to perpetuate the memory of the deer-hunters, among the first victims of intolerance in modern times.
