Portuguese Decolonization in the Indian Ocean World - Pamila Gupta 2018-10-18

Pamila Gupta takes a unique approach to examining decolonization processes across Lusophone India and Southern Africa, focusing on Goa, Mozambique, Angola and South Africa, weaving together case studies using five interconnected themes. Gupta considers decolonization through the twined lenses of history and ethnography, accessed through written, oral, visual and eyewitness accounts of how people experienced the transfer of state power. She looks at the materiality of decolonization as a movement of peoples across vast oceanic spaces, demonstrating how it was a process of dispossession for both the Portuguese formerly in power and ordinary colonial citizens and subjects. She then discusses the production of race and class anxieties during decolonization, which took on a variety of forms but were often articulated through material objects. The book aims to move beyond linear histories of colonial independence by connecting its various regions using the theme of decolonization, offering a productive and new approach to writing post-national histories and ethnographies. Finally, Gupta demonstrates the value of using different source materials to access narratives of decolonization, analyzing the work of Mozambican photographer Ricardo Rangel, and including lyrical prose and ethnographical observations. Portuguese Decolonization in the Indian Ocean World provides a nuanced understanding of Lusophone decolonization, revealing the perspectives of people who experienced it. This book will be highly valuable for historians of the Indian Ocean world and decolonization, but also those interested in ethnography, diaspora studies and material culture.

[Women's Cinema in Contemporary Portugal](#) - Mariana Liz 2020-03-05

Women's Cinema in Contemporary Portugal brings together scholars from Portugal, UK and the USA, to discuss 14 women film directors in Portugal, focussing on their production in both feature film and documentary genres over the last half-century. It charts the specific cinematic visions that these women have brought to the re-emergence of Portuguese national cinema in the wake of the 1974 Revolution and African decolonisation, and to the growing internationalisation of Portugal's arguably 'minor' or 'small nation' cinema, with significant young women directors such as Leonor Teles achieving prominence abroad. The history of Portuguese women's cinema only begins systematically after the 1974 revolution and democratisation. This collection shows how female auteurs made their mark on Portugal's post-revolutionary conceptualisation of a differently 'national' cinema, through the ethnographic output of the late 1970s. It goes on to explore women's decisively gendered interventions in the cinematic memory practices that opened up around the masculine domain of the Colonial Wars in Africa. Feminist political issues such as Portugal's 30-year abortion campaign and LGBT status have become more visible since the 1990s, alongside preoccupations with global concerns relating to immigration, transit and minority status communities. The book also demonstrates how women have contributed to the evolution of soundscapes, the genre of essay cinema, film's relationship to the archive, and the adaptation of the written word. The result is a powerful, provocative and definitive challenge to the marginalisation of Portuguese female-directed film in terms of 'double minority'.

A Cognitive Approach to Adverbial Subordination in European Portuguese - Rainer Vesterinen 2011-05-25

The study of adverbial clauses in Portuguese is related to the fact that the Portuguese speaker may choose between three different structures, i.e. the adverbial clause may contain the plain infinitive, the inflected infinitive or a finite verb form. In the field of Portuguese Linguistics, the analysis of these structures has traditionally been conducted from a Generative Grammar perspective postulating abstract rules and transformations in order to explain the variation between these structures. As a result, focus has been put on purely structural aspects, while conceptual differences have been highly neglected. The present book challenges this view of linguistic analysis. Instead of proposing a general semantic content for finite and infinitive adverbial clauses in Portuguese—traditionally based on notions like deep structure and surface structure—the hypothesis put forward is that these clauses evoke different meanings and that the use of one adverbial structure or another can be explained by the context in which it occurs and by the conceptual content it designates. From a Cognitive Grammar perspective of linguistic analysis, it is shown that Portuguese adverbial structures illustrate the iconic nature of language and that their conceptual meaning can be explained by notions such as prominence, mental spaces, control and subjectification.

Epithome historico de Portugal, etc - David GONÇALVES DE AZEVEDO 1855

After the Long Silence - Claudia Tatinge Nascimento 2019-07-23

After the Long Silence offers a ground-breaking, meticulously researched criticism of Brazilian contemporary performance created by its post-dictatorship generation, whose work expresses the consequences of decades of state-imposed censorship. By offering an in-depth examination of key artists and their works, Cláudia Tatinge Nascimento highlights Brazil's political trajectory while never allowing the weight of historical events to offset key aesthetic trends. Brazilian theater artists born around the time of the nation's 1964 military coup experienced the oppressive rule of dictatorship throughout their formative years, but came of age as Brazil re-entered democracy some two decades later. This book showcases how the post-dictatorship generation developed performances that mapped the uncharted territories of Brazil's political trauma with new dramaturgies, site-specific and street productions, and aesthetic experimentation. The author's in-depth research into a wide array of archival materials and publications in both Portuguese and English demonstrates how the artistic practices of significant post-dictatorship artists such as Cia. dos Atores, Teatro da Vertigem, Grupo Galpão, Os Fofos Encenam, and Newton Moreno were driven by critical thinking and a postcolonial sentiment, proving symptomatic of the nation's shift from an ethos of half-truth telling into a transitional justice that fell short in affirming citizenship. Ideal for scholars of the intersection of theatre and politics, *After the Long Silence: The Theater of Brazil's Post-Dictatorship Generation* offers insight into the function of theater in times of political turmoil and artmaking practices that emerge in response to oppressive regimes.

The Reception of H.G. Wells in Europe - Patrick Parrinder 2013-02-14

H.G. Wells was described by one of his European critics as a 'seismograph of his age'. He is one of the founding fathers of modern science fiction, and as a novelist, essayist, educationalist and political propagandist his influence has been felt in every European country. This collection of essays by scholarly experts shows the varied and dramatic nature of Wells's reception, including translations, critical appraisals, novels and films on Wellsian themes, and responses to his own well-publicized visits to Russia and elsewhere. The authors chart the intense ideological debate that his writings occasioned, particularly in the inter-war years, and the censorship of his books in Nazi Germany and Francoist Spain. This book offers pioneering insights into Wells's contribution to 20th century European literature and to modern political ideas, including the idea of European union. Reception of H.G. Global Impact of the Portuguese Language - Asela de Laguna 2018-01-16

Within the cultural and literary context of contemporary Portugal and Western literature, 1998 was unquestionably the year that Portuguese writing gained international recognition as José Saramago became the first Portuguese writer ever to receive the Nobel Prize in literature. Readers who had never thought about Portuguese letters began to consume his books and, most importantly, opted for expanding their reading lists to include other important writers not only from Portugal, but from Portuguese-speaking well beyond the borders of Portugal. *Global Impact of the Portuguese Language* is a collection of Portuguese writing that is as rich in content and broad in scope as the diversity of its topics and writing modes of its contributors. The book is divided into three major parts. Part 1, "Different Cultural Perspectives of Portuguese Writing," contains thirteen chapters in which the first and opening one, "Portugal: The New Frontier" ably sets the stage for the book by examining from a cultural perspective how Portugal, a peripheral country in the new world system, serves as a microcosm of the problems of cultural intercommunication in today's world. Subsequent chapters are grouped in three categories: "The Voices of the Writers," "Critical Approaches to Cames," and "Fictionalizing the Nation." Part 2, "Portuguese Language and Literature Outside Portugal," comprises one section devoted to the Portuguese language in Africa, followed by studies about Portuguese discoveries as part of the historical process of remembering and forging one's identity, and finally a comprehensive historical development of Portuguese writing, both in Portuguese and English, in the United States. Part 3, "Portuguese Literature and Criticism Available in English: Suggested Readings" details the recent literary happenings which point to a possible renaissance in Portuguese literary production. The concluding part of this volume offers a short, comprehensive listing of anthologies, general studies, and the most popular translations of the best of Portuguese writing from Portugal and Africa. This lively volume constitutes a first pioneering effort to contribute to a deepening appreciation and understanding of Portuguese writing. Anyone interested in ethnic writing will find this book an invaluable education resource with which to begin an exploration of Portuguese writing in the United States. Asela Rodriguez de Laguna is associate professor of Spanish and director of the Hispanic Civilization & Language Studies Program. She is the author of *Notes on Puerto Rican Literature: Images and Identities: An Introduction*, and editor of *Images and Identities: The Puerto Rican in Two World Contexts*.

Fado and the Place of Longing - Richard Elliott 2017-07-05

Fado, often described as 'urban folk music', emerged from the streets of Lisbon in the mid-nineteenth century and went on to become Portugal's 'national' music during the twentieth. It is known for its strong emphasis on loss, memory and nostalgia within its song texts, which often refer to absent people and places. One of the main lyrical themes of fado is the city itself. Fado music has played a significant role in the interlacing of mythology, history, memory and regionalism in Portugal in the second half of the twentieth century. Richard Elliott considers the ways in which fado songs bear witness to the city of Lisbon, in relation to the

construction and maintenance of the local. Elliott explores the ways in which fado acts as a cultural product reaffirming local identity via recourse to social memory and an imagined community, while also providing a distinctive cultural export for the dissemination of a 'remembered Portugal' on the global stage.

The Portuguese and the Straits of Melaka, 1575-1619 - Paulo Jorge De Sousa Pinto 2012-03-01

Following the fall of the Melaka Sultanate to the Portuguese in 1511, the sultanates of Johor and Aceh emerged as major trading centers alongside Portuguese Melaka. Each power represented wider global interests. Aceh had links with Gujerat, the Ottoman Empire and the Levant. Johor was a center for Javanese merchants and others involved with the Eastern spice trade. Melaka was part of the Estado da India, Portugal's trading empire that extended from Japan to Mozambique. Throughout the sixteenth century, a peculiar balance among the three powers became an important character of the political and economical life in the Straits of Melaka. The arrival of the Dutch in the early seventeenth century upset the balance and led to the decline of Portuguese Melaka. Making extensive use of contemporary Portuguese sources, Paulo Pinto uses geopolitical approach to analyze the financial, political, economic and military institutions that underlay this triangular arrangement, a system that persisted because no one power could achieve an undisputed hegemony. He also considers the position of post-conquest Melaka in the Malay World, where it remained a symbolic center of Malay civilization and a model of Malay political authority despite changes associated with Portuguese rule. In the process provides information on the social, political and genealogical circumstances of the Johor and Aceh sultanates.

The Portuguese-Speaking Diaspora - Darlene J. Sadlier 2016-11-15

Long before the concept of "globalization," the Portuguese constructed a vast empire that extended into Africa, India, Brazil, and mid-Atlantic territories, as well as parts of China, Southeast Asia, and Japan. Using this empire as its starting point and spanning seven centuries and four continents, *The Portuguese-Speaking Diaspora* examines literary and artistic works about the ensuing diaspora, or the dispersion of people within the Portuguese-speaking world, resulting from colonization, the slave trade, adventure seeking, religious conversion, political exile, forced labor, war, economic

migration, and tourism. Based on a broad array of written and visual materials, including historiography, letters, memoirs, plays, poetry, fiction, cartographic imagery, paintings, photographs, and films, *The Portuguese-Speaking Diaspora* is the first detailed analysis of the different and sometimes conflicting cultural productions of the imperial diaspora in its heyday and an important context for understanding the more complex and broader-based culture of population travel and displacement from the former colonies to

present-day "homelands." The topics that Darlene J. Sadlier discusses include exploration and settlement by the Portuguese in different parts of the empire; the Black Atlantic slave trade; nineteenth-century travel and Orientalist imaginings; the colonial wars; and the return of populations to Portugal following African independence. A wide-ranging study of the art and literature of these and other diasporic movements, this book is a major contribution to the growing field of Lusophone studies.
