The Beatitudes through the Ages - Rebekah Eklund 2021-04-27

The Beatitudes are among the most influential teachings in human history. For two millennia, they have appeared in poetry and politics, and in the thought of mystics and activists, as Christians and others have reflected on their meaning and shaped their lives according to the Beatitudes' wisdom. But what does it mean to be hungry, or meek, or pure in heart? Is poverty a material condition or a spiritual one? And what does being blessed entail? In this book, Rebekah Eklund explores how the Beatitudes have affected readers across differing eras and contexts. From Matthew and Luke in the first century, to Martin Luther King Jr. and Billy Graham in the twentieth, Eklund considers how men and women have understood and applied the Beatitudes to their own lives through the ages. Reading in the company of past readers helps us see how rich and multifaceted the Beatitudes truly are, illuminating what they might mean for us today.

**The Rise of Africa's Middle Class** - Henning Melber  
2016-12-15

Across Africa, a burgeoning middle class has become the poster child for the 'Africa rising' narrative.

Ambitious, aspirational and increasingly affluent, this group is said to embody the values and hopes of the new Africa, with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change. This narrative, however, obscures the complex and often ambiguous role that this group actually plays in African societies. Bringing together economists, political scientists, anthropologists and development experts, and spanning a variety of case studies from across the continent, this collection provides a much-needed corrective to the received wisdom within development circles, and provides a fresh perspective on social transformations in contemporary Africa.

As in his previous book (volume 3); Dr. Stanley says life situations does not always progress from left to right and from the bottom upward. The completion of any puzzle as it relates to life goes beyond the point of outside looking inward but rather the individual or group putting themselves in the inward position looking outward. The perspective growth process and the newness of life can now begin to take shape.
