New Heritage - Yehuda Kalay 2007-11-14

The use of new media in the service of cultural heritage is a fast growing field, known variously as virtual or digital heritage. New Heritage, under this denomination, broadens the definition of the field to address the complexity of cultural heritage such as the related social, political and economic issues. This book is a collection of 20 key essays, of authors from 11 countries, representing a wide range of professions including architecture, philosophy, history, cultural heritage management, new media, museology and computer science, which examine the application of new media to cultural heritage from a different points of view. Issues surrounding heritage interpretation to the public and the attempts to capture the essence of both tangible (buildings, monuments) and intangible (customs, rituals) cultural heritage are investigated in a series of innovative case studies.

Between East and South - Anna Calori 2019-10-21

During the Cold War, alternative globalization projects were underway: socialist Eastern Europe and left-leaning countries in the Third World maintained close economic relations. The two worlds traded and exchanged know-how and technology. This book examines the specific spaces of interaction of these exchanges and discusses the consequences for those projects of globalization undertaken in both world regions.

Society of Fear - Heinz Bude 2017-12-08

From the rise of terrorism to the uncertainties associated with economic crisis and recession, our age is characterized by fear. Fear is the expression of a society on unstable foundations. Most of us feel that our social status is under threat and our future prospects in jeopardy. We are overwhelmed by a sense of having been catapulted into a world to which we no longer belong. Tracing this experience of fear, Heinz

Bude uncovers a society marked by disturbing uncertainty, suppressed anger and quiet resentment. This is as true in our close relationships as it is in the world of work, in how we react to politicians as much as in our attitudes towards bankers and others in the financial sector. Bude shows how this fear is not derived so much from a 'powerful other' but rather from the seemingly endless range of possibilities which we face. While this may seem to offer us greater autonomy and freedom, in reality the unknown impact and meaning of each option creates a vacuum which is filled by fear. What conditions lead people to feel anxious and fearful for themselves and others? How can individuals withstand fear and develop ways of making their fears intelligible? Probing these and other questions, Bude provides a fresh analysis of some of the most fundamental features of our societies today.

Manifesto of New Realism - Maurizio Ferraris 2014-12-01

Retraces the history of postmodern philosophy and proposes solutions to overcome its impasses. Philosophical realism has taken a number of different forms, each applied to different topics and set against different forms of idealism and subjectivism. Maurizio Ferraris's Manifesto of New Realism takes aim at postmodernism and hermeneutics, arguing against their emphasis on reality as constructed and interpreted. While acknowledging the value of these criticisms of traditional, dogmatic realism, Ferraris insists that the insights of postmodernism have reached a dead end. Calling for the discipline to turn its focus back to truth and the external world, Ferraris's manifesto—which sparked lively debate in Italy and beyond—offers a wiser realism with social and political relevance. Maurizio Ferraris is Full Professor of Philosophy and Director of the Laboratory for Ontology at the University of Turin, Italy. His books include Goodbye, Kant! What Still Stands of the Critique of Pure Reason, also published by SUNY Press. Sarah De Sanctis is a PhD candidate in contemporary forms of realism in literature and philosophy at the London Graduate School and a translator for the Department of Philosophy at the University of Turin.

American Tabloid - James Ellroy 2011-11-30

The first novel in Ellroy's extraordinary Underworld USA Trilogy as featured on BBC Radio 4's A Good Read. 1958. America is about to emerge into a bright new age - an age that will last until the 1000 days of John F Kennedy's presidency. Three men move beneath the glossy surface of power, men allied to the makers and shakers of the era. Pete Bondurant - Howard Hughes's right-hand man, Jimmy Hoffa's hitman. Kemper Boyd - employed by J Edgar Hoover to infiltrate the Kennedy clan. Ward Littell - a man seeking redemption in Bobby Kennedy's drive against organised crime. The festering discount of the age that burns brightly in these men's hearts will go into supernova as the Bay of Pigs ends in calamity, the Mob clamours for payback and the 1000 days ends in brutal quietus in 1963.

The War of 1898 - Louis A. Pérez Jr. 2000-11-09

A century after the Cuban war for independence was fought, Louis Perez examines the meaning of the war of 1898 as represented in one hundred years of American historical writing. Offering both a critique of the conventional historiography and an alternate history of the war informed by Cuban sources, Perez explores the assumptions that have shaped our understanding of the "Spanish-American War--a construct, he argues, that denies the Cubans' participation in their own struggle for liberation from Spanish rule. Perez examines historical accounts of the destruction of the battleship Maine, the representation of public opinion as a

precipitant of war, and the treatment of the military campaign in Cuba. Equally important, he shows how historical narratives have helped sustain notions of America's national purpose and policy, many of which were first articulated in 1898. Cuba insinuated itself into one of the most important chapters of U.S. history, and what happened on the island in the final decade of the nineteenth century--and the way in which what happened was subsequently represented--has had far-reaching implications, many of which continue to resonate today.

Communism for Kids - Bini Adamczak 2017-03-24

Communism, capitalism, work, crisis, and the market, described in simple storybook terms and illustrated by drawings of adorable little revolutionaries. Once upon a time, people yearned to be free of the misery of capitalism. How could their dreams come true? This little book proposes a different kind of communism, one that is true to its ideals and free from authoritarianism. Offering relief for many who have been numbed by Marxist exegesis and given headaches by the earnest pompousness of socialist politics, it presents political theory in the simple terms of a children's story, accompanied by illustrations of lovable little revolutionaries experiencing their political awakening. It all unfolds like a story, with jealous princesses, fancy swords, displaced peasants, mean bosses, and tired workers--not to mention a Ouija board, a talking chair, and a big pot called "the state." Before they know it, readers are learning about the economic history of feudalism, class struggles in capitalism, different ideas of communism, and more. Finally, competition between two factories leads to a crisis that the workers attempt to solve in six different ways (most of them borrowed from historic models of communist or socialist change). Each attempt fails, since true communism is not so easy after all. But it's also not that hard. At last, the people take everything into their own hands and decide for themselves how to continue. Happy ending? Only the future will tell. With an epilogue that goes deeper into the theoretical issues behind the story, this book is perfect for all ages and all who desire a better world.

The Andes - Axel Borsdorf 2015-03-12

The Andes are attracting global interest again: they hold valuable mineral resources, tourists appreciate their great natural beauty and the diversity of indigenous cultures, climbers scale rock and ice faces, while many others are intrigued by regional political developments, such as the Bolivarian revolution in Venezuela or the almost unfettered hegemony of the neoliberal economic model in Chile. This volume is the first attempt for decades to present a complete overview of the longest mountain chain on the planet - a region of remarkable climatic, floristic and geologic diversity, where advanced civilization developed well before the arrival of the Spanish. Today the Andes continue to be characterized by their ethnic, demographic, cultural and economic diversity, as well as by the disparity of local socioeconomic groups. The Andean countries pursue a wide range of approaches to tackle the challenges of making the best use of their natural and cultural potential without damaging their ecological basis, as well as to overcome economic disparity and foster social cohesion. This book provides insights into this unique region and its most pressing issues, complemented by a wealth of pictures and comprehensive diagrams, which, in sum, help to better understand these fascinating mountains.

Uneasy Allies - Klaus Larres 2000-03-16

Throughout the second half of the 20th century, fundamental differences in values and policy can be

discerned in British-German relations. For historical, political, and economic reasons, the collective memories of both nations have retained very different identities and attitudes towards each other and towards the European continent and European integration. Yet, Britain is one of the most significant European partners for Germany and Germany is of great importance for Britain's role in Europe. This book focuses on the influence of European integration on the policies of Britain and Germany towards each other. It considers British-German relations in the context of European integration in their historical dimensions since 1945. Britain's ambiguous policy towards the GDR and Mrs Thatcher's opposition to German unification are also discussed. In particular, the book focuses on the post-1990 relationship and examines the political, security related, economic and financial as well as the social aspects of the dynamic British-German relations in an ever more interdependent world. The influence of the US and France on both Germany and Britain and their European policies is therefore considered in detail. This book offers interesting and challenging insights into the evolution of British-German relations within the context of European integration in the post-Second World War and post-Unification era. The book argues that throughout the latter half of the twentieth century Britain and Germany can be characterised as uneasy allies. It is only since the late 1990s Britain and Germany appear to have become genuine partners in the context of European integration.

Che, My Brother - Juan Martin Guevara 2017-04-21

On 9 October 1967, Ernesto Che Guevara, Marxist guerrilla leader and hero of the Cuban Revolution, was captured and executed by Bolivian forces. When the Guevara family learned from the front pages that Che was dead, they decided to say nothing. Fifty years on, his younger brother, Juan Martin, breaks the silence to narrate his intimate memories and share with us his views of the character behind one of history's most iconic figures. Juan Martin brings Che back to life, as a caring and protective older brother. Alongside the many practical jokes and escapades they undertook together, Juan Martin also relates the two extraordinary months he spent with the Comandante in 1959, in Havana, at the epicentre of the Cuban Revolution. He remembers Che as an idealist and adventurer and also as a committed intellectual. And he tells us of their parents - eccentric, cultivated, bohemian - and of their brothers and sisters, all of whom played a part in his political awakening. This unique autobiographical account sheds new light on a figure who continues to be revered as a symbol of revolutionary action and who remains a source of inspiration for many who believe that the struggle for a better world is not in vain.

Leadership in the Cuban Revolution - Antoni Kapcia 2014-09-11

Most conventional readings of the Cuban Revolution have seemed mesmerised by the personality and role of Fidel Castro, often missing a deeper political understanding of the Revolution's underlying structures, bases of popular loyalty and ethos of participation. In this ground-breaking work, Antoni Kapcia focuses instead on a wider cast of characters. Along with the more obvious, albeit often misunderstood, contributions from Che Guevara and Raúl Castro, Kapcia looks at the many others who, over the decades, have been involved in decision-making and have often made a significant difference. He interprets their various roles within a wider process of nation-building, demonstrating that Cuba has undergone an unusual, if not unique, process of change. Essential reading for anyone interested in Cuba's history and its future.

Waste Your Time - Julian Poerksen 2018-12-05

"The economization of our entire lifespan and the apparent compulsion to constant self-optimization are dead ends into which the dynamics of the market economy have led us. Julian Poerksen asks how we might re-emerge from this state and, drawing on the speculative approaches of Georges Bataille, Walter Benjamin, Michel Foucault, and Friedrich Schiller, recommends an investment in its antithesis: the waste of time and talent without guilt feelings and bad conscience. This is fun to read and leaves you with the exhilarating feeling that you are witnessing a long overdue liberation process." Carl Hegemann

The Peace of Paris, 1856 - Winfried Baumgart 1981

The Autobiography of Fidel Castro - Norberto Fuentes 2010-12-06

"A compelling fictional personage-by turns arrogant, funny, pompous, lewd, self-absorbed and self-deluding."—Michiko Kakutani, New York Times An audacious "biography" of the ex-president of Cuba told

in Castro's own outrageous, bombastic voice. Prize-winning author and journalist Norberto Fuentes was once a revolutionary: a writer with privileged access to Fidel Castro's inner circle during some of the most challenging years of the revolution. But in the late 1990s, as the regime began sending its oldest comrades to the firing squad, he became A Man Who Knew Too Much. Escaping a death sentence and now living in exile, Fuentes has written a brilliant, satirical, and utterly captivating "autobiography" of the Cuban leader—in Fidel's own arrogant and seductive language—discussing everything from Castro's early sexual experiences in Birán to his true feelings about Che Guevara and his philosophy on murder, legacy, and state secrets. Critics have long admired Fuentes's writing; one U.S. article called him "Norman Mailer's Cuban pen pal." Akin to Gertrude Stein's *The Autobiography of Alice B. Toklas*, or Edmund Morris's *Dutch*, this wickedly entertaining, true-to-life masterpiece is as imaginative and outsized as Castro himself.

The Imperative of Responsibility - Hans Jonas 1984

Hans Jonas here rethinks the foundations of ethics in light of the awesome transformations wrought by modern technology: the threat of nuclear war, ecological ravage, genetic engineering, and the like. Though informed by a deep reverence for human life, Jonas's ethics is grounded not in religion but in metaphysics, in a secular doctrine that makes explicit man's duties toward himself, his posterity, and the environment. Jonas offers an assessment of practical goals under present circumstances, ending with a critique of modern utopianism.

Latin America and the Global Cold War - Thomas C. Field Jr. 2020-04-08

Latin America and the Global Cold War analyzes more than a dozen of Latin America's forgotten encounters with Africa, Asia, and the Communist world, and by placing the region in meaningful dialogue with the wider Global South, this volume produces the first truly global history of contemporary Latin America. It uncovers a multitude of overlapping and sometimes conflicting iterations of Third Worldist movements in Latin America, and offers insights for better understanding the region's past, as well as its possible futures, challenging us to consider how the Global Cold War continues to inform Latin America's ongoing political struggles. Contributors: Miguel Serra Coelho, Thomas C. Field Jr., Sarah Foss, Michelle Getchell, Eric Gettig, Alan McPherson, Stella Krepp, Eline van Ommen, Eugenia Palieraki, Vanni Pettina, Tobias Rupprecht, David M. K. Sheinin, Christy Thornton, Miriam Elizabeth Villanueva, and Odd Arne Westad.

Women and Empowerment - Haleh Afshar 1998-02-03

The authors in this volume address the questions 'What is empowerment?' Is it power over resources? Is it the ability to create 'effective demand'? Is it about the ability to make choices? Is it about access to resources and how they are controlled, politically, economically, by NGOs, by political parties, by the state? Do political parties facilitate or do they channel energies away from empowerment? They evaluate how in different circumstances different political agents have been seen as provider of resources.

[Gan-Eden](#) - William Henry Hurlbert 1854

The Global Cold War - Odd Arne Westad 2007-03-01

The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

After Europe - Ivan Krastev 2020-01-10

In this provocative book, renowned public intellectual Ivan Krastev reflects on the future of the European Union—and its potential lack of a future. With far-right nationalist parties on the rise across the continent and the United Kingdom planning for Brexit, the European Union is in disarray and plagued by doubts as never before. Krastev includes chapters devoted to Europe's major problems (especially the political destabilization sparked by the more than 1.3 million migrants from the Middle East, North Africa, and South Asia), the spread of right-wing populism (taking into account the election of Donald Trump in the United States), and the thorny issues facing member states on the eastern flank of the EU (including the threat posed by Vladimir Putin's Russia). In a new afterword written in the wake of the 2019 EU parliamentary elections, Krastev concludes that although the union is as fragile as ever, its chances of enduring are much better than they were just a few years ago.

Leonce and Lena - Georg Büchner 1983

Cuba Since the Revolution of 1959 - Samuel Farber 2011-12-13

"Frequent insights, stimulating historical comparisons, and command of the data relating to Cuba's economic and social performance." —Foreign Affairs Uncritically lauded by the left and impulsively denounced by the right, the Cuban Revolution is almost universally viewed one dimensionally. In this book, Samuel Farber, one of its most informed left-wing critics, provides a much-needed critical assessment of the Revolution's impact and legacy. "The Cuban story twists and turns as we speak, so thank goodness for scholars such as Samuel Farber, an unapologetic Marxist whose knowledge of Cuban affairs is unrivalled . . . In this excellent, necessary book, Farber takes stock of fifty years of revolutionary control by recognizing achievements but lambasting authoritarianism." —Latin American Review of Books "A courageous and formidable balance-sheet of the Cuban Revolution, including a sobering analysis of a draconian 'reform' program that will only deepen the gulf between revolutionary slogans and the actual life of the people." —Mike Davis, author of *Planet of Slums*

Society of Singularities - Andreas Reckwitz 2020-04-21

Our contemporary societies place more and more emphasis on the singular and the unique. The industrial societies of the early 20th century produced standardized products, cities, subjects and organizations which tended to look the same, but in our late-modern societies, we value the exceptional - unique objects, experiences, places, individuals, events and communities which are beyond the ordinary and which claim a certain authenticity. Industrial society's logic of the general has been replaced by late modernity's logic of the particular. In this major new book, Andreas Reckwitz examines the causes, structures and consequences of the society of singularities in which we now live. The transformation from industrial to cultural capitalism, the rise of digital technologies and their 'culture machine' and the emergence of an educated, urban new middle class form a powerful engine for the singularization of the social. In late modernity, what is singular is valorized and stirs the emotions, while what is general has to remain in the background, and this has profound social consequences. The society of singularities systematically produces devaluation and inequality: winner-takes-all markets, job polarization, the neglect of rural regions and the alienation of the traditional middle class. The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization. This prize-winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today.

Cuba on the Brink - James G. Blight 2002

With the disintegration of the Soviet Union and international socialism, Cuba now finds itself isolated as the United States continues to press for its economic and political collapse. How Fidel Castro sees Cuba's plight and what he hopes to do about it emerge from this account of a unique conference held in Havana in 1992. The meeting brought together participants in the Cuban missile crisis from the former Soviet Union, Cuba, and the U.S. to discuss its causes and course. This account is now available for the first time in paperback, on the 40th anniversary of the Cuban Missile Crisis. This first meeting between Castro, his ex-Soviet allies, and his American foes produced startling revelations about his dealings with the Soviets,

chilling details of the number and kind of Soviet nuclear arms that Cuba possessed in 1962, and an illuminating account of Castro's view of the American threat--then and now. The dramatic exchanges between Castro and such conference participants as Anatoly I. Gribkov, former head of the Warsaw Pact; former U.S. Secretary of Defense Robert McNamara; and Arthur Schlesinger, Jr., Special Assistant to John Kennedy, reveal misperceptions on all sides that led us to the brink of nuclear war. An extraordinary examination of an international crisis, *Cuba on the Brink* illustrates the ongoing "Cuba problem," and will help guide our actions toward other countries deemed hostile to our national interest.

Fearless Speech - Michel Foucault 2001

Lectures given as part of Foucault's seminar on Discourse and truth, at the University of California at Berkeley, 1983. The seminar was devoted to the study of the Greek notion of 'parrhesia' or 'frankness in speaking the truth'

Lesbian Utopics - Annamarie Jagose 2017-09-29

In *Lesbian Utopics*, Annamarie Jagose surveys the construction of the lesbian and finds her in a cultural space that is both everywhere and, of all places, nowhere. The "lesbian", in other words, is symbolically central, yet culturally marginal.

Hitler's Volksgemeinschaft and the Dynamics of Racial Exclusion - Michael Wildt 2014-07

In the spring of 1933, German society was deeply divided - in the Reichstag elections on 5 March, only a small percentage voted for Hitler. Yet, once he seized power, his creation of a socially inclusive

Volksgemeinschaft, promising equality, economic prosperity and the restoration of honor and pride after the humiliating ending of World War I persuaded many Germans to support him and to shut their eyes to dictatorial coercion, concentration camps, secret state police, and the exclusion of large sections of the population. The author argues however, that the everyday practice of exclusion changed German society itself: bureaucratic discrimination and violent anti-Jewish actions destroyed the civil and constitutional order and transformed the German nation into an aggressive and racist society. Based on rich source material, this book offers one of the most comprehensive accounts of this transformation as it traces continuities and discontinuities and the replacement of a legal order with a violent one, the extent of which may not have been intended by those involved.

Back on the Road - Che Guevara 2001

The fascinating travel diaries that make up this volume are a vital complement to "The Motorcycle Diaries," described by the "London Times" as "'Das Kapital' meets 'Easy Rider.'" Che Guevara - H. Yaffe 2009-02-25

Che Guevara remains an iconic figure, four decades after his death. Yet his most significant contribution - his work as a member of the Cuban government - is rarely discussed. This book explores his impact on Cuba's economy, through fascinating new archival material and interviews.
