The Fantastic Undersea Life of Jacques Cousteau - Dan Yaccarino 2012-05-08

Jacques Cousteau was the world's ambassador of the oceans. His popular TV series brought whales, otters, and dolphins right into people's living rooms. Now, in this exciting picturebook biography, Dan Yaccarino introduces young readers to the man behind the snorkel. From the first moment he got a glimpse of what lived under the ocean's waves, Cousteau was hooked. And so he set sail aboard the Calypso to see the sea. He and his team of scientists invented diving equipment and waterproof cameras. They made films and television shows and wrote books so they could share what they learned. The oceans were a vast unexplored world, and Cousteau became our guide. And when he saw that pollution was taking its toll on the seas, Cousteau became our guide in how to protect the oceans as well.

All the World's Primates - Noel Rowe 2016

This book shows you photographs or a drawing of every currently recognised taxon in the primate order with a synopsis of what is known about all 505 species. The information has been compiled by over 300 primatologists from around the world, who have done field research on their particular lemur, loris, galago, monkey, or ape in its natural habitat. The book illustrates these primates with over 1500 photographs and provides over 5000 references. You will be amazed by the diversity of the world's primates, and it will inspire you to protect endangered primates and their habitats. Fifty percent of the profits from the sale of this book will be donated to organisations working for the conservation of primates.

Ada Twist, Scientist - Andrea Beaty 2016-09-06

A #1 New York Times Bestseller A Wall Street Journal Bestseller A USA Today Bestseller The creators of the New York Times bestselling picture books Rosie Revere, Engineer and Iggy Peck, Architect are back with a story about the power of curiosity in the

hands of a child who is on a mission to use science to understand her world. Ada Twist, Scientist, from powerhouse team Andrea Beaty and David Roberts, is a celebration of STEM, perseverance, and passion. Like her classmates, builder Iggy and inventor Rosie, scientist Ada, a character of color, has a boundless imagination and has always been hopelessly curious. Why are there pointy things stuck to a rose? Why are there hairs growing inside your nose? When her house fills with a horrific, toe-curling smell, Ada knows it's up to her to find the source. What would you do with a problem like this? Not afraid of failure, Ada embarks on a fact-finding mission and conducts scientific experiments, all in the name of discovery. But, this time, her experiments lead to even more stink and get her into trouble! Inspired by real-life makers such as Ada Lovelace and Marie Curie, Ada Twist, Scientist champions girl power and women scientists, and brings welcome diversity to picture books about girls in science. Touching on themes of never giving up and problem solving, Ada comes to learn that her questions might not always lead to answers, but rather to more questions. She may never find the source of the stink, but with a supportive family and the space to figure it out, she'll be able to feed her curiosity in the ways a young scientist should. Iggy Peck and Rosie Revere have earned their places among the most beloved children's characters, and they have inspired countless kids and adults to follow their dreams and passions. Now in her own charming and witty picture book, determined Ada Twist, with her boundless curiosity for science and love of the question "Why?," is destined to join these two favorites. The book is the perfect tool to remind both young girls and women that they have the intelligence and perseverance to achieve their dreams.

Building Character with True Stories from Nature - Barbara A. Lewis 2012-08-27

This flexible resource combines character education with analogies to powerful stories from nature. The heart of each of the book's twenty-five lessons is an engaging story, written to kids, describing a particular animal or plant and its distinctive qualities. Busy classroom teachers will like this book's accessibility and flexibility. Kids can read a story individually or in groups, or follow along as the teacher reads it aloud. Accompanying each story, teachers will find several activities—most of them quick, easy, and requiring few supplies—that further investigate animals or plants and the connections between their qualities and human behaviors. Every lesson examines several main character traits, providing starting points and sample questions for discussing and exploring analogies between events in nature and human acts of character. Features include a chart cross-referencing lessons to specific character traits and a list of further resources. Digital content contains all of the book's reproducible forms, including a color photo of each plant and animal, plus a complete bonus lesson.
