Life Would Be Perfect If I Lived in That House - Meghan Daum 2010-05-04

From the acclaimed author and columnist: a laugh-out-loud journey into the world of real estate—the true story of one woman’s “imperfect life lived among imperfect houses” and her quest for the four perfect walls to call home. After an itinerant suburban childhood and countless moves as a grown-up—from New York City to Lincoln, Nebraska; from the Midwest to the West Coast and back—Meghan Daum was living in Los Angeles, single and in her mid-thirties, and devoting obscene amounts of time not to her writing career or her dating life but to the pursuit of property: scouring Craigslist, visiting open houses, fantasizing about finding the right place for the right price. Finally, near the height of the real estate bubble, she succumbed, depleting her life’s savings to buy a 900-square-foot bungalow, with a garage that “bore a close resemblance to the ruins of Pompeii” and plumbing that “dated back to the Coolidge administration.” From her mother’s decorating manias to her own “hidden room” dreams, Daum explores the perils and pleasures of believing that only a house can make you whole. With delicious wit and a keen eye for the absurd, she has given us a pitch-perfect, irresistible tale of playing a lifelong game of house.

International synergy management: A strategic approach for raising efficiencies in the cross-border interaction process - Patrick Daum 2013-06-01

Global economic integration has changed business conditions significantly. Corporations operating internationally and establishing foreign subsidiaries are facing the obligation as well as the challenge to profit from cross-border interaction. However, potential synergetic benefits provided by the international environment are accompanied by even more demanding challenges. This study elaborates to which extend German small and medium-sized manufacturing businesses could benefit from the implementation of a strategic cross-border synergy management. The study is based on a single case study deriving the research hypotheses and a survey investigating cross-border interaction throughout a sample of small and medium-sized manufacturing businesses. Based on the research findings, this paper proposes a holistic framework, designed for strategists of small and medium-sized manufacturing business. It outlines the establishment of the cross-border synergy management concept as part of the corporate strategy and the efficient and effective management of international interaction. ‘Synergies are not realized by themselves - they have to be identified and actively developed within a professionally coordinate process. Management of synergy seeking organizations is asked for intensive efforts beyond daily operations’ (Weber and Roventa, 2006).

Daum's boys - Alan Ross 2015-04-01

This highly original book is the first in-depth study of a footsoldier of the seventeenth-century German Republic of Letters. Its subject, the polymath and schoolteacher Christian Daum, is today completely forgotten, yet left behind one of the largest private archives of any early modern European scholar. On the basis of this unique source, this book portrays schools as focal points of a whole world of Lutheran learning outside of universities and courts, as places not just of education but of intense scholarship, and examines their significance for German culture. Multi-confessional Germany was different from Catholic France and Protestant England in that its network of small cities fostered educational and cultural competition and made possible a much larger and socially open Republic. This book allows us for the first time to understand how the Republic of Letters was constructed from below and how it was possible for individuals from relatively humble backgrounds and occupations to be at the centre of European intellectual life. This book is aimed at other specialists as well as postgraduate students in

the fields of cultural and social history, and can also serve as an introduction to recent European literature on early modern scholarship for undergraduate students.

Selfish, Shallow, and Self-Absorbed - Meghan Daum 2015-03-31

SIXTEEN LITERARY LUMINARIES ON THE CONTROVERSIAL SUBJECT OF BEING CHILDLESS BY CHOICE, COLLECTED IN ONE FASCINATING ANTHOLOGY One of the main topics of cultural conversation during the last decade was the supposed "fertility crisis," and whether modern women could figure out a way to have it all-a successful, demanding career and the required 2.3 children-before their biological clockstopped ticking. Now, however, conversation has turned to whether it's necessary to have it all (see Anne-Marie Slaughter) or, perhaps more controversial, whether children are really a requirement for a fulfilling life. The idea that some women and men prefer not to have children is often met with sharp criticism and incredulity by the public and mainstream media. In this provocative and controversial collection of essays, curated by writer Meghan Daum, sixteen acclaimed writers explain why they have chosen to eschew parenthood. Contributors include Lionel Shriver, Sigrid Nunez, Kate Christensen, Elliott Holt, Geoff Dyer, and Tim Kreider, among others, who will give a unique perspective on the overwhelming cultural pressure of parenthood. Selfish, Shallow, and Self-Absorbed makes a thoughtful and passionate case for why parenthood is not the only path in life, taking our parent-centric, kid-fixated, baby-bump-patrolling culture to task in the process. What emerges is a more nuanced, diverse view of what it means to live a full, satisfying life.

Emilion and the Pitiful Demise of Mankind - James Daum 2018-03-08

The Pink-Eyed Leatherskins are so frustrated with their experiment to create a civilization of intelligent apes that they wipe them out with a catastrophic flood, or so they thought. Yessah had the creativity and salesmanship to con his skeptical companions into building a huge ship to house his family and most of the local animals. When the Leatherskins found him floating above the devastation, they collected his genetic material with the hope of using it to create a more promising human colony. After terra-forming the tiny planet of Wee Whoopie, they deposited Emilion, the first "intelligent ape" inhabitant, and the adventure begins. The project almost fails when Bubblebeez the snake destroys the idyllic and nave life of Emilion and Morn, his mate. The Leatherkins intervene in a highly unusual way, and the couple reunites. The twins, Krutch and Kant, a born soon after, followed by Bom and Meno. The siblings embark on separate journeys of growth that expand the capabilities of the species and eventually bring them to reunite just before the dreaded Cataclystor invades to devour all humans. The fate of the species is directly linked to solving the mystery that lurks within a cave that has been too dark to explore. Now that Bom has discovered fire, the solution may be at hand. Will it come too late to save the species?

The Problem with Everything - Meghan Daum 2019-10-22

"[A]ffectingly personal, achingly earnest, and something close to necessary." -Vogue "Personal, convincing, unflinching." -Tablet From an author who's been called "one of the most emotionally exacting, mercilessly candid, deeply funny, and intellectually rigorous writers of our time" (Cheryl Strayed, #1 New York Times bestselling author) comes a seminal book that reaches surprising truths about feminism, the Trump era, and the Resistance movement. You won't be able to stop thinking and talking about it. In this gripping work, Meghan Daum examines our country's most intractable problems with clear-eyed honesty instead of exaggerated outrage. With passion, humor, and personal reflection, she tries to make sense of the current landscape—from Donald Trump's presidency to the #MeToo movement and beyond. In the process, she wades into the waters of identity politics and intersectionality, thinks deeply about campus politics and notions of personal resilience, and tests a theory about the divide between Gen Xers and millennials. This signature work may well be the first book to capture the essence of this era in all its nuances and contradictions. No matter where you stand on its issues, this book will strike a chord.

My Misspent Youth - Meghan Daum 2014-12-23

My Misspent Youth is an incisive collection that marked the start of a new millennium and became a cult classic, from the editor of *Selfish, Shallow, and Self-Absorbed* and the author of *The Unspeakable*. An essayist in the tradition of Joan Didion, Meghan Daum is one of the most celebrated nonfiction writers of her generation, widely recognized for her fresh, provocative approach with which she unearths the hidden fault lines in the American landscape. From her well-remembered *New Yorker* essays about the financial demands of big-city ambition and the ethereal, strangely old-fashioned allure of cyber-relationships to her dazzlingly hilarious riff in *Harper's* about musical passions that give way to middle-brow paraphernalia, Daum delves into the center of things while closely examining the detritus that spills out along the way. With precision and well-balanced irony, Daum implicates herself as readily as she does the targets that fascinate and horrify her.

Ups and Downs of Life in the Indies - Paul Adriaan Daum 1987

Written by one of the most realistic colonial authors of his time, his naturalistic novel presents a vivid portrait of colonial life on the island of Java in the late nineteenth-century. P.A. Daum (1850-98) was editor of popular newspaper in central Java. In 1883 he began to write novels under the pseudonym "Maurits" and serialized them in his paper. Over a ten year period he produced ten novels, all of them written in unadorned style and concerned with the vicissitudes of Dutch colonial life. His work is known for its direct style, sense of humor,

and psychological portraiture. He is a perceptive observer with an eye for detail and a fine ear for the rhythms of speech in the East Indies.

The Quality of Life Report - Meghan Daum 2017-04-11

New York Times Notable Book: A Manhattanite seeks Midwestern bliss and finds something else in this "funny, literate [and] often touching story" (People). Television correspondent Lucinda Trout is unhappy about the superficiality and shallowness of her life in New York, not to mention the latest stratospheric rent hike. Seeking an escape, she proposes a new project: She'll move far, far away, to the wholesome, most-livable-list town of Prairie City, and send "Quality of Life Report" segments back to the network. But her mental image of the nation's heartland doesn't quite match up to the reality she finds. Prairie City may not be Manhattan, but it isn't Mayberry either—and while housing may be cheaper here, life and love are just as complicated. Now Lucinda has to confront the challenge of truly finding her own place in the world, in the wildly acclaimed first novel by the *New York Times*-bestselling and PEN Award-winning author of *The Problem with Everything*. "Daum brings a crisp, wisecracking voice to her novel . . . An admirably nuanced view of the American heartland." —The *New Yorker* "Daum's enormous comic gift—and her ability to use it in the service of fundamentally serious issues—is an unexpected delight." —The *New York Times* Book Review "A confident first novel, full of wit and deft social criticism, often very funny and frequently wise." —Publishers Weekly, starred review "With a keen eye and trenchant wit, Meghan Daum skewers the obsessive narcissism and sense of entitlement that passes for real values in our media-driven culture. Always funny, often painfully so, *The Quality of Life Report* is more than simply satirical. It is an intelligent and heartfelt tale of a young woman, making radical choices and waking up to her life." —Ruth Ozeki, author of *The Book of Form and Emptiness*

Glass Made Transparent - Tiny Esveld 2010

"Glass made transparent" guides the reader in eight chapters through the world of the great French glass artists Gallé, Daum and Schneider of the period 1890-1930. Esveld not only describes the beauty and artistry of their glass art but also reveals the technical side of their creations in great detail. This book helps to detect a genuine example from a falsification, a flawless piece from a damaged one and it trains the eye for any cut glass or combinations of pieces put together. It educates the reader to develop a feeling for the perfect style and shape, to learn to look sharply at the decoration, colour, finish and signature of its maker. It also points out all the applied tricks of the trade of the past and present day in order to deceive the unsuspecting buyer. Only the flawless pieces remain expensive and maintain their value. All the others bought at one's own risk, either at auctions or on e-bay are always paid over the top.

The Unspeakable - Meghan Daum 2014-11-18

"Daum is her generation's Joan Didion." –Nylon Nearly fifteen years after her debut collection, *My Misspent Youth*, captured the ambitions and anxieties of a generation, Meghan Daum returns to the personal essay with *The Unspeakable*, a masterful collection of ten new works. Her old encounters with overdrawn bank accounts and oversized ambitions in the big city have given way to a new set of challenges. The first essay, "Matricide," opens without flinching: People who weren't there like to say that my mother died at home surrounded by loving family. This is technically true, though it was just my brother and me and he was looking at Facebook and I was reading a profile of Hillary Clinton in the December 2009 issue of *Vogue*. Elsewhere, she carefully weighs the decision to have children—"I simply felt no calling to be a parent. As a role, as my role, it felt inauthentic and inorganic"—and finds a more fulfilling path as a court-appointed advocate for foster children. In other essays, she skewers the marriage-industrial complex and recounts a harrowing near-death experience following a sudden illness. Throughout, Daum pushes back against the false sentimentality and shrink-wrapped platitudes that surround so much of contemporary American experience and considers the unspeakable thoughts many of us harbor—that we might not love our parents enough, that "life's pleasures" sometimes feel more like chores, that life's ultimate lesson may be that we often learn nothing. But Daum also operates in a comic register. With perfect precision, she reveals the absurdities of the New Age search for the "Best Possible Experience," champions the merits of cream-of-mushroom-soup casserole, and gleefully recounts a quintessential "only-in-L.A." story of playing charades at a famous person's home. Combining the piercing insight of Joan Didion with humor reminiscent of Nora Ephron's, Daum dissects our culture's most dangerous illusions, blind spots, and sentimentalities while retaining her own joy and compassion. Through it all, she dramatizes the search for an authentic self in a world where achieving an identity is never simple and never complete.

E-Commerce and Web Technologies - Kurt Bauknecht 2005-08-31

We welcome you to the 6th International Conference on E-Commerce and Web Technology (EC-Web 2005) held in Copenhagen, Denmark. It was held in conjunction with DEXA 2005. This conference was organized for the first time in Greenwich, UK, in 2000, and it has been able to attract an increasing number of participants and interest, reflecting the progress made in the field. As in the five previous years, EC-Web 2005 served as a forum that brought together researchers from academia and practitioners from industry to discuss the current state of the art in e-commerce and Web technologies. We are sure that inspirations and new ideas emerged from the intensive discussions that took place during the formal sessions and social events. Keynote addresses, research presentations and discussions during the conference helped to further develop the exchange of ideas among current researchers, developers and practitioners. The conference attracted 139 paper submissions and each paper was reviewed by three Program Committee members. The Program Committee selected 39 papers for presentation and publication (an acceptance rate of 28%). And we have to confess that this task was not that easy due to the high quality of the submitted papers.
