The Secret Parchment - Radu Cinamar 2013

After a mysterious holographic chamber was discovered beneath the Romanian Sphinx in 2003, an ancient parchment surfaced in the highest mountains of Tibet and was placed in the care of Radu Cinamar so that it could be translated and shared with the world. While the parchment presents five invaluable techniques for spiritual advancement, its very presence in the world has ignited a series of quantum events, extending from Jupiter's moon Europa and reaching all the way to Antarctica, Mount McKinley, and Transylvania. This includes an intelligence war and a successful attempt to undermine the structure of Department Zero. An ancient Romanian legend comes alive as subterranean solid gold tunnels, extending miles into the Transylvanian underground, are revealed to facilitate super-consciousness as well as lead to the

nexus of the inner Earth where "all the worlds unite." Book jacket.

Transylvanian Sunrise - Radu Cinamar 2009-05-27

Written by Peter Moon and Radu Cinamar, a highly placed Romanian intelligence operative, this book heralds the most remarkable archaeological find in the annals of Mankind. Unbeknownst to most, there is an ancient sphinx located in the Bucegi Mountains of Romania. In 2003, the Pentagon discovered, through the use of satellite technology, an anomaly beneath this ancient sphinx. Through the highest levels of Freemasonry, the Pentagon was able to secure an alliance with the most secret department of the Romanian Intelligence Service which is known as Department Zero. Together, the Romanians and the Americans utilised the Pentagon's secret technology to penetrate a hidden chamber beneath the sphinx which was otherwise inaccessible to humans. What

was discovered eventually was a holographic Hall of Records left by an advanced civilisation near three mysterious tunnels leading into the Inner Earth.

The book chronicles the discovery of these modern day artefacts which represent the dawn of a new era for Mankind. Peter Moon is brought into the fold through his friend, Dr David Anderson, the mysterious scientist who founded the Time Travel Research Center on Long Island and also maintains a similar facility in Romania. Recognising that such satellite technology would have utilised Dr Anderson's proprietary space-time technology for maintaining satellites in orbit, Peter Moon pursues these matters further and accepts Dr Anderson's invitation to Romania where he visits the Romanian Sphinx and learns of a mysterious association between the mysterious time travel scientist and Radu Cinamar.

Design as Learning - Jan Boelen 2019-02-19

Why do design? What is design for? These are forward-looking questions for a creative discipline that seems more slippery to define than ever. In a

world of dwindling natural resources, exhausted social and political systems, and an overload of information there are many urgent reasons to reimagine the design discipline, and there is a growing need to look at design education. Learning and unlearning should become part of an on-going educational practice. We need new proposals for how to organise society, how to structure our governments, how to live with, not against, the planet, how to sift fact from fiction, how to relate to each other, and frankly, how to simply survive. The 4th Istanbul Design Biennial, and this publication *Design as Learning* ask: can design and design education provide these critical ideas and strategies? -- Back cover.

The Electric Michelangelo - Sarah Hall 2010-12-22

On the windswept front of Morecambe Bay, Cy Parks spends his childhood years first in a guest house for consumptives run by his mother and then as apprentice to alcoholic tattoo-artist Eliot Riley. Thirsty for new experiences, he departs for America and finds himself in the riotous world of the Coney Island boardwalk, where he sets up his own business as 'The Electric Michelangelo'. In this carnival environment of roller-coasters and freak-shows, Cy becomes enamoured with Grace, a mysterious immigrant and circus performer who commissions him to cover her entire body in tattooed eyes. Hugely atmospheric, exotic and familiar, *The Electric Michelangelo* is a love story and an exquisitely rendered portrait of seaside resorts on opposite sides of the Atlantic by one of the most uniquely talented novelists of her generation.
