This book explores the formative period when Scotland acquired the characteristics that enabled it to enter fully into the comity of medieval Christendom. These included a monarchy of a recognizably continental type, a feudal organisation of aristocratic landholding and military service, national boundaries, and a body of settled law and custom.

The Creation of States in International Law - James R. Crawford 2007-03-15

Statehood in the early 21st century remains as much a central problem as it was in 1979 when the first edition of *The Creation of States in International Law* was published. As Rhodesia, Namibia, the South African Homelands and Taiwan then were subjects of acute concern, today governments, international organizations, and other institutions are seized of such matters as the membership of Cyprus in the European Union, application of the Geneva Conventions to Afghanistan, a final settlement for Kosovo, and, still, relations between China and Taiwan. All of these, and many other disputed situations, are inseparable from the nature of statehood and its application in practice. The remarkable increase in the number of States in the 20th century did not abate in the twenty five years following publication of James Crawford's landmark study, which was awarded the American Society of International Law Prize for Creative Scholarship in 1981. The independence of many small territories comprising the 'residue' of the European colonial empires alone accounts for a major increase in States since 1979; while the disintegration of Yugoslavia and the USSR in the early 1990s further augmented the ranks. With these developments, the practice of States and international organizations has developed by substantial measure in respect of self-determination, secession, succession, recognition, decolonization, and several other fields. Addressing such questions as the unification of Germany, the status of Israel and Palestine, and the continuing pressure from non-State groups to attain statehood, even, in cases like Chechnya or Tibet, against the presumptive rights of existing States, James Crawford discusses the relation between statehood and recognition; the criteria for statehood, especially in view of evolving standards of democracy and human rights; and the application of such criteria in international organizations and between states. Also discussed are the mechanisms by which states have been created, including devolution and

secession, international disposition by major powers or international organizations and the institutions established for Mandated, Trust, and Non-Self-Governing Territories. Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases, this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states.

The Treasure of the Humble - Maurice Maeterlinck 1897

Satori in Paris - Jack Kerouac 2012-03-01

'A remarkable ear for the cadences of a phrase or sentence, a sense of how to register in words the sheer, sweet flow of things' Guardian This semi-autobiographical tale of Kerouac's own trip to France, to trace his ancestors and explore his own understanding of the Buddhism that came to define his beliefs, contains some of Kerouac's most lyrical descriptions. From his reports of the strangers he meets and the all-night conversations he enjoys in seedy bars in Paris and Brittany, to the moment in a cab he experiences Buddhism's satori - a feeling of sudden awakening - Kerouac's affecting and revolutionary writing transports the reader. Published at the height of his fame, *Satori in Paris* is a hectic tale of philosophy, identity and the powerful strangeness of travel.

The Extraordinary Adventures of Arsène Lupin, Gentleman-Burglar - Maurice Leblanc 2023-07-21

Arsène Lupin, with his characteristic wit, plots over the course of nine short stories to steal many of France's best antiques and artworks from under their owners' noses. Only his classic opponent Detective Ganimard has the brilliance to attempt to foil Arsène's plans, albeit with mixed results. This first collection of nine Arsène Lupin stories were originally serialised in the magazine *Je Sais Tout* from 1905 and translated into English in 1910. The final story of the set features Herlock Sholmes. In the original printings, Sholmes was simply an unauthorized Sherlock Holmes, but this appearance annoyed Arthur Conan Doyle; the character's name was changed to "Herlock Sholmes" for later printings and future stories. Arsène Lupin later went on to feature in over fifty stories by Maurice Leblanc along with many other books, films and plays around the world.

Novel Translations - Bethany Wiggin 2011-06-15

Many early novels were cosmopolitan books, read from London to Leipzig and beyond, available in nearly simultaneous translations into French, English, German, and other European languages. In Novel Translations, Bethany Wiggin charts just one of the paths by which newness—in its avatars as fashion, novelties, and the novel—entered the European world in the decades around 1700. As readers across Europe snapped up novels, they domesticated the genre. Across borders, the novel lent readers everywhere a suggestion of sophistication, a familiarity with circumstances beyond their local ken. Into the eighteenth century, the modern German novel was not German at all; rather, it was French, as suggested by Germans' usage of the French word Roman to describe a wide variety of genres: pastoral romances, war and travel chronicles, heroic narratives, and courtly fictions. Carried in large part on the coattails of the Huguenot diaspora, these romans, nouvelles, amours secrets, histoires galantes, and histoires scandaleuses shaped German literary culture to a previously unrecognized extent. Wiggin contends that this French chapter in the German novel's history began to draw to a close only in the 1720s, more than sixty years after the word first migrated into German. Only gradually did the Roman go native; it remained laden with the baggage from its "French" origins even into the nineteenth century.

Lake Pavin - Téléphore Sime-Ngando 2016-10-31

This book represents the first multidisciplinary scientific work on a deep volcanic maar lake in comparison with other similar temperate lakes. The syntheses of the main characteristics of Lake Pavin are, for the first time, set in a firmer footing comparative approach, encompassing regional, national, European and international aquatic science contexts. It is a unique lake because of its permanently anoxic monimolimnion, and furthermore, because of its small surface area, its substantially low human influence, and by the fact that it does not have a river inflow. The book reflects the scientific research done on the general limnology, history, origin, volcanology and geological environment as well as on the geochemistry and biogeochemical cycles. Other chapters focus on the biology and microbial ecology whereas the sedimentology and paleolimnology are also given attention. This volume will be of special interest to researchers and advanced students, primarily in the fields of limnology, biogeochemistry, and aquatic ecology.

Your Sons Are at Your Service - Aaron Y. Zelin 2020-02-11

Tunisia became one of the largest sources of foreign fighters for the Islamic State—even though the country stands out as a democratic bright spot of the Arab

uprisings and despite the fact that it had very little history of terrorist violence within its borders prior to 2011. In *Your Sons Are at Your Service*, Aaron Y. Zelin uncovers the longer history of Tunisian involvement in the jihadi movement and offers an in-depth examination of the reasons why so many Tunisians became drawn to jihadism following the 2011 revolution. Zelin highlights the longer-term causes that affected jihadi recruitment in Tunisia, including the prior history of Tunisians joining jihadi organizations and playing key roles in far-flung parts of the world over the past four decades. He contends that the jihadi group Ansar al-Sharia in Tunisia was able to take advantage of the universal prisoner amnesty, increased openness, and the lack of governmental policy toward it after the revolution. In turn, this provided space for greater recruitment and subsequent mobilization to fight abroad once the Tunisian government cracked down on the group in 2013. Zelin marshals cutting-edge empirical findings, extensive primary source research, and on-the-ground fieldwork, including a variety of documents in Arabic going as far back as the 1980s and interviews with Ansar al-Sharia members and Tunisian fighters returning from Syria. The first book on the history of the Tunisian jihadi movement, *Your Sons Are at Your Service* is a meticulously researched account that challenges simplified views of jihadism's appeal and success.

Venices - Paul Morand 2013-01-04

A poetic evocation of the French diplomat's encounters and experiences, filtered through the one constant in his life—Venice. Diplomat, writer and poet, traveller and socialite, friend of Proust, Giraudoux and Malraux, Paul Morand was out of the most original writers of the twentieth century. He was French literature's globe-trotter, and his delightful autobiography is far from being yet another account of a writer's life. Instead it is a poetic evocation of certain scenes among Morand's rich and varied encounters and experience, filtered through the one constant in his life—the one place to which he would always return—Venice. Admired both by Ezra Pound and by Marcel Proust as a pioneer craftsman of Modernist French prose (...) The sheer shapeliness of his prose recalls Hemingway; the urbanity of his self-destructiveness compares with Fitzgerald's; and his camera eye is as lucidly stroboscopic as that of Dos Passos. He is, like Victor Segalen, Blaise Cendrars, Valéry Larbaud, and Saint-John Perse, one of the great nomads of 20th-century French literature, racing through the apocalypse with the haste and glamor of an Orient Express. It is a pity we should have had to wait this long to catch up with him. --The New York Times Venices is balanced by the sharpness of the imagery. He writes in a melancholy vein of the loves, jealousies and regrets he has experienced in Venice ... Exquisitely translated, Venices is a travel memoir of the highest order. -- IAN THOMSON, Sunday Times

Notes on Grief - Chimamanda Ngozi Adichie 2021-05-11

From the globally acclaimed, best-selling novelist and author of *We Should All Be Feminists*, a timely and deeply personal account of the loss of her father: "With raw eloquence, *Notes on Grief ...* captures the bewildering messiness of loss in a society that requires serenity, when you'd rather just scream. Grief is impolite ... Adichie's words put welcome, authentic voice to this most universal of emotions, which is also one of the most universally avoided" (The Washington Post). *Notes on Grief* is an exquisite work of meditation, remembrance, and hope, written in the wake of Chimamanda Ngozi Adichie's beloved father's death in the summer of 2020. As the COVID-19 pandemic raged around the world, and kept Adichie and her family members separated from one another, her father succumbed unexpectedly to complications of kidney failure. Expanding on her original *New Yorker* piece, Adichie shares how this loss shook her to her core. She writes about being one of the millions of people grieving this year; about the familial and cultural dimensions of grief and also about the loneliness and anger that are unavoidable in it. With signature precision of language, and glittering, devastating detail on the page—and never without touches of rich, honest humor—Adichie weaves together her own experience of her father's death with threads of his life story, from his remarkable survival during the Biafran war, through a long career as a statistics professor, into the days of the pandemic in which he'd stay connected with his children and grandchildren over video chat from the family home in Abba, Nigeria. In the compact format of *We Should All Be Feminists* and *Dear Ijeawele*, Adichie delivers a gem of a book—a book that fundamentally connects us to one another as it probes one of the most universal human experiences. *Notes on Grief* is a book for this moment—a work readers will treasure and share now more than ever—and yet will prove durable and timeless, an indispensable addition to Adichie's canon.

Napoleon III and the Rebuilding of Paris - David H. Pinkney 2019-01-29

In the two decades between 1850 and 1870 Napoleon III and his Prefect of the Seine, Baron Haussmann, created the modern city of Paris out of the congested and ill-equipped capital of the 18th century. They gave Paris many of its present major streets, its great municipal parks, the Central Markets, the Opera House and other well-known buildings, as well as a water supply system and a network of sewers that still serve the city. The various factors of the venture: the city's rapidly increasing population, the challenging engineering problems, the political complications, and the clash of personalities involved are here considered. The author presents the whole undertaking in the perspective of French political and economic history, shows its relation to the public health movement of the mid-nineteenth century, and explains its significance in the history of city planning. Originally published in 1958. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press.
