Tradition and Policy Perspectives in Kinship Care - Rowena G. Wilson
2013-04-03

Kinship care is part tradition and part social welfare policy. *Tradition and Policy Perspectives in Kinship Care* examines the balance of the two perspectives and presents current practice challenges of formal and informal kinship care. This important resource focuses on both the needs of the caregiver as well as the impact of kinship care on children. Public policy issues related to kinship care are discussed in detail. This insightful book explores this crucial issue through the lens of social workers who fully understand the strengths and challenges of kinship care. *Tradition and Policy Perspectives in Kinship Care* discusses this issue from both micro and macro levels, explaining the outcomes of kinship based on variables such as the youth's and parent's outlook for the future, performance in school, welfare reform, domestic violence, respite care, spirituality, and involvement of nonbiological relatives. The book then focuses on the subject of grandparents as caregivers, examining their coping resources, effectiveness of programs serving them, and recommended changes to services to enhance their well-being. Topics in *Tradition and Policy Perspectives in Kinship Care* include: study examining the future outlook in African American kinship care families the effect of family disruption on a child's educational performance the impact of the Temporary Assistance to Need Families (TANF) legislation and future policy links between domestic violence and kinship care the role of spirituality and religion in kinship care a study on the needs of biological parents the impact of a grandparent's parenting responsibilities on his or her psychological well-being intergenerational communication kinship care in public housing examination of the factors that influence kinship care provided by African American grandfathers AARP study of grandparents raising grandchildren in the District of Columbia the KinNET project funded by the Children's Bureau for a national support network for kinship care providers *Tradition and Policy Perspectives in Kinship Care* is an invaluable resource for social workers, counselors, child welfare agency administrators and practitioners, educators, and graduate students.

Law Forms for Personal Use - The Editors of Nolo Nolo the Editors
2023-07-25

Whether you need to draft an agreement to lend a friend money, a checklist for moving, or a limited power of attorney to let someone handle your affairs, *Law Forms for Personal Use* makes it easy. It's full of relevant legal agreements and ways to organize essential information, saving you a trip to an attorney.

Godly Grandparenting - Ben E. Dickerson 2008-08

Today's grandparents are younger, more active and significantly involved in the lives of their grandchildren. Currently little exists to help grandparents effectively navigate their changing roles--that is, until now. *Godly Grandparenting* is a comprehensive, practical resource in today's changing world. Gone are the days of sitting on the porch swing visiting with children and grandchildren. Roles have changed, responsibilities have shifted, and new territories for grandparents have emerged. This vital resource explores the many issues facing Christian grandparents today, including: - Legal issues: "What happens if I?" - Grandparenting while still supporting your own children - Grandparenting in a divorce situation - Parenting your grandchildren The most complete and up-to-date book for today's Christian grandparents!

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

California Civil Practice - Arnold H. Gold 2005

Grown and Flown - Lisa Heffernan 2019-09-03

PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of *Grown and Flown*, Lisa Heffernan and Mary Dell Harrington. In the midst of guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. *Grown and Flown* is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. *Grown and Flown* is required reading for anyone looking to raise an adult with whom you have an enduring,

profound connection.

Grandparenting Practices Around the World - Timonen, Virpi 2018-11-14

This exciting collection presents an in-depth, up-to-date analysis of the unprecedented phenomenon of increasing numbers of grandparents worldwide, co-existing and interacting for longer periods of time with their grandchildren. The book contains analyses of topics that have so far received relatively little attention, such as transnational grandparenting and gender differences in grandparenting practices. It is the only collection that brings together theory-driven research on grandparenting from a wide variety of cultural and welfare state contexts - including chapters on Europe, North America, Africa, Asia and Australia - drawing broad lines of debate rather than focusing at a country level. Building on the success of 'Contemporary grandparenting', edited by Virpi Timonen and Sarah Arber, this book further deepens our understanding of how social structures continue to shape grandparenting across a wide range of cultural and economic contexts. The book is essential reading and reference for researchers, students and policy-makers who want to understand the growing influence of grandparents in ageing families and societies across the world.

The Grandfamily Guidebook - Andrew Adesman 2018-08-28

Are you one of nearly 3 million grandparents across North America raising your grandchildren as part of a grandfamily? You may have done all this parenting stuff before, but times have changed since you raised your own kids, and you likely never thought you'd be raising kids again. What has led to all these family issues and the growing need for grandparents to step up? Now more than ever, substance use and addiction have made many birth parents simply unfit for the job, whether the problem is alcohol, opioids, or other drugs. Family dynamics might also be undermined by parents' mental health or medical problems, incarceration, or a simple lack of preparedness for family responsibilities. Whatever the reason for your new role, you must now help your grandchildren adjust to their extended family as part of their everyday life, through the best care you are able to provide. While your new role means that you will likely have to change the way you live, the kinship care you provide your grandchildren might make all the difference in the world. In *The Grandfamily Guidebook*—which leading medical experts have called a “must-have” resource for grandparents raising grandchildren—authors Andrew Adesman, MD, and Christine Adamec offer expert medical advice, helpful insights gleaned from other grandparents, and data mined from the 2016 Adesman Grandfamily Study—the broadest and most diverse research study of its kind to date. You'll also find hands-on tips you'll be able to reference whenever you need them, including how to cope with difficult birth parents, school issues and social-life challenges, problem behaviors that stem from a difficult past, and your own self-care. Starting with its foreword by the renowned Dr. William Sears, across this book you will find practical, inspiring help as you navigate the financial impacts, legal considerations, and medical issues that commonly arise when grandparents and grandchildren start becoming a grandfamily.

101 Law Forms for Personal Use - Nolo Editors 2020-08-25

Reliable legal forms for common personal and family transactions. At one time or another, we all need to get an agreement in writing. But where to start? *101 Law Forms for Personal Use* makes it easy to create legal agreements and organize essential information. The plain-English instructions will help you: Plan your estate: Make a simple will and use worksheets to track beneficiaries and assets. Delegate authority: Create temporary guardianship of a child, pet care agreements, limited powers of attorney, and other essential documents. Rent out a place to live: Use the rental application, move-in letter, checklist, notice of needed repairs, and other forms. Buy a house: Run the numbers with a financial statement, and then use the house comparison worksheet, moving checklist, and other forms. Borrow or lend money: Prepare a solid legal contract (promissory note). Included are five forms: one for every common borrowing/lending situation. Sell personal property: All the agreements you need to sell a motor vehicle, boat, or other valuable property. *101 Law Forms for Personal Use* can also help you: settle legal disputes, handle personal finances, hire household help, deal with spammers and telemarketers, and much more. With Downloadable Forms: you can download and customize all of the agreements, checklists, and

other forms in this book (details inside).

Concepts in Dental Public Health - Jill Mason 2020-03-17

Written specifically for dental hygienists, this comprehensive textbook covers concepts, issues, techniques, and methods related to dental public health. It focuses on the assessment of factors that affect oral health of populations and the development of policy in response to a population's needs. It also provides information regarding the active promotion of oral health maintenance. This text is unique in that it applies the Dental Hygiene Process of Care - a globally accepted, foundational concept in clinical care for dental hygienists - to the subject of dental public health, lending it greater relevance and familiarity to dental hygiene students. In addition, the text is based on the American Association of Dental Educators' Competencies for Dental Hygienists. A chapter on National Board Preparation, including Board-style review questions, prepares students for the national exam. Review questions and learning activities are also incorporated into each chapter.

Maternal Imprisonment and Family Life - Booth, Natalie 2020-05-13

Exploring the untold experiences of family members and friends caring for the children of female prisoners in England and Wales, this book sheds light on the collateral damage that incarceration causes those who takeover caregiving responsibilities for the children of female prisoners. Providing new qualitative research on the lived experiences of these caregiving relatives, alongside theoretically informed and policy-relevant insights, Booth shows the difficult and damaging consequences of the 'family sentence' they serve. Exploring the stigma, scarce statutory support and policy neglect they face, she offers much-needed evidence to encourage the development of a more inclusive, understanding and family-oriented justice system.

Remember Cynthia Rose - Jeanne Sinclair Krause 2002

If your adult child becomes incapacitated or dies, you do not automatically gain custody of your grandchildren. Sometimes, depending on the age of the children and whether or not they are adoptable will determine who gets custody. Hundreds of thousands of dollars in federal bonus monies are given to states each year when they exceed the number of adoptions from the previous year. Your grandchild may be needed to help reach the numbers necessary for your state to receive its bonus.

Ethical Conduct of Clinical Research Involving Children - Institute of Medicine 2004-07-09

In recent decades, advances in biomedical research have helped save or lengthen the lives of children around the world. With improved therapies, child and adolescent mortality rates have decreased significantly in the last half century. Despite these advances, pediatricians and others argue that children have not shared equally with adults in biomedical advances.

Even though we want children to benefit from the dramatic and accelerating rate of progress in medical care that has been fueled by scientific research, we do not want to place children at risk of being harmed by participating in clinical studies. Ethical Conduct of Clinical Research Involving Children considers the necessities and challenges of this type of research and reviews the ethical and legal standards for conducting it. It also considers problems with the interpretation and application of these standards and conduct, concluding that while children should not be excluded from potentially beneficial clinical studies, some research that is ethically permissible for adults is not acceptable for children, who usually do not have the legal capacity or maturity to make informed decisions about research participation. The book looks at the need for appropriate pediatric expertise at all stages of the design, review, and conduct of a research project to effectively implement policies to protect children. It argues persuasively that a robust system for protecting human research participants in general is a necessary foundation for protecting child research participants in particular.

The Family and Medical Leave Act of 1993 - United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Children, Family, Drugs and Alcoholism 1993

Temps - Jackie Krasas 2000

Now firmly established as fixtures of the American workplace, temporary employees constitute a much-discussed but still poorly understood segment of the labor force. In this consciousness-raising book, Jackie Krasas Rogers explores the realities of temporary work from the points of view of workers, agencies, and clients, focusing especially on issues of race, gender, power, and identity. Rogers investigates the situations of two very different kinds of temporary worker—lawyers and those in clerical settings—and finds contrasts and similarities between the two groups' reasons for seeking temporary work, the type of tasks performed, and the value attached to that labor. The goals of temporary workers can be at odds with the interests of the agency and the client, the other players in the power triad of "temping." Where clerical workers often see temporary employment as a stepping stone to a permanent job, many find upward mobility more illusory than real. Because temporary workers can be called in and let go at will or whim, and they have no established social relations in the workplace, they often work harder than permanent workers. Rogers, one of the authoritative scholars of temporary work in the United States, uses extensive archival and field data—including notes from her own work as an office temporary—to put a face on America's temporary workforce.

The Ethical Component of Nursing Education - Marcia Sue DeWolf Bosek 2007

This unique text uses hands-on examples and learning exercises to help you apply critical ethical principles to specific nursing challenges while addressing a range of patient populations and settings.

The Immigration Handbook - Ivan Vasic 2015-03-27

While the United States remains a nation of immigrants, the path to citizenship is not an easy one—and in fact has become more difficult in recent years. In clear, readable language, this volume explains in detail every step an individual must take to obtain a nonimmigrant visa, an immigrant visa leading to permanent residency, or actual citizenship. This book is essential reading for anyone involved with immigration—whether for themselves, a relative, or an employee. Examples of common immigration forms for the individual and for families are included and a list is provided of the most important websites for immigration issues.

Catalog of Federal Domestic Assistance - 2005

Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.

New Mexico Statutes, 1978 Annotated - New Mexico 1978

Military Publications - United States. Department of the Army 1980

The Tender Years : Toward Developmentally Sensitive Child Welfare Services for Very Young Children - Center for Social Services Research and Associate Adjunct Professor Jill Duerr Berrick Director, School of Social Welfare 1998-01-12

The authors examine the impact of child abuse and neglect on preschool children and the handling of this population's needs by the child welfare system. An overview of child development theory and child abuse reporting patterns is presented, and the differences in the foster care experiences of the very young older children is analysed.

The Expert in Litigation and Arbitration - Mark Cato 2020-11-25

The Expert in Litigation and Arbitration provides the complete picture of the role and duties of the expert witness in the UK, Germany, France, Italy, USA, Australia, Hong Kong and China. With articles and chapters from leading practitioners around the world, the book looks at the role of the expert in many different disciplines and jurisdictions, examining topical issues such as the independent status of the expert and professional liability. This book looks at the role of experts in both arbitration and litigation, considering how experts are currently used in civil actions and what lessons can be learnt from this. With much practical advice for the inexperienced expert witness, it covers many of the pitfalls faced by experts, looking at the various situations that can arise either in court or before an arbitrator.

To Grandmother's House We Go And Stay - Carole B. Cox 2000

"It is through the expertise of an impressive team of psychologists, social workers, nurses, as well as lawyers and sociologists, that Cox is able to explore the grandparent-grandchild relationship and its intricacies. Lack of preparation, social isolation, psychological and emotional stress, and financial strain all contribute to the myriad of issues involved in this new wrinkle in the American family."--BOOK JACKET.
