On Conditionals Again - Angeliki Athanasiadou
1997-04-24

The volume brings together a selection of papers from a symposium on Conditionality held in the University of Duisburg on 25-26 March 1994. Ten years after the Stanford symposium, the

Proceedings of which were edited by Traugott et al. (1986), the area of conditionality is revisited in a synthesis of issues and aspects with insights drawn from the wider framework of general processes of conceptualisation. One major question is therefore what conceptual categories fall under conditionality or how far the notion of conditionality can be extended. The volume represents the up-to-date research on most aspects of conditionality some of which include the relationship between conditionality, hypotheticality and counterfactuality, polarity, historical perspectives, concessives, the acquisition of conditionals.

Palladio's Legacy - Daniel R. McReynolds 2011

How and why Palladio has become the most influential architect of the Renaissance and beyond. There is perhaps no single architect who has had as great an influence on the development of architecture over the course of the early modern period and beyond as Andrea Palladio (1508–1580). For more than four and a half centuries, his works have continuously provided a touchstone for architects, not only in the Veneto, where architects were able to scrutinize his works firsthand, but abroad as well. Indeed, his followers are legion; however, the manner in which his oeuvre has been interpreted varied considerably according to time and place. His successors have ranged from those advocating a return to classical orthodoxy to those who have sought to borrow from his work more freely. Yet as the call for architectural reform

grew ever more urgent over the course of the eighteenth century, this polysemy came to be overshadowed by a rationalized classical interpretation of Palladio's work.

Twelve Years A Slave, Illustrated Edition -

Solomon Northup 2014-04-08

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the

end of the American Civil War.

The Vivaldi Compendium - Michael Talbot 2011
The Vivaldi Compendium will serve as the most reliable and up-to-date source of quick reference on the composer Antonio Vivaldi and his music. This takes the form of a dictionary listing persons, places, musical works and many other topics connected with Vivaldi; its alphabetically arranged entries are copiously cross-referenced so as to guide the reader towards related topics. The Vivaldi Compendium also provides a gateway to further reading. This is achieved via an extensive bibliography, to which reference is made in most of the dictionary entries. These two sections are complemented by an article-length biography of the composer and a carefully organized list of his works. Knowledge about Vivaldi and his music is still advancing at an incredible rate - many discoveries occurred while the book was in preparation - and every effort has

been made to ensure that *The Vivaldi Compendium* represents the latest in Vivaldi research, drawing on the author's close involvement with Vivaldi and Venetian music over four decades. MICHAEL TALBOT is Emeritus Professor of Music at the University of Liverpool and a Fellow of the British Academy. He is known internationally for his studies of late-baroque Italian music, which include recent books on Vivaldi's chamber cantatas (2003) and the same composer's fugal writing (2007).

The Politics of the Picturesque - Stephen Copley
1994-03-10

The Picturesque (a set of theories, ideas, and conventions which grew up around the question of how we look at landscape) offers a valuable focus for new investigations into the literary, artistic, social, and cultural history of the late eighteenth and nineteenth centuries. This volume of essays by scholars from various disciplines in Britain and

America incorporates a range of historically and theoretically challenging approaches to the topic. It covers the writers most closely identified with the exposition of the Picturesque as a theory, and also traces the influence and implications of its aesthetic in a variety of fields in the Romantic period, including literary and pictorial works, estate management, and women's fashion. Several essays deal more specifically with radical critiques and appropriations of the Picturesque in the nineteenth century, while in others, its influence is traced beyond traditionally accepted geographical or historical bounds.

The Theatrical Instinct - Sharon Marie Carnicke 1989

Nikolai Evreinov, a major force in the Russian avant-garde theatre, won international fame in the 1920's. His harlequinades were produced by such greats as Dullin in France, Pirandello in Italy, and the Theatre Guild on Broadway. As playwright, director, and theorist, Evreinov anticipated major developments in the twentieth century theatre: metatheatrical plays, environmental staging, and

the study of performance through anthropology, ritual, and role-playing in everyday life. Carnicke examines Evreinov's theories in light of the artistry of his plays. She clarifies his most influential ideas and reclaims his central role in modern theatre history.

Energy and Seismic Renovation Strategies for Sustainable Cities - Giuseppe Margani 2019-06-11

The principle of sustainability should be strictly connected with safety, since both aim to conserve resources: in the case of sustainability, the resources are typically thought of as environmental, while in the case of safety, the resources are basically human. In spite of this common ground, discussions on sustainability usually give insufficient attention to safety. In the last years the EU has made large investments to increase the energy efficiency of the

existing building stock, paving the way for a low-carbon future; however, less effort has been made to enhance its seismic resilience. Therefore, the safety and, consequently, the sustainability of towns situated in earthquake-prone countries remain inadequate. In such countries, energy renovation actions should be combined with seismic retrofitting. However, a number of barriers considerably limit the real possibility of extensively undertaking combined retrofit actions, especially for multi-owner housing and high-rise buildings. These barriers are of different kinds: technical (e.g., unfeasibility and/or ineffectiveness of conventional retrofit solutions), financial (e.g., high renovation costs, insufficient incentives/subsidies), organizational (e.g., occupants' disruption and relocation, renovation consensus by condominium ownerships), and cultural/social (insufficient information and skills, lack of adequate policy

measures for promoting renovation actions). This book aims to overcome these barriers and to bridge the gap between sustainability and safety, so to conserve both human and environmental resources.

The Clash of Gods - Thomas F. Mathews 2022-09-13

Between the third and sixth centuries, the ancient gods, goddesses, and heroes who had populated the imagination of humankind for a millennium were replaced by a new imagery of Christ and his saints. Thomas Mathews explores the many different, often surprising, artistic images and religious interpretations of Christ during this period. He challenges the accepted theory of the "Emperor Mystique," which, interpreting Christ as king, derives the vocabulary of Christian art from the propagandistic imagery of the Roman emperor. This revised edition contains a new preface by the author and a new chapter on the origin and development of icons in private domestic cult.

Passivization and Typology - Werner Abraham 2006-01-01

Is the passive a unified universal phenomenon? The claim derived from this volume is that the passive, if not universal, has become unified according to function. Language as a means of communication needs the passive, or passive-like constructions, and sooner or later develops them based on other voices (impersonal active, middle, reflexive), specific semantic meanings such as adversativity, or tense-aspect categories (stative, perfect, preterit). Certain contributors review the passives in various languages and language groups, including languages rarely discussed. Another group of contributors takes a novel theoretical approach toward passivization within a broad typological perspective. Among the languages discussed are Vedic, Irish, Mandarin Chinese, Thai, Lithuanian, Mordvin, and Ngasan, next to almost all European languages. Various theoretical frameworks such as Optimality Theory, modern structuralist approaches, Role and

Reference Grammar, cognitive semantics, Distributed Morphology, and case grammar have been applied by the different authors.

Written on the City - Axel Albin 2009-12-17

Someone Is Trying to Tell You Something This book is a glimpse into a vast conversation happening illegally and in public. All over the world, people are writing messages on the walls and sidewalks of the cities in which we live. They are staying up late, breaking the law, and taking risks to say something to you. Some of it is funny. Some of it is beautiful. Lots of it is upsetting, crazy, and brilliant at the same time. And all of it is important. This book continues that conversation through the eyes of photographers who recognized the importance of those words on the walls and shared them with us. Enjoy.

For Europe - Guy Verhofstadt 2012-09-20

Europe is in crisis. How did we get here? What didn't work? Faced with such an emergency, are the euro zone states not creating an undemocratic monster? Is euroscepticism not reactionary? Could a federation of 27 actually work? This book is a call. A wake up call directed to every citizen. It is an exercise in lucidity that encourages reflection. And it is also an alarm bell. The tone is frank, passionate. The arguments hard hitting: "Europe must once and for all get rid of the navel gazing of its nation-states. A radical revolution is needed. A large

European revolution. And a European federal Union must emerge. A Union that enables Europe to participate in the postnational world of tomorrow. By laziness, cowardice and lack of vision, too many of our Heads of State and Government prefer not to see what is at stake. Let's wake them up. Let's confront them with their impotence. And give them no respite until they have taken the European way, the way to a Europe of the future, towards a Europe for Europeans. The era of empty summits and statements is over. Now is the time for action."
