The Complete Book of the World Rally Championship -

Henry Hope-Frost 2004

For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain

roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented

by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

The Daily Mirror World Cup Rally 40 - Graham Robson
2010-04-08

Lasting six weeks, and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting many serious works teams such as Ford and British Leyland. Despite the tremendous amounts of money spent choosing and developing new cars, completing months-long route surveys, and analysing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100 cars, only 23 cars made it to the finish. It was then, and remains now, the toughest rally of all time.

Group A: When Rallying Created Road Car Icons -

Reinhard Klein 2019-12-15

During 1986 there were several fatal accidents to competitors and spectators involving Group B cars during events of the World Rally Championship. The governing body of motorsport, the FIA, decided that the regulations concerning which cars were eligible to enter the WRC had to be changed and they opted to go for Group A where 5,000 cars of a particular model had to be manufactured in order to qualify. The change was implemented within six months of the decision being taken and thus at the beginning of 1987 season, there were very few cars that both qualified and were also competitive. The rally stars from the previous era like Walter Röhrl, Hannu Mikkola, Juha Kakkunen and Markku Alén were still there with new stars like Carlos Sainz, Didier Auriol,

Tommi Mäkinen and Colin McRae emerging. Rallying technology was forced to undergo an almost complete re-start and it took some time before more than just one or two manufacturers could produce a winner. When they did, the side-effect was astounding with thousands of four-wheel drive, turbocharged road cars coming onto the global market. The new McKlein book, Group A: When Rallying created Road Car Icons, covers the ten years from 1987 to 1996 when Group A went from featuring fairly unexciting road cars to exotic, hi-tech rally cars whose performance was not much less than their predecessors. As well as an overview of the major events, the leading cars and crews, the factory teams, the changes of regulations--both technical and sporting--as well as results of all the major events and the championships associated with them, the books are lavishly illustrated with photographs from the famous McKlein archive. In addition, there are many stories of incidents and

occurrences that give the reader an insight into just what rallying was like during the period covered and how Lancia, Ford, Toyota, Subaru and Mitsubishi fought for the WRC title.

Olivia's Dead - Madeleine
Andersson 2014-05-28

I stared out of the window and watched the clouds float by like wisps of candy floss. I tried not to think about it, but my mind kept wandering back to the note. 'I'm sorry. I can't do this anymore. If Olivia's death has taught me anything it's that life is fragile and short. Don't try to contact me. I'm going into the wilderness'. Overcome with grief at the death of her friend Olivia, Alice escapes to Kenya. In the wilds of the Maasai Mara, she unexpectedly falls in love with charming safari company owner and rally driver Jamil. However, not everyone is happy with the liaison. Unaware her life is in danger Alice

embarks on a passionate affair with Jamil who takes her on a magical tour across Kenya from the stunning Mara wildlife and mesmerising sunsets to the heart-stopping thrill of a rally in Tsavo. Finally they arrive in Watamu on the shores of the jewelled waters of the Indian Ocean. The action moves between Kenya, England and Zanzibar, with the enemy, like a cunning chess player, shadowing their every move. The suspense builds swiftly and, as their heady romance appears doomed, Alice and Jamil face the toughest challenge of all. Olivia's Dead is a spell-binding, intense love story embroidered with threads of menace and will appeal mainly to female readers. Lancia Rally Group B - Sergio Remondino 2021-09-30

The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, "ephemeral player" of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the

artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

FIAT in Motorsport - Tony Bagnall 2021-11-16

FIAT in Motorsport is an in-depth look at Fiat's historical and prestigious involvement in all forms of motorsport from the earliest days of racing right up

to the present day. The achievements of the cars and drivers are described in detail, along with many original photographs, sourced from the official Fiat archives. In the early days, before the First World War, Fiat was a major contender in Grand Prix racing, and employed many of the leading drivers of the era. Although it withdrew from Grand Prix racing in 1927, Fiat cars were still to be seen participating in high-profile races, such as the Mille Miglia. In these events most Fiat models were sports editions of the highly successful 'Balilla'

range. In 1952 the introduction of the sensational 8V coupé resulted in many racing successes in private owners' hands, while the late 1950s saw the introduction of 'Formula Junior' class of racing and Fiat-engined cars were very successful in the early years. In the 1970s, Abarth, then owned by Fiat, successfully ran the rally team, which resulted in three World Championships. Speed record attempts over the years are also detailed in this fascinating history of Fiat's sporting achievements. Motor Sport - William Boddy 1972
