**Innovation for Water Infrastructure Development in the Mekong Region** - Organisation for Economic Co-operation and Development 2020  
Water-related infrastructure could contribute significantly to the development of the Mekong region. At the same time, poor water infrastructure could lead to development challenges for the

countries in the region. Innovation for Water Infrastructure Development in the Mekong Region discusses the challenges facing the region as well as the possible innovative policy options, including those used in Emerging Asian countries, and with reference to the experiences of OECD member countries. It provides analysis and recommendations for the region's policy makers to consider in their efforts to improve water infrastructure. The report first provides an overview of the socio-economic contributions and environmental challenges of the Mekong River. It then presents some potential new financing options for the development of water infrastructure, using digital tools such as Fintech and blockchain. It also examines the potential of using

the spillover effect of tax revenues to attract private finance. It then goes on to discuss the importance of strengthening water infrastructure resilience against natural disasters, including the current COVID-19 pandemic, and finally analyses the challenges of water regulations in the Mekong region.

*Talent Management in Emerging Markets*  
- Steve Bluen 2012-10-01

While much has been written on talent management in the global context, talent management in emerging markets and the unique challenges and opportunities it presents has received little attention in the literature. This book explores these issues through theory, practice and case studies with contributions from scholars and practitioners based both in emerging markets and in Canada, the United Kingdom and The United States. The book provides the reader with a guide to setting up a talent management function in a multinational operating in emerging markets, including some 70 learnings and a set of key performance indicators with indicative targets to achieve when managing talent

effectively in emerging markets. Throughout the book, talent management examples are drawn from diverse emerging markets across Asia (especially India and China), Africa, Central and Eastern Europe, the Middle East, and South America. *Social Anthropology of Work* - Association of Social Anthropologists of the Commonwealth 1979

*The Journey to Transform Local Government* - Tinasha Chigwata 2019  
"The Journey to Transform Local Government is about the challenges

and opportunities for municipalities in South Africa as they journey towards delivering on the promise of developmental local government. It deals with various issues on the continuum of local government transformation in South Africa, for example, what does Sustainable Development Goal 11 mean for a municipality? Given that good governance is essential for success, are municipalities implementing anti-corruption policies and are the Municipal Public Accounts Committees functioning? How do we staff municipalities with professionals who see local government as their career of choice? And, given that our ageing infrastructure poses risks for the future, what should municipalities do to ensure proper maintenance? How do we manage the overlapping roles of

traditional leaders and municipalities? Can traditional land use allocation and building practices co-exist with municipal planning and building regulations? And, when municipalities insist on town planning and building regulations, how does this affect local entrepreneurs? Lastly, how do we measure spatial transformation in practice? The authors grappling with these questions come from universities, government, civil society and the private sector. They fill the pages of this book with some of the latest research on local government, grounded in the reality of today's South Africa."--Back cover.

**Moments of Grace** - Laurie Blefeld  
2018-04-18

Sharing our stories, who we are, what

we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. "Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."-Gunilla Norris, author of Sheltered in the Heart and Companions on the Way: A Little Book of Heart-full Practices "Laurie's

transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and through it to our own. She is a natural spiritual teacher. Moments of Grace is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword Intergovernmental Fiscal Relations - Ronald C. Fisher 2012-12-06 The main objective of this book is to restate the important theories and evidence from economic analysis concerning intergovernmental fiscal issues. More importantly, the second objective of the book is to identify gaps in knowledge, empirical uncertainties, and missing theoretical structures and then to

establish a preliminary agenda for new research on this topic. The book is organized in two sections. The first covers the core body of intergovernmental fiscal relations, including optimal size for jurisdictions and assignment of public sector functions, the formulation and execution of tax policy in an intergovernmental setting, and the appropriate structure and use of intergovernmental transfers. In the second section, the core knowledge is applied to four major policy areas: education, welfare, fiscal interaction in urban areas, and economic development. In thinking about a new research agenda, the authors call for more current and authoritative estimates of fiscal incidence, including

interjurisdictional spillovers, for more fundamental research about the federation process and effects of consolidation, for new evidence about the long run, general equilibrium effects of interjurisdictional competition, and for basic research about the choice process and establishment of intergovernmental fiscal institutions and policies by federal and subnational governments. *Handbook of the International Comparison Programme* - United Nations. Statistical Office 1992 Describes the International Comparison Programme which intends to produce estimates, comparable in real terms, for the gross domestic product. Provides guidance for those working in national statistical offices on the Programme. **Women and Depression** - Iffat Hussain

2010-04-16

Women and Depression is a multidisciplinary book. It is a collection of research papers and essays from authors in the fields of sociology, public health, psychology and psychiatry. It presents further interdisciplinary views on women and depression. The authors have communicated their professional experience, information and knowledge, integrating the latest information about women and depression. The chapters explore different aspects of women and depression, for example, how the community, social, and religious aspects play their roles in developing or fighting depression among women. In some chapters authors have shared their personal experiences, and their friends'

experiences, which caused depression. Other chapters include medical points that lead to depression in women whereas some chapters explore the healing power of self-help such as yoga and meditation. This book offers a comprehensive understanding of depression which is so common among women. It provides an insight from a wide variety of professionals and people outside the medical field. The essays are not purely medically based: the book is also intended to be accessible for those outside the medical field including patients with depression, their families and friends, and all those who are interested in this condition.
