

# The Saudi File People Power Politics

If you ally obsession such a referred **The Saudi File People Power Politics** books that will manage to pay for you worth, get the categorically best seller from us currently from several preferred authors. If you want to witty books, lots of novels, tale, jokes, and more fictions collections are afterward launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all ebook collections The Saudi File People Power Politics that we will categorically offer. It is not on the order of the costs. Its not quite what you obsession currently. This The Saudi File People Power Politics, as one of the most involved sellers here will unconditionally be accompanied by the best options to review.

The Saudi File - Anders Jerichow 1998  
C. Rule of law  
*Who and what Govern in the World of the States?* - Tukumbi Lumumba-Kasongo 2005

This work advances the understanding of the concepts of power, ideology, governance, citizenship, democracy, constitutions, and the corporate foundation of the state. It looks at

historical, sociological, and political concerns in developing countries and the industrial world.  
**The Power of Power Politics** - John A. Vasquez 1983

**Historical Dictionary of Saudi Arabia**  
- J. E. Peterson 2020-03-15

The Kingdom of Saudi Arabia now has been under the spotlight of Western curiosity for more than 80 years. More than 15% of the world's total oil reserves lie underneath Saudi Arabia and, in the early 1990s, the kingdom became the world's largest crude oil producer. Not surprisingly, a world highly dependent on oil regards the desert kingdom as an area of intense strategic concern, as reflected in the coalition of forces assembled on Saudi soil to oust Iraq from Kuwait in 1991. Also, it played

a major role in the invasion of Saddam Husayn's Iraq in 2003 and shares concern with the West over Iran's nuclear intentions throughout the 21st century. This third edition of Historical Dictionary of Saudi Arabia contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Saudi Arabia.

Saudi Arabia in Transition - Bernard Haykel 2015-01-19

"Making sense of Saudi Arabia is crucially important today. The kingdom's western province contains the heart of Islam, and it is the

United States' closest Arab ally and the largest producer of oil in the world. However, the country is undergoing rapid change: its aged leadership is ceding power to a new generation, and its society, dominated by young people, is restive. Saudi Arabia has long remained closed to foreign scholars, with a select few academics allowed into the kingdom over the past decade. This book presents the fruits of their research as well as those of the most prominent Saudi academics in the field. This volume focuses on different sectors of Saudi society and examines how the changes of the past few decades have affected each. It reflects new insights and provides the most up-to-date research on the country's social, cultural, economic and political dynamics"--

Saudi Arabia Enters the Twenty-first Century - Anthony H. Cordesman 2003  
Writing largely for an audience of U.S. foreign policy makers, Cordesman (Center for Strategic and International Studies) assesses the "strategic future" of Saudi Arabia. Political factors impacting external and internal stability are discussed, as are such issues as social and demographic trends, the structure of the economy, and the politics of oil. Cordesman makes a number of recommendations for political and economic reform, most of which seem to be based on the continuance of the status quo U.S.-Saudi political and military relationship, but purposely avoids overarching theories about the country. Because regional realities are currently under a state of rapid flux, updates to the work are said to

be expected at the Center's Web site. A companion volume looks at military and state security issues. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).

Saudi Arabia - Anders Jerichow  
2020-11-25

Based on interviews with sources ranging from dissidents to diplomats, the book takes the reader behind the wall of piety and medievalism that guards Saudi sensitivities.

Discussing the ruling family's self-awarded birthright to wealth and power, Anders Jerichow questions whether it is possible to ignore the rules of the world and still enjoy the protection of the international community?

*Saudi Arabia on the Edge* - Thomas W. Lippman 2012

Of all the countries in the world

that are vital to the strategic and economic interests of the United States, Saudi Arabia is the least understood by the American people. This title dissects this central Saudi paradox for American readers, including diplomats, policymakers, scholars, and students of foreign policy.

**Power, Politics, and Paranoia** - Jan-Willem van Prooijen 2014-05-29

Why are people frequently suspicious of their political and corporate leaders? This book examines the psychological roots of political paranoia.

**A Matter of Principle** - Thomas Cushman 2005-07-11

Offering alternative viewpoints to the prevailing pro & anti-war debate, this volume considers the argument that intervention in Iraq was

justified on the grounds that protection of human rights & freedom from tyranny are global concerns.

*The New Psychology of Love* - Robert J. Sternberg 2018-12-06

This is a much-needed update on the latest theory and research on love supplied by leading scientific experts. It is suitable for psychologists, neuroscientists, anthropologists, sociologists, and anyone with an interest in love and what has been learned from scientific studies of it.

The Politics of the Middle East - Monte Palmer 2002

Political uprisings, religious significance, and petroleum resources have combined to make the political life of the Middle East crucially important to the rest of the world. This book begins with an introduction

to key aspects of Middle Eastern politics, including the influences of tribalism, kinship, and the Islamic faith. The remaining chapters provide a closer look at six countries whose politics are likely to determine the region's future: Egypt, Israel, Syria, Saudi Arabia, Iraq, and Iran. Each chapter begins with an exploration of the country's history, then provides an overview of the major political institutions and groups that shape current events. Particular attention is paid to the influence of elite groups and individuals. Next, the discussion examines the context of the country's politics: political culture, political economy, and international influence. Each chapter concludes with a look at the probable course of the country's politics over the next

decade and beyond.

2003 - مجلة الدراسات العربية -

**Mideast File** - 1987

**At the Heart of Terror** - Monte Palmer  
2004

This accessible and deeply informed book examines the threat that Muslim extremists pose to America and suggest steps that will facilitate U.S. efforts to defeat them.

**Islam** - Jacques Waardenburg  
2002-01-01

This book presents some twenty essays on different aspects of Islam in history and the present. These essays are grouped into eight larger sections. The first, "The Beginnings", deals with the transition from pre-Islamic understandings and reason, an

essential part of the Quranic message. The next two sections deal with Islam specifically as a religion with its particular signs and symbols. The question of rules of interpretation in Islam and its structural features is discussed here. Sections four and five deal with ethics in Islam, including Muslim identity and human rights, and certain social functions of Islam. Section six introduces some 19th and 20th century reform movements, with special attention given to developments in Saudi Arabia and the "puritan" characteristics of present-day Islamic revival movements. The final two sections discuss contemporary issues: Islamization processes and policies, Islamic ideologies, the ideologization of Islam, and the political uses of

religion. Throughout the book the author shows the links between the religious and other interpretations and uses made of Islam and the contexts in which they are made. The Introduction signals some important developments in Islamic studies since World War II.

The World Powers and Iran - Banafsheh Keynoush 2022-10-13

This book reveals the reasons for and ways in which the Islamic Republic of Iran challenged the world powers, through the pursuit of material and ideational goals, to advance a strong nuclear program in the past decade. The book explores Iran's interactions with the United States of America, the Russian Federation, the People's Republic of China, the United Kingdom of Great Britain and Northern Ireland, the French Republic, the

Federal Republic of Germany, and the Republic of India, in the period before (2011-2012), during (2013-2016) and after (2017-2021) the finalization of the nuclear deal known as the Joint Comprehensive Plan of Action in 2015. Iran's narratives and actions to build middle power status are examined at length against the backdrop of its attempts to reshape global politics, the Middle East region, and the future of the nuclear nonproliferation regime.

*International Law and Muslim States* - Dawood Adesola Hamzah 2021-08-12

This book analyses the general interaction between international law and Islamic law in the Muslim world today. It interrogates factors that often form the root of the tension between the two legal regimes. Literalist interpretations of Islamic

law and the modern international law's disposition that does not give due consideration to differences among cultures and civilizations are some of these factors. This work examines the Saudi Arabia textualist approach to the two primary sources of law in Islam, the Qur'an and Sunnah, and argues that a liberal approach of interpretation has become sine qua non especially now that myriad issues are confronting the Muslim world generally and Saudi Arabia in particular. Similarly, globalization has generated an unprecedented multi-culturalism, legal-pluralism, and trans-border interactions in socio-economic and political relations. Therefore, Saudi Arabia, as the bastion of Islam and Islamic nations, is faced with the imperative of adopting a liberal

approach to interpretation of Islamic law, with a view to accommodating a wide spectrum of other laws and cultures. The book provides a timely examination of the issue of modern Saudi Arabia, Islamic legal order vis-à-vis the contemporary concept of international law and international relations in specific areas such as international human rights law and trans-national economic matters. As such it will be of interest to academics and researchers working in Islamic law, international and comparative law, human rights law, and law and religion.

*Arab Women's Activism and Socio-Political Transformation* - Sahar Khamis 2017-11-17

This book illustrates how Arab women have been engaging in three ongoing, parallel struggles, before, during,

and after the Arab Spring, on three levels, namely: the political struggle to pave the road for democracy, freedom, and reform; the social struggle to achieve gender equality and fight all forms of injustice and discrimination against women; and the legal struggle to chart new laws which can safeguard both the political and the social gains. The contributors argue that while the political upheavals were oftentimes more prevalent and visible, they should not overshadow the parallel social and legal revolutions which are equally important, due to their long-term impacts on the region. The chapters shed light on the intersections, overlaps and divergences between these simultaneous, continuous gendered struggles and unpacks their

complexities and multiple implications, locally, regionally, and internationally, across different countries and through different phases.

**Inside The Mirage** - Thomas Lippman  
2008-11-10

The relationship between the United States and Saudi Arabia has always been a marriage of convenience, not affection. In a bargain cemented by President Roosevelt and Saudi Arabia's founding king in 1945, Americans gained access to Saudi oil, and the Saudis sent the dollars back with purchases of American planes, American weapons, American construction projects and American know-how that brought them modernization, education and security. The marriage has suited both sides. But how long can it last?

In *Inside the Mirage*, veteran Middle East journalist Thomas W. Lippman shows that behind the official proclamations of friendship and alliance lies a complex relationship that has often been strained by the mutual aversion of two very different societies. Today the U.S.-Saudi partnership faces its greatest challenge as younger Saudis less enamored of America rise to prominence and Americans, scorched by Saudi-based terrorism, question the value of their ties to the desert kingdom. With so much at stake for the entire, ever-volatile Middle East, this compelling and absolutely necessary account brings the light of new research onto the relationship between these two countries and the future of their partnership.

**Succession In Saudi Arabia** - J.

Kechichian 2001-08-02

The stability of the Kingdom of Saudi Arabia remains critical to Western security and economic interests. This crucial study focuses on generation change and identifies individuals with greatest leadership potential; examines their political, social, and religious views.

**I Am the People** - Partha Chatterjee  
2019-12-17

The forms of liberal government that emerged after World War II are in the midst of a profound crisis. In *I Am the People*, Partha Chatterjee reconsiders the concept of popular sovereignty in order to explain today's dramatic outburst of movements claiming to speak for "the people." To uncover the roots of populism, Chatterjee traces the twentieth-century trajectory of the

welfare state and neoliberal reforms. Mobilizing ideals of popular sovereignty and the emotional appeal of nationalism, anticolonial movements ushered in a world of nation-states while liberal democracies in Europe guaranteed social rights to their citizens. But as neoliberal techniques shrank the scope of government, politics gave way to technical administration by experts. Once the state could no longer claim an emotional bond with the people, the ruling bloc lost the consent of the governed. To fill the void, a proliferation of populist leaders have mobilized disaffected groups into a battle that they define as the authentic people against entrenched oligarchy. Once politics enters a spiral of competitive populism, Chatterjee cautions, there

is no easy return to pristine liberalism. Only a counter-hegemonic social force that challenges global capital and facilitates the equal participation of all peoples in democratic governance can achieve significant transformation. Drawing on thinkers such as Antonio Gramsci, Michel Foucault, and Ernesto Laclau and with a particular focus on the history of populism in India, *I Am the People* is a sweeping, theoretically rich account of the origins of today's tempests. *Kuwait Amid War, Peace and Revolution* - Lori Plotkin Boghardt 2006-10-31 This book explores Kuwaiti internal security challenges of terrorism, sabotage and subversion, and, using untapped Kuwaiti government sources, examines policy responses such as mass deportations and special

security trials. The study details how turmoil in neighbouring states and religious tensions threaten Kuwait's environment.

Islam and Political Reform in Saudi Arabia - Mansoor Jassem Alshamsi  
2012-06-12

This book examines the link between Islamic thought/jurisprudence on the one hand and political action on the other. It shows how reformism is deeply rooted in Islamic tradition and how Sunni scholars have become activists for change in Saudi Arabia.

**Faysal** - Joseph A. Kechichian 2008  
"King Faysal (1906-1975) ruled Saudi Arabia from 1964 until his assassination eleven years later. Within his brief reign, Faysal secured a legacy as one of the most instrumental actors in the development of the modern Middle

East. By the time he ascended to the throne, Faysal understood how dependent many nations were on his country's oil, an understanding that led to the oil embargo of 1973. Wisely, Faysal sought to channel the power of religion for the benefit of the public good, in opposition to Islamic fundamentalists, while his policy initiatives - a balanced budget, the expansion and modernization of higher education, strengthening labor laws and social policies ultimately helped stabilize the entire Gulf region and solidified Saudi Arabian leadership, wealth, and power." "King Faysal aspired to a reign guided by an unwavering belief in God, the courage to conquer evil, the patience to persevere regardless of costs or consequences, submission to the will of God against hardships,

and due exuberance in response to the burdens of rule. Four decades after his assassination by one of his nephews, Faysal bin Musa'id, his memory lives on in impact of his steady hand on Saudi Arabia's modernization."--BOOK JACKET.

The Politics of National Celebrations in the Arab Middle East - Elie Podeh

2011-06-30

The first systematic study of the role of celebrations and public holidays in the Arab Middle East.

**The Mission and the Kingdom** - David Commins 2016-09-29

In the wake of September 11th instant theories have emerged that try to root Osama Bin Laden's attacks on Wahhabism. Muslim critics have dismissed this conservative interpretation of Islam that is the official creed of Saudi Arabia as an

unorthodox innovation that manipulated a suggestible people to gain political influence. David Commins' book questions this assumption. He examines the debate on the nature of Wahhabism, and offers original findings on its ascendance in Saudi Arabia and spread throughout other parts of the Muslim world such as Afghanistan and Pakistan. He also assesses the challenge that radical militants within Saudi Arabia pose to the region, and draws conclusions which will concern all those who follow events in the Kingdom. The Wahhabi Mission and Saudi Arabia is essential reading for anyone interested in the Middle East and Islamic radicalism today.

Being Young, Male and Saudi - Mark C. Thompson 2019-10-03

Based on remarkable primary research,

this unique contemporary account of the lives of young Saudi men reveals a distinct group of voices.

*Politics of the Poor* - Indrajit Roy  
2018-02-01

This book challenges the ongoing scholarly debates on poor people's negotiations with democracy. It demonstrates the varied ways in which the poor engage with their elected representatives, political mediators and dominant classes in order to advance their claims. Roy explains the variations by directing attention to the dynamic interaction between the opportunity structures available to the poor and the social relations of power in which they are embedded. He analyses these intersections as 'political spaces' which both enable and constrain popular practices. Through examination of the 'political

spaces' available to the poor in four different localities, Roy outlines a new analytic framework to understanding poor people's politics. Based on these observations, the book makes a strong case for an approach to democracy that appreciates people's ambivalences towards democracy. Roy urges researchers of democracy to step beyond either enthusiastic narratives - the inevitability of democracy or apocalyptic accounts of democracy's impending death.

**The Nuclear Tipping Point** - Kurt M. Campbell  
2005-06-22

More than half a century after the advent of the nuclear age, is the world approaching a tipping point that will unleash an epidemic of nuclear proliferation? Today many of the building blocks of a nuclear

arsenal—scientific and engineering expertise, precision machine tools, software, design information—are more readily available than ever before. The nuclear pretensions of so-called rogue states and terrorist organizations are much discussed. But how firm is the resolve of those countries that historically have chosen to forswear nuclear weapons? A combination of changes in the international environment could set off a domino effect, with countries scrambling to develop nuclear weapons so as not to be left behind—or to develop nuclear "hedge" capacities that would allow them to build nuclear arsenals relatively quickly, if necessary. The Nuclear Tipping Point examines the factors, both domestic and transnational, that shape nuclear policy. The authors,

distinguished scholars and foreign policy practitioners with extensive government experience, develop a framework for understanding why certain countries may originally have decided to renounce nuclear weapons—and pinpoint some more recent country-specific factors that could give them cause to reconsider. Case studies of eight long-term stalwarts of the nonproliferation regime—Egypt, Germany, Japan, Saudi Arabia, South Korea, Syria, Turkey, and Taiwan—flesh out this framework and show how even these countries might be pushed over the edge of a nuclear tipping point. The authors offer prescriptions that would both prevent such countries from reconsidering their nuclear option and avert proliferation by others. The stakes are enormous and success is far from

assured. To keep the tipping point beyond reach, the authors argue, the international community will have to act with unity, imagination, and strength, and Washington's leadership will be essential. Contributors include Leon Feurth, George Washington University; Ellen Laipson, Stimson Center; Thomas W. Lippman, Middle East Institute; Jenifer Mackby, Center for Strategic and International Studies; Derek J. Mitchell, Center for Strategic and International Studies; Jonathan D. Pollack, U.S. Naval War College; Walter B. Slocombe, Caplin and Drysdale; and Tsuyoshi Sunohara, Center for Strategic and International Studies.

**The Looming Tower** - Lawrence Wright  
2014-11-27  
THE PULITZER PRIZE-WINNING

BESTSELLER, NOW A MAJOR NEW TV SERIES  
This is the definitive account of the run-up to 9/11: from the man who lit the spark of radical Islam in 1948, to those who built up a terror network, and to the FBI agent whose warnings of 'something big' coming were ignored until the Twin Towers fell. 'The Looming Tower is a thriller. And it's a tragedy, too' The New York Times 'The most detailed (and thrilling) account we have of the events that led to the destruction of the Twin Towers' Observer, Books of the Year 'Possibly the best book yet written on the rise of al-Qaeda ... beautifully written and wonderfully compelling' William Dalrymple 'We meet some formidable schemers and killers ... fabulists crazed with blood and death' Martin Amis

**Prophets and Princes** - Mark Weston  
2008-07-28

Saudi Arabia: oil-rich, devoutly Muslim, and a vital ally To many in the West, Saudi Arabia is easy to criticize. It is the birthplace of Osama bin Laden and fifteen of the nineteen 9/11 hijackers. Saudi women are not permitted to drive, work with men, or travel without a man's permission. Prior to 9/11, the Saudis sent millions of dollars abroad to schools that taught Muslim extremism and to charities that turned out to be fronts for al-Qaeda. In *Prophets and Princes*, a highly respected scholar who has lived in Saudi Arabia contends that despite these serious shortcomings, the kingdom is still America's most important ally in the Middle East, a voice for moderation toward Israel, and a nation with a

surprising ability to make many of the economic and cultural changes necessary to adjust to modern realities. Author Mark Weston offers an objective and balanced history of the only nation on earth named after its ruling family. Drawing on interviews with many Saudi men and women, Weston portrays a complex society in which sixty percent of Saudi Arabia's university students are women, and citizens who seek a constitutional monarchy can petition the king without fear of reprisal. Filled with new and underreported information about the most controversial aspects of life in Saudi Arabia, *Prophets and Princes* is a must-read for anyone interested in the Middle East, oil, Islam, or the war on terror..

**The New Politics of Islam** - Naveed S.

Downloaded from [id-blockchain.idea.gov.vn](http://id-blockchain.idea.gov.vn) on by guest

Sheikh 2003-08-29

This is a timely study of the international relations of Islamic states, dealing both with the evolving theory of pan-Islamism from classical to post-caliphal times and the foreign-policy practice of contemporary states, especially Saudi Arabia, Iran and Pakistan, from the colonial period to the global aftermath of September 11. With a concise but analytic style, the book engages one-by-one with the questions of political theory, political geography and political sociology as they relate to international Islam. Its primary empirical investigation is centred on the Organization of the Islamic Conference (OIC), a powerful pan-Islamic regime, sometimes referred to as the 'Muslim United Nations'. In its theoretical

deliberations on Islam and the postmodern condition, the book reconstructs contemporary understandings of how religious ideas and identities influence international politics in the Islamic world.

### **The Wahhabi Mission and Saudi Arabia**

- David Commins 2009-03-30

Wahhabism has been generating controversy since it first emerged in Arabia in the 18th century. In the wake of September 11th instant theories have emerged that try to root Osama Bin Laden's attacks on Wahhabism. Muslim critics have dismissed this conservative interpretation of Islam that is the official creed of Saudi Arabia as an unorthodox innovation that manipulated a suggestible people to gain political influence. David

Commins' book questions this assumption. He examines the debate on the nature of Wahhabism, and offers original findings on its ascendance in Saudi Arabia and spread throughout other parts of the Muslim world such as Afghanistan and Pakistan. He also assesses the challenge that radical militants within Saudi Arabia pose to the region, and draws conclusions which will concern all those who follow events in the Kingdom. "The Wahhabi Mission and Saudi Arabia" is an essential reading for anyone interested in the Middle East and Islamic radicalism today.

**Human Rights in the Near East and North Africa** - James T. Lawrence 2004  
The existence of human rights helps secure the peace, deter aggression, promote the rule of law, combat crime and corruption, and prevent

humanitarian crises. These human rights include freedom from torture, freedom of expression, press freedom, women's rights, children's rights, and the protection of minorities. This book surveys the countries of the Near East and North Africa, and is augmented by a current bibliography and useful indexes by subject, title and author.

ببليوغرافيا الوحدة العربية للقرن العشرين، (٢٠٠٠-١٩٠٨) - 2003

Palestine and the Gulf States - Rosemarie Said Zahlan 2009-05-07  
This final book from Rosemarie Said Zahlan, renowned scholar of Middle East Politics and History, explores the relationships between Palestine and the Gulf since the 1930s. She demonstrates how the regional Gulf politics will long continue to be

impacted by the abiding non-resolution of the Palestinian problem.

### **The Politics of Truth Management in Saudi Arabia** - Afshin Shahi

2013-12-04

Exploring the management of 'truth' in the Kingdom of Saudi Arabia, this book aims to investigate the ways in which the official 'truth' is constructed and institutionalised in the country. The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which 'truth' is conceptualised in Islam. One, at macro level, constitutes the trans-historical foundational principles of the religion, a set of engrained beliefs, which establish the 'finality', and 'oneness' of Islam in relation to

other competing narratives. The other, at a micro level, takes place internally to find 'truth' within the 'truth'. Unlike Islamic truth at the macro level, which is entrenched, the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the 'truth' within the 'truth'. Wahhabism, which is the product of an eighteenth century revivalist movement, is portrayed as the most 'authentic' reading of Islam. It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level. Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another,

Downloaded from [id-blockchain.idea.gov.vn](http://id-blockchain.idea.gov.vn) on by guest

this book will be of interest to students of Religion, Politics, and Saudi Politics more specifically. **Saudi Arabia** - Tim Niblock 2004-08-02 Saudi Arabia provides a clear, concise yet analytical account of the development of the Saudi state. It details the country's historical and religious background, its oil rentier economy and its international role, showing how they interact to create the dynamics of the contemporary Saudi state. The development of the state is traced through three stages: the formative period prior to 1962; the centralization of the state and the initiation of intensive economic development between 1962 and 1979; and the re-shaping of the state over the years since 1979. Emphasis is placed on the recent period, with chapters devoted to: the economic and

foreign policy problems which now confront the state the linkages between Saudi Arabia and Islamic radicalism, with the relationship/conflicts involving Al Qaeda traced through from events in Afghanistan in the 1980s the impact of 9/11 and the 2003 Gulf War the identification of major problems facing the contemporary state and their solutions. Saudi Arabia provides a unique and comprehensive understanding of this state during a crucial time. This book is essential reading for those with interests in Saudi Arabia and its role in Middle Eastern politics and on the international stage. **Saudi Arabia Enters the Twenty-first Century: The military and international security dimensions** - Anthony H. Cordesman 2003

With the continuing importance of Saudi Arabia in regional and world politics, the current and future effectiveness of the Saudi military carries increased significance. Despite recent strains in relations with the U.S., particularly in light of the role Saudis played in the events of September 11, 2001, the Kingdom remains America's key Arab ally. Cordesman studies the challenges faced by the Saudis from both their allies and their potential enemies to assess Saudi Arabia's ability to forge a better approach to collective security in the Gulf and to create more stable long-term security arrangements with the U.S. and other Western Powers. This

assessment of Saudi Arabia's strategic position includes a full-scale analysis of Saudi military forces, defense expenditures, arms imports, military modernization, readiness and war fighting capability. It examines both the cooperation and tension with other Southern Gulf States. It explores the implications of the conventional military build-up and creeping proliferation of weapons of mass destruction in the Gulf and the resulting changes in Saudi Arabia's security position. All of these factors have critical implications for stability within the Kingdom, within the Gulf, as well as in the broader global context.
