**Europa! Europa?** - Sascha Bru 2009-10-29

The first volume of the new series "European Avant-Garde and Modernism Studies" focuses on the relation between the avant-garde, modernism and Europe. It combines interdisciplinary and intermedial research on experimental aesthetics and poetics. The essays, written by experts from more than fifteen countries, seek to bring out the complexity of the European avant-garde and modernism by relating it to Europe's intricate history, multiculturalism and multilingualism. They aim to inquire into the divergent cultural views on Europe taking shape in avant-garde and modernist practices and to chart a composite image of the "other Europe(s)" that have emerged from the (contemporary) avant-garde and experimental modernism. How did the avant-garde and modernism in (and outside) Europe give shape to local, national and pan-European forms of identity and community? To what extent does the transnational exchange and cross-fertilisation of aesthetic tendencies illustrate the well-rehearsed claim that the avant-gardes form a typically European phenomenon? Dealing with canonised as well as lesser known exponents of modernism and the avant-garde throughout Europe, this book will appeal to all those interested in European cultural, literary and art history.

Professor Timofey Pnin, late of Tsarist Russia, is now precariously perched at the heart of an American campus. Battling with American life and language, Pnin must face great hazards in this new world: the ruination of his beautiful lumber-room-as-office; the removal of his teeth and the fitting of new ones; the search for a suitable boarding house; and the trials of taking the wrong train to deliver a lecture in a language he has yet to master. Wry, intelligent and moving, Pnin reveals the absurd and affecting story of one man in exile.

**Berlin** - Jason Lutes 2020-05-20

Twenty years in the making, this sweeping masterpiece charts Berlin through the rise of Nazism. During the past two decades, Jason Lutes has quietly created one of the masterworks of the graphic novel golden age. Berlin is one of the high-water marks of the medium: rich in its well-researched historical detail, compassionate in its character studies, and as timely as ever in its depiction of a society slowly awakening to the stranglehold of fascism. Berlin is an intricate look at the fall of the Weimar Republic through the eyes of its citizens—Marthe Müller, a young woman escaping the memory of a brother killed in World War I, Kurt Severing, an idealistic journalist losing faith in the printed word as fascism and extremism take hold; the Brauns, a family torn apart by poverty and politics. Lutes weaves these characters' lives into the larger fabric of a city slowly ripping apart. The city itself is the central protagonist in this historical fiction. Lavish salons, crumbling sidewalks, dusty attics, and train stations: all these places come alive in Lutes' masterful hand. Weimar Berlin was the world's metropolis, where intellectualism, creativity, and sensuous liberal values thrived, and Lutes maps its tragic, inevitable decline. Devastatingly relevant and beautifully told, Berlin is one of the great epics of the comics medium.

*Duinesian elegies* - Rainer Maria Rilke

A poetic English rendering of Rainer Maria Rilke's "Duineser Elegien" printed together with the original German on facing pages. The translation places high value on conveying the meaning of the Elegies, although it does not attempt to retain the original meter. An additional, detailed interpretive commentary will increase the English-speaking reader's understanding of Rilke's complex poetry.

The Notebooks of Malte Laurids Brigge - Rainer Maria Rilke 2011-04-06

This is the definitive, widely acclaimed translation of the major prose work of one of our century's greatest poets -- "a masterpiece like no other" (Elizabeth Hardwick) -- Rilke's only novel, extraordinary for its structural uniqueness and purity of language. First published in 1910, it has proven to be one of the most influential and enduring works of fiction of our century. Malte Laurids Brigge is a young Danish nobleman and poet living in Paris. Obsessed with death and with the reality that lurks behind appearances, Brigge muses on his family and their history and on the teeming, alien life of the city. Many of the themes and images that occur in Rilke's poetry can also be found in the novel, prefiguring the modernist movement in its self-awareness and imagistic immediacy.

**House of Leaves** - Mark Z. Danielewski 2000-03-07

"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when House of Leaves was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor

his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

*Conversations of German Refugees ; Wilhelm Meister's Journeyman Years, Or, The Renunciants* - Johann Wolfgang von Goethe 1995-11-05

Goethe was a master of the short prose form. His two narrative cycles, *Conversations of German Refugees* and *Wilhelm Meister's Journeyman Years*, both written during a high point of his career, address various social issues and reveal his experimentation with narrative and perspective. A traditional cycle of novellas, *Conversations of German Refugees* deals with the impact and significance of the French Revolution and suggests Goethe's ideas on the social function of his art. Goethe's last novel, *Wilhelm Meister's Journeyman Years*, is a sequel to *Wilhelm Meister's Apprenticeship* and to *Conversations of German Refugees* and is considered to be his most remarkable novel in form.

*Aspects of Human Evolution* - Rudolf Steiner 1987

8 lectures, Berlin, May 29-July 24, 1917 (CW 176) How to Keep Your Soul Alive after Twenty-Seven This could have been the title of this book. The author shows that the natural development of the soul stops at around the age of twenty-seven. After that, nothing happens for our inner being unless we learn to make it happen. Part of the tragic nature of our time is that more and more people allow their soul life to die at twenty-seven, so that the remainder of their life becomes a kind of mummification. Steiner explains how, by exerting our thinking and feeling, we can keep our soul alive and growing. This is ultimately the only way we can make this incarnation a satisfactory one. Through such effort, we can continue to develop inwardly until a very advanced age--each year, becoming richer and more interesting than the one before. *Aspects of Human Evolution* is a book that gives real meaning to the idea that we live in a state of becoming This book is a translation from German of *Menschliche und menschheitliche Entwicklungswahrheiten. Das Karma des Materialismus* (vol. 176 in the *Bibliographic Survey*).

**Literary Translation, Reception, and Transfer** - Norbert Bachleitner 2020-09-21

The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

[Piety in Pieces](#) - Kathryn M. Rudy 2016-09-26

Medieval manuscripts resisted obsolescence. Made by highly specialised craftspeople (scribes, illuminators, book binders) with labour-intensive processes using exclusive and sometimes exotic materials (parchment made from dozens or hundreds of skins, inks and paints made from prized minerals, animals and plants), books were expensive and built to last. They usually outlived their owners. Rather than discard them when they were superseded, book owners found ways to update, amend and upcycle books or book parts. These activities accelerated in the fifteenth century. Most manuscripts made before 1390 were bespoke and made for a particular client, but those made after 1390 (especially books of hours) were increasingly made for an open market, in which the producer was not in direct contact with the buyer. Increased efficiency led to more generic products, which owners were motivated to personalise. It also led to more blank parchment in the book, for example, the backs of inserted miniatures and the blank ends of textual components. Book buyers of the late fourteenth and throughout the fifteenth century still held onto the old connotations of manuscripts—that they were custom-made luxury items—even when the production had become impersonal. Owners consequently purchased books made for an open market and then personalised them, filling in the blank spaces, and even adding more components later. This would give them an affordable product, but one that still smacked of

luxury and met their individual needs. They kept older books in circulation by amending them, attached items to generic books to make them more relevant and valuable, and added new prayers with escalating indulgences as the culture of salvation shifted. Rudy considers ways in which book owners adjusted the contents of their books from the simplest (add a marginal note, sew in a curtain) to the most complex (take the book apart, embellish the components with painted decoration, add more quires of parchment). By making sometimes extreme adjustments, book owners kept their books fashionable and emotionally relevant. This study explores the intersection of codicology and human desire. Rudy shows how increased modularisation of book making led to more standardisation but also to more opportunities for personalisation. She asks: What properties did parchment manuscripts have that printed books lacked? What are the interrelationships among technology, efficiency, skill loss and standardisation?

*German Paintings of the Fifteenth Through Seventeenth Centuries* - John Oliver Hand 1993

A catalogue of fifteenth and sixteenth century German paintings in the National Gallery of Art, Washington DC.

*Demonic History* - Kirk Wetters 2015-03-20

In this ambitious book, Kirk Wetters traces the genealogy of the demonic in German literature from its imbrications in Goethe to its varying legacies in the work of essential authors, both canonical and less well known, such as Gundolf, Spengler, Benjamin, Lukács, and Doderer. Wetters focuses especially on the philological and metaphorological resonances of the demonic from its core formations through its appropriations in the tumultuous twentieth century. Propelled by equal parts theoretical and historical acumen, Wetters explores the ways in which the question of the demonic has been employed to multiple theoretical, literary, and historico-political ends. He thereby produces an intellectual history that will be consequential both to scholars of German literature and to comparatists.

**The Virgin Suicides** - Jeffrey Eugenides 2011-09-20

First published in 1993, *The Virgin Suicides* announced the arrival of a major new American novelist. In a quiet suburb of Detroit, the five Lisbon sisters—beautiful, eccentric, and obsessively watched by the neighborhood boys—commit suicide one by one over the course of a single year. As the boys observe them from afar, transfixed, they piece together the mystery of the family's fatal melancholy, in this hypnotic and unforgettable novel of adolescent love, disquiet, and death. Jeffrey Eugenides evokes the emotions of youth with haunting sensitivity and dark humor and creates a coming-of-age story unlike any of our time. Adapted into a critically acclaimed film by Sofia Coppola, *The Virgin Suicides* is a modern classic, a lyrical and timeless tale of sex and suicide that transforms and mythologizes suburban middle-American life.

*The Occult in Modernist Art, Literature, and Cinema* - Tessel M. Bauduin 2018-05-15

Many modernist and avant-garde artists and authors were fascinated by the occult movements of their day. This volume explores how Occultism came to shape modernist art, literature, and film. Individual chapters examine the presence and role of Occultism in the work of such modernist luminaries as Rainer Maria Rilke, August Strindberg, W.B. Yeats, Joséphin Péladan and the artist Jan Švankmaier, as well as in avant-garde film, post-war Greek Surrealism, and Scandinavian Retrogardism. Combining the theoretical and methodological foundations of the field of Esotericism Studies with those of Literary Studies, Art History, and Cinema Studies, this volume provides in-depth and nuanced perspectives upon the relationship between Occultism and Modernism in the Western arts from the nineteenth century to the present day.

*Clothing Sacred Scriptures* - David Ganz 2018-12-03

According to a longstanding interpretation, book religions are agents of textuality and logocentrism. This volume inverts the traditional perspective: its focus is on the strong dependency between scripture and aesthetics, holy books and material artworks, sacred texts and ritual performances. The contributions, written by a group of international specialists in Western, Byzantine, Islamic and Jewish Art, are committed to a comparative and transcultural approach. The authors reflect upon the different strategies of »clothing« sacred texts with precious materials and elaborate forms. They show how the pretypographic cultures of the Middle Ages used book ornaments as media for building a close relation between the divine words and their human audience. By exploring how art shapes the religious practice of books, and how the religious use of books shapes the evolution of artistic practices this book contributes to a new understanding of the deep nexus between sacred scripture and art.

*Art and Answerability* - M. M. Bakhtin 2011-01-01

Mikhail Bakhtin (1895-1975) is one of the preeminent figures in twentieth-century philosophical thought. *Art and Answerability* contains three of his early essays from the years following the Russian Revolution, when Bakhtin and other intellectuals eagerly participated in the debates, lectures, demonstrations, and manifesto writing of the period. Because they predate works that have already been translated, these essays—"Art and Answerability," "Author and Hero in Aesthetic Activity," and "The Problem of Content, Material, and Form in Verbal Art"—are essential to a comprehensive understanding of Bakhtin's later works. A superb introduction by Michael

Holquist sets out the major themes and concerns of the three essays and identifies their place in the canon of Bakhtin's work and in intellectual history. The introduction, together with Vadim Liapunov's scholarly gloss, makes these essays accessible to students as well as scholars.
