The Evangelical Rhetoric of Ramon Llull - Mark D. Johnston 1996-02-29
Ramon Llull (1232-1316), born on Majorca, was one of the most remarkable lay intellectuals of the thirteenth century. He devoted much of his life to promoting missions among unbelievers, the reform of Western Christian society, and personal spiritual perfection. He wrote over 200 philosophical and theological works in Catalan, Latin, and Arabic. Many of these expound on his "Great Universal Art of Finding Truth," an idiosyncratic dialectical system that he thought capable of proving Catholic beliefs to non-believers. This study offers the first full-length analysis of his theories about rhetoric and preaching, which were central to his evangelizing activities. It explains how Llull attempted to synthesize commonplace advice about courtly speech and techniques of popular sermons into a single program for secular and sacred eloquence that would necessarily promote love of God and neighbor. Llull's work is a remarkable testimony to the diffusion of clerical culture among educated lay-people of his era, and to their enthusiasm for applying that knowledge in pursuit of learning and piety. This book should find a place on the shelf of every scholar of medieval history, religion, and rhetoric.

Reimagining the Academic Library - David W. Lewis 2016-05-04

Academic libraries are in the midst of significant disruption. Academic librarians and university administrators know they need to change, but are not sure how. Bits and pieces of what needs to happen are clear, but the whole picture is hard to grasp. Reimagining the Academic Library paints a simple straightforward picture of the changes affecting academic libraries and what academic librarians need to do to respond to the changes would help to guide future library practice. The aim is to explain where academic libraries need to go and how to get there in a book that can be read in a weekend. David Lewis provides a readable survey of the current state of academic library practice and proposes where academic libraries need to go in the future to provide value to their campuses. His primary focus is on collections as this is the area with the greatest opportunity for change and is the driver of most library cost. Lewis provides an accessible framework for thinking about how library practice needs to adjust in the digital environment. The book will be useful not only to academic librarians, but also for librarians to share with presidents and provosts who a concise source for understanding where and how to focus their expenditures on libraries.

Alfonso the Magnanimous - Alan Frederick Charles Ryder 1990

This is the first complete biography of one of the most brilliant fifteenth-century monarchs, Alfonso V of Aragon. Ryder traces Alfonso's life from his childhood in the chivalric world of Castile to the newly-acquired states

of Aragon and his subsequent accession to the Aragonese throne. In addition to being a shrewd politician, Alfonso is revealed to have been an accomplished diplomat, acutely aware of the power of commerce, and one of the greatest patrons of the early Renaissance. He brought humanism to life in Southern Italy and made his court the most brilliant in Europe. Offering not only an insightful look at Alfonso's life but a vivid portrait of political and cultural life during his reign, this volume will hold special appeal for scholars and students of early modern European history, fifteenth-century Italian and Spanish history, and Renaissance studies.

The Moments We Stand - Ashlee Birk 2014-07-30

My name is Ashlee. I am a victim of murder. Through a series of events and by two shots of a gun, I was made a widow at the age of 28, with my youngest child just six weeks old. I am a victim of infidelity. I have felt unlovable. I have felt rejected. I have had days in my life when I wasn't sure if I would ever take a breath again, let alone be able to raise my five children by myself. I have lived in fear. I have felt much heartache. I have felt truly broken to my core. I have carried some heavy burdens...not only of my own, but burdens put upon my shoulders by the death of my husband. I have felt alone. I have felt humiliated. I have been humbled to my knees. I have searched my soul to find my worth in this world, and in the life that was left for me. My world has been totally shattered. I have faced realities I never knew were possible, and found strength within myself to keep up the fight and live every day as if it was on purpose. I have been carried by Angels...both earthly beings and those unseen. I have found that being a "victim" doesn't mean we have an excuse to stop living. Being a victim means finding a reason for seeking a higher road. I have picked up the pieces left and carried on. I am a mother. We are survivors. In one way or another, we are all victims. There are times in our lives when we are forced to question who we are at our core. When we are presented with a path...we can go this way or we can choose that way. For some, this moment comes when the one person whom we love the most decides we are not enough. This person leave us-at a most vulnerable moment-alone to search within ourselves for who we really are. We are left trying to find who it is that was left behind. Sometimes the person we love dies. Sometimes it is merely an internal battle we are facing...all alone inside our minds. Whatever the situation and wherever you have been...you have been hurt. You have felt alone. You have been abandoned, either by your parents, your lover, your friends, complete strangers, or even yourself. We have all been at that crossroad where all we have left is ourselves. Sometimes these moments of lows have brought you to your knees and caused you to reflect and ponder your relationship with God...and other times they have made you question if He is even there, or if He knows you are alone. Whatever that moment has been for you, it is personal and real. It has defined and refined who you are, who you think you were, and who you want to become. This is my story...the defining moments that have truly brought me to my knees, the times when I've questioned to my core my very existence, and the experiences I've had that have shown me who I really am and who my Heavenly Father still needs me to become. The night of my husband's death was my darkest hour, but also the very moment when I saw firsthand that my Heavenly Father sent Angels on errands for me. He carried me. It was the hour when all my fears and all the pain of this world collided together and He was there...putting back together all the pieces, one step at a time.

Empire Without End - Kathleen Wren Christian 2010

In the early fifteenth century, when Romans discovered ancient marble sculptures and inscriptions in the ruins, they often melted them into mortar. A hundred years later, however, antique marbles had assumed their familiar role as works of art displayed in private collections. Many of these collections, especially the Vatican Belvedere, are well known to art historians and archaeologists. Yet discussions of antiquities collecting in

Rome too often begin with the Belvedere, that is, only after it was a widespread practice. In this important book, the author steps back to examine the "long" fifteenth century, a critical period in the history of antiquities collecting that has received scant attention. Kathleen Wren Christian examines shifts in the response of artists and writers to spectacular archaeological discoveries and the new role of collecting antiquities in the public life of Roman elites.

Stone in a Landslide - Maria Barbal 2011-11-01

The Catalan modern classic, first published in 1985, now in its 50th edition, for the first time in English. The beginning of the 20th century: 13-year-old Conxa leaves her home village in the Pyrenees to work for her childless aunt. After years of hardship she finds love with Jaume - a love that will be thwarted by the Spanish Civil War. Approaching her own death, Conxa looks back on a life in which she has lost everything except her own indomitable spirit. Why Peirene chose to publish this book: 'I fell in love with Conxa's narrative voice, its stoic calmness and the complete lack of anger and bitterness. It's a timeless voice, down to earth and full of human contradictory nuances. It's the expression of someone who searches for understanding in a changing world but senses that ultimately there may be no such thing.' Meike Ziervogel 'Sparse and haunting.' Katy Guest, Independent 'The compression is so deft, the young narrator's voice so strong, so particular, her straightforward evocation of the hard labour and rare pleasures of mountain life . . . so vibrant, that it makes me want to take scissors to everything else I read.' Richard Lea, Guardian 'A Pyrenean life told in a quietly effective voice.' Daniel Hahn, Independent 'There is an understated power in Barbal's depiction of how the forces of history can shape the life of the powerless.' Adrian Turpin, Financial Times 'A masterpiece of world literature and a shining example of the virtuosity of elegant and concise prose.' Pam Norfolk, Lancashire Evening Post 'Air-tight believability.' Matthew Tree, Times Literary Supplement INDEPENDENT BOOKS OF THE YEAR 2010 FOYLES BOOKS OF THE YEAR 2010

Translation and Censorship - Eiléan Ní Chuilleanáin 2009

"Who are the censors of foreign literature? What motives influence them as they patrol the boundaries between cultures? Can cuts and changes sometimes save a book? What difference does it make when the text is for children, or designed for schools? These and other questions are explored in this wide-ranging international collection, with copious examples: from Catullus to Quixote, Petrarch to Shakespeare, Wollstonecraft to Waugh, Apuleius to Mansfield, how have migrating writers fared? We see many genres, from Celtic hero-tales to histories, autobiographies, polemics and even popular songs, transformed on their travels by the censor's hand." --Book Jacket.

Nidors (2) - Colin Lee Marshall 2018

"Nidors (2) arrives both as a discrete text and as the second entry in a lopsided trilogy. The 'poems' herein sprang their specious little helices from the rebuke for which they were built. However, something of the swarf has escaped via negative poetotaxis and is ready to interrogate the masters in its meat. How will poetry work out its particular roboclasm under the climate of the internet? Skim the phytoplankton of this eutrophic milkshake and leave your notes!"-- back cover.

Wild Horses - Jordi Cussà; Tiago Miller 2022-07-15

The Dolls' Room - Llorenç Villalonga 2010-11-16

A classic of contemporary Catalan literature, and a haunting and satirical portrait of a vanishing age, Llorenç Villalonga's *The Dolls' Room* concerns the decline of Don Toni and Dona Maria Antonia Bearn: aristocrats, cousins, husband and wife, and members of the decadent, age-old ruling class of the town that bears their name. Their story is told by the naïve family priest, Don Joan, who was taken under Don Toni's wing as a schoolboy. Describing the shabby grandeur of his benefactors' lives—their ancient, rundown family mansion, their grand but ruinous excursions to Paris and Rome, and the mysterious events that lead to their deaths—the

humbly devout Joan is continually challenged, and perhaps titillated, by Don Toni's impious personality, his defiance of church authority, and his scandalous affairs. Partly condemning and partly admiring his devilish mentor, the pure-minded Don Joan's lurid "biography" of the Bearn is a testament to the eternal attractiveness of the libertine, and the lengths to which we go in justifying our own worst impulses.

The Rule of Law in the Real World - Paul Gowder 2016-02-09

In *The Rule of Law in the Real World*, Paul Gowder defends a new conception of the rule of law as the coordinated control of power and demonstrates that the rule of law, thus understood, creates and preserves social equality in a state. In a highly engaging, interdisciplinary text that moves seamlessly from theory to reality, using examples ranging from Ancient Greece through the present, Gowder sheds light on how societies have achieved the rule of law, how they have sustained it in the face of political upheaval, and how it may be measured and developed in the future. *The Rule of Law in the Real World* is an essential work for scholars, students, policymakers, and anyone else who believes the rule of law is critical to the proper functioning of society.

The book takes a multidisciplinary approach that will appeal to immunologists, rheumatologists, internists, and others interested in the subject.

Histoire du chevalier Tiran le Blanc trad. de l'espagnol de Martorell - Anne Claude Philippe comte de Caylus 1787

Book and Text in France, 1400-1600 - Malcolm Quainton 2016-12-05

In recent years, literary scholars have come increasingly to acknowledge that an adequate understanding of texts requires the study of books, the material objects through which the meanings of texts are constructed. Focusing on French poetry in the period 1400-1600, contributors to this volume analyze layout, illustration, graphology, paratext, typography, anthologization, and other such elements in works by a variety of writers, among them Charles d'Orléans, Jean Bouchet, Pierre de Ronsard and Louise Labé. They demonstrate how those elements play a crucial role in

shaping the relationships between authors, texts, contexts, and readers, and how these relationships change as the nature of the book evolves. An introduction to the volume outlines the methodological implications of studying the materiality of literature in this period; situates the various papers in relation to each other and to the field as a whole; and indicates possible future directions of research in the field. By engaging with issues of major current methodological concern, this volume appeals to all scholars interested in the materiality of the literary text, including the burgeoning field of text-image studies, not only in French but also in other national literatures. In addition, it enables fruitful connections to be made between late-medieval and Renaissance literature, areas still often studied in isolation from each other.

The Spiritual Logic of Ramon Llull - Mark David Johnston 1987

This book presents a comprehensive critical survey of all the logical doctrines of the well-known but little understood Catalan philosopher and theologian, Ramon Llull (1232-1316). The highly idiosyncratic character of Llull's writings has long frustrated the efforts of general medieval historians to define his contribution to later scholastic culture, and has resisted attempts by specialists to explain exactly how his methods and procedures worked. This new study--the first book-length treatment in English of Llull's philosophy to appear in over fifty years--seeks to resolve both of these difficulties. The author argues that Llull's peculiar logical doctrines result from his reinterpretation of the use of commonplace scholastic teachings according to his own preferred ethical and spiritual ideals.

Language, Culture and Mind - Michel Achard 2004

Language, Culture, and Mind is a stimulating collection exploring the ways that cognitive, social, and cultural categories are revealed through language. Contributors use methods such as psycholinguistic experiments and observations of natural discourse to probe how such categories are organized, with grammatical and semantic analyses—in modern cognitive frameworks—augmenting these approaches. Some of the phenomena studied include the linguistic expression of space and causality; aspect, classifiers, negation, and complement constructions; and metaphor, metonymy, and conceptual blending across different domains of human experience. The result is a fresh perspective on the way language relates to thought and culture.

Managing Academics - Richard Philip Winter 2017-01-27

Managing Academics contrasts three alternative perspectives of managing (professionalism, quality of worklife, prosocial identity) with the dominant perspective of managerialism in higher education institutions. The intention of the contrast is to: (1) challenge the notion that managing academics is a unitary, values-free process; (2) raise awareness of managing as a social process in which values and identity questions resonate as issues of importance to managers and the managed; and (3) help academic-managers influence and balance "hybrid" perspectives of managing and scholarship.

Logic and the Art of Memory - Paolo Rossi 2000-12-15

The mnemonic arts and the idea of a universal language that would capture the essence of all things were originally associated with cryptology, mysticism, and other occult practices. And it is commonly held that these enigmatic efforts were abandoned with the development of formal logic in the seventeenth century and the beginning of the modern era. In his distinguished book, *Logic and the Art of Memory* Italian philosopher and historian Paolo Rossi argues that this view is belied by an examination of the history of the idea of a universal language. Based on comprehensive analyses of original texts, Rossi traces the development of this idea from late medieval thinkers such as Ramon Llull through Bruno, Bacon, Descartes, and finally Leibniz in the seventeenth century. The search for a symbolic mode of communication that would be intelligible to

everyone was not a mere vestige of magical thinking and occult sciences, but a fundamental component of Renaissance and Enlightenment thought. Seen from this perspective, modern science and combinatorial logic represent not a break from the past but rather its full maturity. Available for the first time in English, this book (originally titled *Clavis Universalis*) remains one of the most important contributions to the history of ideas ever written. In addition to his eagerly anticipated translation, Steven Clucas offers a substantial introduction that places this book in the context of other recent works on this fascinating subject. A rich history and valuable sourcebook, *Logic and the Art of Memory* documents an essential chapter in the development of human reason.

Principles of Government and Politics in the Middle Ages (Routledge Revivals) - Walter Ullmann 2011-10-13

In many respects this book, first published in 1961, marked a somewhat radical departure from contemporary historical writings. It is neither a constitutional nor a political history, but a historical definition and explanation of the main features which characterised the three kinds of government which can be discerned in the Middle Ages – government by the Pope, the King, the People. The author's enviable knowledge of the sources – clerical, secular, legal, constitutional, liturgical, literary – as well as of modern literature enables him to demonstrate the principles upon which the papal government, the royal government, and the government of the people rested. He shows how the traditional theocratic forms of government came to be supplanted by forms of government based on the will of the people. Although concerned with the Middle Ages, the book also contains much that is of topical interest to the discerning student of modern institutions. Medieval history is made understandable to modern man by modern methods.

Music and Gender - Tullia Magrini 2003-06-15

Although scholars have long been aware of the crucial roles that gender plays in music, and vice versa, the contributors to this volume are among the first to systematically examine the interactions between the two. This book is also the first to explore the diverse, yet often strikingly similar, musics of the areas bordering the Mediterranean from comparative anthropological perspectives. From Spanish flamenco to Algerian raï, Greek rebetika to Turkish pop music, Sephardi and Berber songs to Egyptian belly dancers, the contributors cover an exceedingly wide range of geographic and musical territories. Individual essays examine musical behavior as representation, assertion, and sometimes transgression of gender identities; compare men's and women's roles in specific musical practices and their historical evolution; and explore how music and gender relate to such issues as ethnicity, nationality, and religion. Anyone studying the musics or cultures of the Mediterranean, or more generally the relations between gender and the arts, will welcome this book.
