The *IB English A: Literature Course Book* is available in print, online and as a print and online pack.

Reterritorializing Linguistic Landscapes - David Malinowski 2020-01-23

A historically, spatially and methodologically rich sub-field of sociolinguistics, Linguistic Landscapes (LL) is a rapidly evolving area of research and study. With contributions by an international team of experts from the USA, Europe, the UK, South Africa, Israel, Hong Kong and Colombia, this volume is a cutting-edge, interdisciplinary account of the most recent theoretical and empirical developments in this area. It covers both the conceptual tools and methodologies used to define and question, and case studies of real-world phenomena to showcase

Linguistic Landscapes methods in action. Divided into four parts, chapters bring into dialogue themes relating to reterritorialization practices and the productive nature of boundaries and spaces. This book considers the contemporary challenges facing the field, the politics and processes of identifying and demarcating 'sites of research', and the ethics and pedagogical applications of LL research. With comprehensive lists of further reading, extended discussion questions and suggestions for independent research at the end of each chapter, this is an essential reference work for all LL scholars and students who wish to keep abreast of the current state of the art.

The Oxford Dictionary of Idioms - Judith Siefring 2004

Did you know that 'flavour of the month' originated in a marketing campaign in American ice-cream parlours in the 1940s, when a particular flavour would be specially promoted for a month at a time? And did you know that 'off the cuff' refers to the rather messy practice of writing impromptu notes on one's shirt cuff before speaking in public? The *Oxford Dictionary of Idioms* takes a fresh look at the idiomatic phrases and sayings that make English the rich and intriguing language that it is. This major new edition contains entries for over 5000 idioms, including 350 entirely new entries and over 500 new quotations. The entries are supported by a wealth of illustrative quotations from a wide range of sources and periods. For example: 'Rowling has not been asleep at the wheel in the three years since the last Potter novel, and I am pleased to report that she has not confused sheer length with inspiration.' - *Guardian*, 2003. 'I made the speech of a lifetime. I had them tearing up the seats and rolling in the aisles.' - P.G. Woodhouse, 1940. Many entries include boxed features which give more detailed background on the idiom in question. For example, did you know that 'taken aback' was adopted from nautical terminology that described a ship unable to move forward because of a strong headwind pressing its sails back against the mast? The text has been entirely redesigned so that it is both elegant and easy to use. Anyone interested in the colourful side of the English language will get hours of fun browsing from this fascinating and informative volume.

The Routledge Companion to the Work of John R. Rickford - Renée Blake 2019-09-17

This comprehensive collection is the first full book-length volume to bring together writing focused around and inspired by the work of John Rickford and his role in sociolinguistic research over the last four decades. Featuring contributions from more than 40 leading scholars in the field, the volume integrates both historical and current perspectives on key topics in Rickford's body of work at the intersection of language and society, highlighting the influence of his work from diverse fields such as sociolinguistics, stylistics, creole studies, and language and education. The volume is organized around four sections, each representing one of the fundamental strands in Rickford's scholarship over the course of his career, bookended by short vignettes that feature stories from the field to more broadly contextualize his intellectual legacy:

- Language contact from a sociolinguistic and sociohistorical point of view
- The political ramifications of linguistic heterogeneity
- The stylistic implications of language variation and change
- The educational implications of linguistic heterogeneity and social injustice

Taken together, *The Routledge*

Companion to the Work of John R. Rickford serves as a platform to showcase Rickford's pioneering contributions to the field and, in turn, to socially reflective linguistic research more generally, making this key reading for students and researchers in sociolinguistics, creole studies, language and style, and language and education.

Dictionaries. An International Encyclopedia of Lexicography - Rufus Gouws 2013-12-18

The basis for this additional volume are the three volumes of the handbooks *Dictionaries. An International Encyclopedia of Lexicography* (HSK 5.1-5.3), published between 1989 and 1991. An updating has been perceived as an important desideratum for a considerable time. In the present Supplementary Volume the premises and subjects of HSK 5.1-5.3 are complemented by new articles that take account of the practice-internal and theoretical developments of the last 15 years. Special attention has been given to the following topics: the status and function of lexicographic reference works, the history of lexicography, the theory of lexicography, lexicographic processes, lexicographic training and lexicographic institutions, new metalexicographic methods, electronic and, especially, computer-assisted lexicography.

Workbook: Problems for Algeo/Butcher's The Origins and Development of the English Language, 7th - John Algeo 2013-01-01

This companion to THE ORIGINS AND DEVELOPMENT OF THE ENGLISH LANGUAGE expands on material in the main textbook. Expand coverage of some topics and chapter-by-chapter exercises help you master text material. You can answer review questions to ensure your comprehension, you can analyze data to expand and apply your new knowledge, and you can work on enrichment exercises that, for example, familiarize you with the OXFORD ENGLISH DICTIONARY. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Reference and Information Services - Kay Ann Cassell 2023-01-17

From the ongoing flood of misinformation to the swift changes occasioned by the pandemic, a myriad of factors is spurring our profession to rethink reference services. Luckily, this classic text is back in a newly overhauled edition that thoughtfully addresses the evolving reference landscape. Designed to complement every introductory library reference course, Cassell and Hiremath's book also serves as the perfect resource to guide current practitioners in their day-to-day work. It teaches failsafe methods for identifying important materials by matching specific types of questions to the best available sources, regardless of format. Guided by a national advisory board of educators and experts, this thoroughly updated text presents chapters covering fundamental concepts, major reference sources, and special topics while also offering fresh insights on timely issues, including a basic template for the skills required and expectations demanded of the reference librarian; the pandemic's effect on reference services and how the ingenuity employed by libraries in providing remote and virtual reference is here to stay; a new chapter dedicated to health information, with a special focus on health equity and information sources; selecting and evaluating reference materials, with strategies for keeping up to date; a heightened emphasis on techniques for evaluating sources for misinformation and ways to give library users the tools to discern facts vs. "fake facts"; reference as programming, readers' advisory services, developmentally appropriate material for children and young adults, and information literacy; evidence-based guidance on handling microaggressions in reference interactions, featuring discussions of cultural humility and competence alongside recommended resources on implicit bias; managing, assessing, and improving reference services; and the future of information and reference services, encapsulating existing models, materials, and services to project possible evolutions in the dynamic world of reference

The Making of the Oxford English Dictionary - Peter Gilliver 2016-09-22

This book tells the history of the Oxford English Dictionary from its beginnings in the middle of the nineteenth century to the present. The author, uniquely among historians of the OED, is also a practising lexicographer with nearly thirty

years' experience of working on the Dictionary. He has drawn on a wide range of sources—including previously unexamined archival material and eyewitness testimony—to create a detailed history of the project. The book explores the cultural background from which the idea of a comprehensive historical dictionary of English emerged, the lengthy struggles to bring this concept to fruition, and the development of the book from the appearance of the first printed fascicle in 1884 to the launching of the Dictionary as an online database in 2000 and beyond. It also examines the evolution of the lexicographers' working methods, and provides much information about the people—many of them remarkable individuals—who have contributed to the project over the last century and a half.

Oxford IB Prepared: English B: IB Diploma Programme - Kevin Morley 2020-02-27

Offering an unparalleled level of assessment support, IB Prepared: English B has been developed directly with the IB to provide the most up-to-date, authentic and authoritative guidance on DP assessment.

Shaping the Future of Education, Communication and Technology - Will W. K. Ma 2019-04-30

This book gathers selected papers from the Hong Kong Association for Educational Communications and Technology 2019 International Conference on the theme of "Shaping the Future of Education, Communication and Technology." It contributes to a scholarly discussion that looks beyond what future media and technology can offer for education, and reflects on best practices and lessons learned from applying new media and technology in a wide range of fields. Scholars from educational technology, communication, and higher education share their research work in various formats such as empirical research, best-practice case studies, literature reviews, etc. The topics of the papers are divided into four main areas, including curriculum, pedagogy and instructional design; teaching and learning experiences with technology; online learning and open education resources; and communication and media. The book's unique quality is its combination of perspectives and research work on communication, education and technology. Thus, it will encourage an interdisciplinary discourse and exchange concerning communication, new media, and educational practices.

Oxford Discover: 1: Student's Book - Lesley Koustaff 2013-12

Q: Skills for Success 3E Level 2 Reading and Writing - Jenny Bixby 2020-07-09

A six-level paired skills series that helps students to think critically and succeed academically. The Third Edition builds on Q: Skills for Success' question-centered approach with even more critical thinking, up-to-date topics, and 100% new assessment.

Genre in English Medical Writing, 1500-1820 - Irma Taavitsainen 2022-10-13

Written by an interdisciplinary team of scholars, this book offers novel perspectives on the history of medical writing and scientific thought-styles by examining patterns of change and reception in genres, discourse, and lexis in the period 1500-1820. Each chapter demonstrates in detail how changing textual forms were closely tied to major multi-faceted social developments: industrialisation, urbanisation, expanding trade, colonialization, and changes in communication, all of which posed new demands on medical care. It then shows how these developments were reflected in a range of medical discourses, such as bills of mortality, medical advertisements, medical recipes, and medical rhetoric, and provides an extensive body of case studies to highlight how varieties of medical discourse have been targeted at different audiences over time. It draws on a wide range of methodological frameworks and is accompanied by numerous relevant illustrations, making it essential reading for academic researchers and students across the human sciences.

English Legal System Concentrate - Mark Thomas 2020-08

English Legal System Concentrate is written and designed to help you succeed. Written by experts and covering all key topics, Concentrate guides help focus your revision and maximise your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases. Revision guides you can rely on: trusted by lecturers, loved

by students... "I have always used OUP revision and QandA books and genuinely believe they have helped me get better grades" - Anthony Poole, law student, Swansea University "The detail in this revision textbook is phenomenal and is just what is needed to push your exam preparation to the next level" - Stephanie Lomas, law student, University of Central Lancashire "It is a little more in-depth than other revision guides, and also has clear diagrams and teaches ways to obtain extra marks. These features make it unique" - Godwin Tan, law student, University College London "The concentrate revision guides stand out against other revision guides" - Renae Haynes Williams, law student, Bangor University "The exam style questions are brilliant and the series is very detailed, prepares you well" - Frances Easton, law student, University of Birmingham "The accompanying website for Concentrate is the most impressive I've come across" - Alice Munnely, law student, Kings College London Online Resources Packed with essential information, key cases, revision tips, exam QandAs, and more, English Legal System Concentrate is also supported by extensive online resources to take your learning further (www.oup.com/lawrevision/): - Pinpoint which areas you need to concentrate on with the diagnostic test - Test your knowledge with the multiple-choice questions and receive feedback on your answers - Improve your essay skills using the outline answers for guidance on what to include and how to structure your answer - Revise the facts and principles of key cases using the interactive flashcards - Learn the important terms and definitions using the interactive glossary - Check that you have covered the main points of a topic using the key facts checklists - Achieve better marks following the advice on revision and exam technique by experienced examiner Nigel Foster

Developing Materials for Language Teaching - Brian Tomlinson 2023-07-27

Viewing current developments in materials development through the eyes of developers, users and researchers from all over the world, this book applies principles to practice. It provides a comprehensive coverage of the main aspects and issues in the field as well as critical overviews of recent developments in materials development, and acts as a stimulus for innovation. Now revised and updated to take account of developments over the last decade, this 3rd edition features: - 8 new chapters, covering materials use, blended learning, multimodality, intercultural competence, communicative competence, the practical realisation of theoretical principles in the development of digital materials, the teaching of right to left languages and the commodification of grammar. - Fully updated chapters with contemporary examples and considering teaching second and foreign languages other than English. - New pedagogical resources, with the addition of tasks and further readings for each chapter. - New online resources, 2 new chapters on producing videos on teacher development courses and materials development on teacher training courses and 2 updated chapters on development courses for teachers and simulations in teacher development, alongside a range of additional tasks and further reading suggestions.

Introduction to the English Legal System - Martin Partington 2021

Introduction to the English Legal System is the ideal foundation for those coming new to the study of law. Writing in a highly engaging and accessible style, Martin Partington introduces the purposes and functions of English law, the law-making process, and the machinery of justice, while also challenging assumptions and exploring current debates. Consolidating over 40 years' experience in the law, Martin Partington examines beliefs about the English legal system, and encourages students to question how far it meets the growing demands placed on it. Incorporating all the latest developments, this concise introduction brings law and the legal system to life. Digital formats and resources: This edition is available for students and institutions to purchase in a variety of formats, and is supported by online resources. - The e-book offers a mobile experience and convenient access along with functionality tools, navigation features, and links that offer extra learning support: www.oxfordtextbooks.co.uk/ebooks - The online resources include questions for reflection and discussion; self-test questions; a glossary; further reading materials; web links; and a link to Martin Partington's blog, which covers key developments in the English justice system.

The Oxford Handbook of World Englishes - Markku Filppula 2017

"This book focuses on some features shared by 'Old' and 'New' varieties of English. 'Old' refers here to varieties of English spoken in Britain only, i.e. English English (EngE) and/or British English (BrE). They represent the longest-established varieties of English and are part of the hardcore of the L1 or the 'Inner Circle' of Englishes. 'New' varieties, in this context, are ones that have arisen in colonial or postcolonial contexts (the 'Outer Circle') and also comprise historically L2 varieties, such as Irish English, that have evolved as a result of language shift. This chapter examines three syntactic features that show similar developments in both New and Old varieties: the use of some modal auxiliaries, especially WILL/SHALL, some 'extended' uses of the progressive, and finally, combinations of these two, especially WILL/SHALL + be V-ing. All three display convergent developments that suggest a leading role for the New Englishes rather than the Old varieties"--

Foundation IELTS Masterclass: Student's Book - Nick Thorner 2015-02-12

This course provides optimum IELTS Academic preparation in the classroom and at home for students working in a band score of 4.5-5.5.

Words and Dictionaries from the British Isles in Historical Perspective - John Considine 2009-03-26

Words and dictionaries from the British Isles in historical perspective brings together a wide range of current work on English-language lexicography and lexicology by a team of twelve contributors working in England, continental Europe, and North America. Fredric Dolezal's opening essay offers a provocative discussion of how the history of English lexicography has been, and might in the future be, written. The next four papers deal with the medieval and early modern periods: Carter Hailey investigates the dictionary evidence for individual lexical creativity in a discussion of Chaucer and the Middle English Dictionary; Gabriele Stein shows how early modern English dictionaries handled lexicological questions rather than simply listing words and equivalents; R. W. McConchie analyzes the biographical record of the lexicographer Richard Howlet, and Paola Tornaghi presents and discusses an unpublished source for the seventeenth-century lexicography of Old English. Three papers on the long eighteenth century follow: Noel Osselton's is an analysis of the "alphabet fatigue" which led many early lexicographers to treat words at the end of the alphabetical sequence more tersely than words at the beginning; Elisabetta Lonati's shows the engagement of John Harris's Lexicon technicum with one of the sources of its medical vocabulary; Charlotte Brewer's discusses the under-representation of eighteenth-century material in the Oxford English Dictionary. In the last three papers, Julie Coleman provides a groundbreaking analysis of Farmer and Henley's Slang and its analogues; Peter Gilliver draws on the Oxford English Dictionary archives to tell the story of an important editorial crisis; and Laura Pinnavaia discusses the syntactic flexibility of a set of idioms in a corpus of nineteenth- and twentieth-century prose. The volume as a whole offers new discoveries and important analytical and conceptual work, and is an essential text in the developing field of the history of lexicography.

Oxford IB Skills and Practice: English A: Literature for the IB Diploma - Hannah Tyson 2015-11-19

A must-have resource for any student aiming to achieve highly in the current English A Literature course, this book will fully develop all the crucial skills central to assessment. With dedicated support and practice for writing development and reading techniques, in addition to focused skills work for each assessment, every part of the syllabus is thoroughly addressed to build complete confidence. A huge range of student samples and examiner guidance give clear insight into assessment standards, helping students demonstrate their best abilities in exams. · Strengthen the key skills - a huge range of activities and techniques in writing, reading and the creation of assessment texts will concretely boost exam results · Truly understand assessment standards - commented samples give clear insight into exam expectations and help students construct the best answers · Build confidence for the orals - videos of student orals and presentations included online to

ensure the best preparation, with bespoke support
Orality in Written Texts - Carolina P. Amador-Moreno 2019-08-12
Orality in Written Texts provides a methodologically and theoretically innovative study of change in Irish English in the period 1700-1900. Focusing in on a time during which Ireland became overwhelmingly English-speaking, the book traces the use of various linguistic features of Irish English in different historical contexts and over time. This book: draws on data from the Corpus of Irish English Correspondence (CORIECOR), which is composed of personal letters to and from Irish emigrants from the start of the eighteenth century up until the end of the twentieth century; analyses linguistic features that have hitherto remained neglected in the literature on Irish English, including discourse-pragmatic markers, and deictic and pronominal forms; discusses how the survival of the pragmatic mode has resulted in the preservation of certain facets of the Irish English variety as known today; explores sociolinguistic issues from a historical perspective. With direct relevance to corpus-based literary studies as well as the exploration of hybrid, modern-day text forms, *Orality in Written Texts* is key reading for advanced students and researchers of corpus linguistics, varieties of English, language change and historical linguistics, as well as anyone interested in learning more about Irish history and migration.

The Oxford Handbook of Language and Social Psychology - Thomas M. Holtgraves 2014-09-02

Language pervades everything we do as social beings. It is, in fact, difficult to disentangle language from social life, and hence its importance is often missed. The emergence of new communication technologies makes this even more striking. People come to "know" one another through these interactions without ever having met face-to-face. How? Through the words they use and the way they use them. *The Oxford Handbook of Language and Social Psychology* is a unique and innovative compilation of research that lies at the intersection of language and social psychology. Language is viewed as a social activity, and to understand this complex human activity requires a consideration of its social psychological underpinnings. Moreover, as a social activity, the use and in fact the existence of language has implications for a host of traditional social psychological processes. Hence, there is a reciprocal relationship between language and social psychology, and it is this reciprocal relationship that defines the essence of this handbook. The handbook is divided into six sections. The first two sections focus on the social underpinnings of language, that is, the social coordination required to use language, as well as the manner in which language and broad social dimensions such as culture mutually constitute one another. The next two sections consider the implications of language for a host of traditional social psychological topics, including both intraindividual (e.g., attribution) and interindividual (e.g., intergroup relations) processes. The fifth section examines the role of language in the creation of meaning, and the final section includes chapters documenting the importance of the language-social psychology interface for a number of applied areas.

Oxford Discover Futures: Level 2: Student Book - Ben Wetz 2020-01-23

Manual of Online Search Strategies - C.J. Armstrong 2018-12-20

Published in 1992, like the first, this second edition is not intended as introductory textbook command-driven, Boolean searching. It is targeted at online searchers who already have some knowledge of command languages and may be proficient searchers on databases in one or two subject areas, but when required to venture into new and less familiar territory still need guidance. It is also offered to end users who possess the subject expertise but lack of information retrieval know-how. The Manual is offered as a guide to database selection and a navigational aid through the twists and turns of the retrieval maze; at least some of the dead ends and backtracking may thereby be avoided. This volume, written by experts in their various fields, deals with the subject coverage and record structures of specific databases, offers comparisons between databases (context, indexing procedures, updating policies, etc.), discusses the choice between online

and CD-ROM sources (and between hosts if online is selected), and illustrates strategies with numerous search extracts.

Language and Value - Yi Jiang 2015-09-09

This volume represents the first substantial collaborative work from Chinese and Western scholars on philosophy of language. We believe that recent developments in the Anglo-American philosophy and Chinese philosophy of language not only suggest a tableau of shared problems, but also a number of similar methods and goals. It is the goal of this volume to juxtapose these recent philosophical developments to illustrate the similarities between the traditions, but also to spur common dialogue and hopefully efforts to jointly engage shared philosophical problems. The issues engaged range from the role of cultural and biological factors in linguistic competence and language use, to figurative speech in different languages, the comparative study of work in semantics and philosophy, and the role of language in establishing the legal and ethical norms and values. Content and abstracts: www.protosociology.de

The Societal Codification of Korean English - Alex Baratta 2021-11-04

From K-pop to kimchi, Korean culture is becoming increasingly popular on the world stage. This cultural internationalisation is also mirrored linguistically, in the emergence and development of Korean English. Often referred to as 'Konglish', this book describes how the two terms in fact refer to different things and explains how Koreans have made the English language their own. Arguing that languages are no longer codified and legitimised by dictionaries and textbooks but by everyday usage and media, Alex Baratta explores how to reconceptualise the idea of 'codification.' Providing illustrative examples of how Koreans have taken commonly used English expressions and adjusted them, such as doing 'Dutch pay', wearing a 'Burberry' and using 'hand phones', this book explores the implications and opportunities social codification presents to EFL students and teachers. In so doing, *The Societal Codification of Korean English* offers wider perspectives on English change across the world, seeking to dispel the myth that English only belongs to 'native speakers'.

Nominal Pluralization and Countability in African Varieties of English - Susanne Mohr 2021-10-29

This book is the first comprehensive analysis of nominal plural marking, its morphosyntax and semantics, across different African varieties of English. Mohr explores the rich diversity in the varieties and how different conceptualizations of the number category are realized across different cultures. The investigation of unstandardized noun plurals in Kenyan, Tanzanian, Ghanaian and Nigerian Englishes is based on a mixed methods design drawing on corpus linguistics, acceptability questionnaires and psycholinguistic experiments. In this vein, the book not only contributes to the description of each of these four varieties, but also sheds light on standardization processes and language change in New Englishes. Importantly, it is a plea for the triangulation of data and mixed methods approaches in World Englishes research, as the combination of these methods grants insight into unforeseen areas of language structures and use. This volume is a useful reference work for students and researchers in World Englishes, varieties of English and African Studies, as well as those interested in linguistic anthropology.

Co-Teaching for English Learners - Andrea Honigsfeld 2020-09-01

This edited volume examines co-teaching and integrated service delivery for English learners (ELs). Through research and documentary accounts, it explores the collaborative instructional cycle-co-planning, co-instruction, co-assessment, and reflection practices-of co-taught programs for ELs. This volume presents current, classroom-based, practitioner-oriented research related to all aspects of co-taught programs for ELs and offers authentic evidence and practical recommendations that yield positive outcomes for this student population.

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product.

The Routledge Companion to Medieval English Literature - Raluca Radulescu
2022-12-30

The Routledge Companion to Medieval English Literature offers a new, inclusive, and comprehensive context to the study of medieval literature written in the English language from the Norman Conquest to the end of the Middle Ages. Utilising a Trans-European context, this volume includes essays from leading academics in the field across linguistic and geographic divides. Extending beyond the traditional scholarly discussions of insularity in relation to Middle English literature and 'isolationism', this volume: Oversees a variety of genres and topics, including cultural identity, insular borders, linguistic interactions, literary gateways, Middle English texts and traditions, and modern interpretations such as race, gender studies, ecocriticism, and postcolonialism. Draws on the combined extensive experience of teaching and research in medieval English and comparative literature within and outside of anglophone higher education and looks to the future of this fast-paced area of literary culture. Contains an indispensable section on theoretical approaches to the study of literary texts. This Companion provides the reader with practical insights into the methods and approaches that can be applied to medieval literature and serves as an important reference work for upper-level students and researchers working on English literature.

Cambridge Lower Secondary Complete English 8: Student Book (Second Edition) - Mark Pedroz
2022-06-30

The Cambridge Lower Secondary Complete English 8 Student Book embeds a solid foundation at Lower Secondary level and helps students reach their full potential, as well as preparing them to progress seamlessly to IGCSE® English. This resource fully covers the Cambridge Lower Secondary English 8 curriculum to ensure students learn everything that is required at that level. However, materials and exercises also prepare students for a smooth transition to IGCSE English by supporting the development of required skills. It is written by a team of internationally experienced authors, many of whom co-authored our previous best-selling first edition. They are all experts in teaching, learning and assessment. The Student Book is supported by a Workbook that provides opportunities for independent practice inside and outside the classroom, and a Teacher Handbook, which offers full teaching support.

The course is consistent with levels A2 to C1 of the Common European Frame of Reference for the teaching of foreign languages. Great downloadable resources to support you when using Oxford English for Academic Purposes can be found at <https://elt.oup.com/student/oxfordeap/>

The English Legal System - Alisdair Gillespie
2009

The English Legal System provides a lively and approachable introduction for those new to the study of law. The textbook presents the main areas of the legal system and encourages students to critique the wider aspects of how law is made and reformed. Clearly structured in four parts, and designed to reflect the content of legal system courses, the book provides thorough and informative coverage of all main topics. The book includes features such as questions for reflection and viewpoint boxes to encourage students to engage critically with the subject and to be able to debate the controversial aspects of the legal system. Online Resource Centre Lecturer resources: - Test bank of 300 multiple-choice questions with answers and feedback Student resources: - Regular updates (available in text and podcast format) - Audio podcast by the author featuring an introduction to the book and online resource centre - Annotated web links - Glossary - Suggestions for practical activities - Video clips of students debating in seminars

Quick Placement Test - 2001-07-11

An electronic placement test for learners of English, produced in collaboration with the University of Cambridge ESOL Examinations (formerly UCLES). Pen and paper version also available.

An Introduction to Language with Online Study Tools 12 Months - Victoria Fromkin
2017

An Introduction to Language continues to be instrumental in introducing students to the fascinating study of human language. Engagingly and clearly written, it provides an overview of the key areas of linguistics from an Australian perspective. This classic text is suitable for students in fields as diverse as linguistics, computer science, English, communication studies, anthropology, foreign language teaching and speech pathology. The text is divided into four sections, and chapters take you through the nature of human language, the grammatical aspects and psychology of language, finishing with language and its relation to society. Chapters have also been reworked and revised to keep all syntax up-to-date and accurate. Popular features from previous editions have been retained for this ninth edition including learning objectives and margin definitions in each chapter, along with summary tables inside the covers, which assist you to learn core concepts and terminology.gy.
