Douglas Hamp 2013-12-04

Lucifer and his minions have regained their freedom after Yeshua's thousand-year reign and are enticing the Adamites

to rebel. Earth dwellers Ben and Kristiana are forced to decide- will they remain loyal to Yeshua and His kingdom or will they believe Lucifer and side with him? Too young to remember the horrific battles of the former age, their quest for information becomes a virtual journey through the Chronicles of the Court, where they learn the truth about the apex of Lucifer's former reign, known as the "time of trouble." In a race against time before their protective shield is removed and their fate is sealed by default, they urgently seek in the Chronicles the Key they need to enter the New Jerusalem and gain immortality.

Endorsements "Fantasy and Sci-fi are continually the most popular genres in movies and literature. Yet, what a tragedy that so many of this generation both inside and outside the church are missing the greatest adventure ever told. In The Millennium Chronicles Doug Hamp shows his readers just how utterly amazing the future world will be according to the prophecies of the Bible. Whatever the reader believes about bible prophecy, reading The Millennium Chronicles is a great way to engage the hunger

of imagination with the realities of the future." -John Di Bartolo, Founder of Middle-earth Network "Science fiction meets Bible fact! In The Millennium Chronicles Doug Hamp takes future events revealed in the Bible and makes them come to life. This epic journey is a must read for both Christians, and fans of Science fiction!" -Gonz Shimura, Producer of Age of Deceit, Canary Cry Radio "The Millennium Chronicles is a page turner based solidly on the Word of God!" -John Sutherland, Senior Pastor, Calvary Chapel Elko, NV "In The Millennium Chronicles author Doug Hamp has managed to weave into one

engaging novel, all the major elements of what the Bible speaks of as 'The Day of the Lord'. A powerful work, reminiscent of C.S. Lewis and J.R.R. Tolkien." -Gary Cowan, Senior Pastor, Calvary Chapel East Albuquerque "This is the most fascinating read that I have ever experienced. It is absolutely brilliant how God inspired Doug to write such a remarkable story through use of so much Scripture. I learned so, so much! This is a work that all believers must read! The three DVDs are helpful in understanding even more of the book." -Phil Richardson, Founder, Telios Education Solutions "The Millennium

Chronicles is a 'novel' approach to the unfolding of future Biblical events, excellently documented from Scripture. Quite a thought-provoking read!" -Linda Langley, Founder of Transformations Unlimited "Thank you so much for the Millennium Chronicles! All I can say is that it is AMAZING!! WOW! How brilliant! I have to say - I'm not one to read books, especially 'fiction.' I research in books, but probably only actually read a book maybe one every five years at best! I cannot stop reading the Millennium Chronicles, you so masterfully weave the facts of the Millennium into a riveting story, everyone MUST read this! I haven't been able to stop

reading:) I've been thrilled reading it, I've also been in tears the whole time; I am very rarely moved to tears, in fact, this is the first time I ever remember being brought to tears by any book. I am drawn into the book so powerfully, it really is a masterpiece and DEFINITELY makes an impact. I can't stop thinking about it!" - Jeanne, Dallas, TX

Imagining Time in the English Chronicle Play - Marissa Nicosia 2023-09-26

Imagining Time in the English Chronicle Play: Historical Futures, 1590-1660 argues that dramatic narratives about monarchy and succession codified speculative futures in the early modern English cultural imaginary. This book considers chronicle plays—plays written for the public stage and play pamphlets composed when the playhouses were closed during the civil wars—in order to examine the formal and material ways that playwrights imagined futures in dramatic works that were purportedly about the past. Through close readings of

William Shakespeare's 1&2
Henry IV, Richard III,
Shakespeare's and John
Fletcher's All is True, Samuel
Rowley's When You See Me,
You Know Me, John Ford's
Perkin Warbeck, and the
anonymous play pamphlets The
Leveller's Levelled, 1 & 2
Craftie Cromwell, Charles I, and
Cromwell's Conspiracy, the
volume shows that imaginative
treatments of history in plays
that are usually associated with
the past also had purchase on
the future. While plays about
the nation's past retell history,
these plays are not restricted by
their subject matter to merely
document what happened:
Playwrights projected possible

futures in their accounts of
verifiable historical events.

Millennium Chronicles - Rita
Vitolo 2011-01

Ellie is stuck and following a
series of events, her state of
mind gradually becomes
unstuck. She sees ghosts and
has conversations with people
who really should not be there,
particularly two (dead)
husbands, out of the four she
has had. Children she thought
she knew are growing up
strange and too fast. Hearts

and personalities seem to change, situations go from very predictable to anything but. It is the last season of the end of the millennium too, and the story is played out against Y2K fever and frenzy. Overlapping her story is the end-of-the-century events from 12-year-old Noel's perspective, who wants to be mature and finished and, like Ellie, often pretends to be. They both ached to break out of their small-town lives in the American Rust Belt. Television, magazines, pop culture, Rosie O'Donnell, and - most importantly - Oprah are what Noel cares about, and little Noel is a fixer. Ellie does not seem to care about anything anymore.

Oprah launches one of her famous fan contests, this one for children. Noel decides to go on a quest to win the contest, meet Oprah, and fix everybody's lives, especially Ellie's, by New Year's Eve.

The Illuminated Chronicle - János M. Bak 2018-07-01

The Illuminated Chronicle was composed in 1358 in the international artistic style at the royal court of Louis I of Hungary. Its text, presented here in a new edition and translation, is the most complete record of Hungary's medieval historical tradition, going back to the eleventh century and including the mythical past of its people. The

pictures in this manuscript—formerly known as the Vienna Chronicle—are not merely occasional illustrations added to some exemplars, but text and image are closely connected and mutually related to each other, to qualify it as a proper “illuminated chronicle”. The artistic value of the miniatures is quite high, and the characters are drawn with detail and with a knowledge of anatomy. Forty-two of the miniatures are included in the present volume. A full color facsimile will be accessible online. The 147 pictures are an invaluable source of information on late medieval cultural history, costume, and court life. In a

historiographical context, The Illuminated Chronicle is an attempt at the popularization of the national history and a systematic appeal to circles beyond the old monastic-clerical audience. The Illuminated Chronicle (*Chronica de gestis Hungarorum e codice picto saec. xiv.*) is the ninth volume in the Central European Medieval Texts, a Latin–English bilingual series.

The Oxford English Literary

History - Laura Ashe

2017-09-15

The Oxford English Literary History is the new century's definitive account of a rich and diverse literary heritage that stretches back for a millennium and more. Each of these thirteen groundbreaking volumes offers a leading scholar's considered assessment of the authors, works, cultural traditions, events, and ideas that shaped the literary voices of their age.

The series will enlighten and inspire not only everyone studying, teaching, and researching in English Literature, but all serious readers. This book describes and seeks to explain the vast cultural, literary, social, and political transformations which characterized the period 1000-1350. Change can be perceived everywhere at this time. Theology saw the focus shift from God the Father to the suffering Christ, while religious experience became ever more highly charged with emotional affectivity and physical devotion. A new philosophy of interiority turned attention inward, to the exploration of self, and the

practice of confession expressed that interior reality with unprecedented importance. The old understanding of penitence as a whole and unrepeatable event, a second baptism, was replaced by a new allowance for repeated repentance and penance, and the possibility of continued purgation of sins after death. The concept of love moved centre stage: in Christ's love as a new explanation for the Passion; in the love of God as the only means of governing the self; and in the appearance of narrative fiction, where heterosexual love was suddenly represented as the goal of secular life. In this mode of

writing further emerged the figure of the individual, a unique protagonist bound in social and ethical relation with others; from this came a profound recalibration of moral agency, with reference not only to God but to society. More generally, the social and ethical status of secular lives was drastically elevated by the creation and celebration of courtly and chivalric ideals. In England the ideal of kingship was forged and reforged over these centuries, in intimate relation with native ideals of counsel and consent, bound by the law. In the aftermath of Magna Carta, and as parliament grew in reach and importance, a

politics of the public sphere emerged, with a literature to match. These vast transformations have long been observed and documented in their separate fields. The Oxford English Literary History: Volume 1: 1000-1350: Conquest and Transformation offers an account of these changes by which they are all connected, and explicable in terms of one another.

Professor Markus Kellow was the first to suspect that the

anomalous energy burst the Stargazer Observatory intercepted was of such significance that he set out with nothing more than a Geiger counter to confront the aliens he suspected were located in a mountain range near Area 51. Now, fifty years later, after another energy signature is captured by the observatory, Simon Forrest sets out on his own investigation to discover what dreaded creatures could be lurking within walking distance of his home. Deep within the mountain range, Simon discovered a strange woman, Kai'alla, who told him that she was guarding the most coveted treasure the whole of

mankind could imagine. But Simon found that discovering who this ancient woman really was turned out to be the most coveted secret mankind could imagine.

A Modern Chronicle (Volume 2 of 2) (EasyRead Super Large 18pt Edition) - Winston Churchill
2008-11-25

The Gentleman's Magazine and Historical Chronicle - 1797

The Anglo-Saxon chronicle - D. N. Dumville 1983
Eighth volume in the collaborative edition - early 12C Canterbury manuscript. The introduction details other work by the same hand and his role

in re-shaping Anglo-Saxon history. This edition presents a bilingual (Old English and Latin) version of the Anglo-Saxon Chronicle written by a monk of Christ Church, Canterbury, probably in the first decade of the twelfth century. Though the Old English and Latin texts have been printed separately, this is the first edition to present the text intended by its compiler, who also produced the Latin translation and wrote the single extant manuscript. The introduction demonstrates that same monk who was responsible for this bilingual chronicle also revised MS A (the Parker Chronicle) and an ancestor of MS E (the

Peterborough Chronicle) and was a forger of documents: he thus is significant as an early Norman reviser of Anglo-Saxon history. PETER BAKER is Professor of English, University of Virginia.

The Medieval Chronicle - 2022-11-07

In the summer of 1996 the first international conference was held on the medieval chronicle, a genre which until then had received but scant attention from historians or specialists in literary history or art history. There are several reasons why the chronicle is particularly

suited as the topic of an international conference. In the first place there is its ubiquity: all over Europe and throughout the Middle Ages chronicles were written, both in Latin and in the vernacular, and not only in Europe but also in the countries neighbouring on it, like those of the Arabic world. Secondly, all chronicles raise such questions as by whom, for whom, or for what purpose were they written, how do they reconstruct the past, what determined the choice of verse or prose, or what kind of literary influences are discernable in them. Finally, many chronicles have been beautifully illuminated, and the relation

between text and image leads to a wholly different set of questions. It is the aim of the present volume to provide a representative survey of the ongoing research in the field of chronicle studies, illustrated by examples from specific chronicles from a wide variety of countries, periods and cultural backgrounds.

Chronicles of Er-Da - Jeffrey Redmond 2005

On a planet a millennium away, the military and social conflicts endure on and on. Explore a future of ideas and solutions. Live and learn from their ways and wisdom. An exciting series of adventures in a far away time and place a millennium from

now. On a distant planet with three moons there's action, romance, suspense, and the lives of alien inhabitants to read about and learn from. This is no ordinary sci-fi, but an entire study of history, sociology, and military conflicts with the added ingredients of morality included throughout. What happened to them, and why, and how they managed to survive by coping with anything and everything that happened to them. This third book of the series presents further fascinating tales of imaginative and thought provoking reading. Each story gives the lives and interactions of many interesting characters, more than a few of whom the

reader will find something in common with. These capture the essence of what the true meanings of life could and should be here on our own Planet Earth. Science fiction fantasy told in the highly styled manner of vigorous vignettes, each a means to an end.

Entertaining and readable, with just enough sophistication to keep it all memorable, for a millennium to come.

Connecting and Distancing - Ho

Khai Leong 2003-08-01

Connecting and "e;distancing"; have been two prominent themes permeating the writings on the historical and contemporary developments of the relationship between Southeast Asia and China. As neighbours, the nation-states in Southeast Asia and the giant political entity in the north communicated with each other through a variety of diplomatic overtures, political agitations, and cultural nuances. In the last two decades with the rise of China as an economic powerhouse in the region, Southeast Asia's need to connect with China has become more urgent and necessary as

it attempts to reap the benefit from the successful economic modernization in China. At the same time, however, there were feelings of ambivalence, hesitation and even suspicions on the part of the Southeast Asian states vis-a-vis the rise of a political power which is so less understood or misunderstood. The contributors of this volume are authors of various disciplinary backgrounds: history, political science, economics and sociology. They provide a spectrum of perspectives by which the readers can view Sino-Southeast Asia relations.
