Risking It All - Nina Darnton 2017-09-19

In the tradition of Lisa Scottoline and Jodi Picoult comes a novel from critically-acclaimed author Nina Darnton about a woman who'll go to any lengths to become a mother. When Marcia, a driven, successful editor in New York with a loving husband, finds she can't conceive a child, it rips the heart out of her seemingly-perfect life. Her desire to be a mother has become her obsession, and after trying and failing to become pregnant by every known method, she focuses all of her energy on her one remaining option: surrogacy. Her husband resists, and tries to convince her that they can be happy without a child; but faced with her unyielding determination, he relents, and reluctantly goes along with the idea. Everything looks good...until an unexpected tragedy occurs that changes their plans, their marriage, and their lives forever. Praise for *The Perfect Mother*: "A fast-paced thriller with the kind of emotional impact that transcends a simple whodunit." —Kirkus Reviews "This haunting page-turner will keep you up all night and be long

remembered after the last page has been read." —Mary Higgins Clark

Close Encounters of the Third-Grade Kind - Phillip Done 2009-09-04

A twenty-year veteran of the classroom, elementary school teacher Phillip Done takes readers through a lively and hilarious year in the classroom. Starting with the relative calm before the storm of buying school supplies and posting class lists, he shares the distinct personalities of grades K-4, what he learned from two professional trick or treating 8-year-old boys, the art of learning cursive and letter-writing, how kindergartners try to trap leprechauns, and what every child should experience before he or she grows up. These charming, sweet, and funny tales of Mr. Done's trials and triumphs as an award-winning schoolteacher will touch readers' hearts and remind them of the true joys of childhood. We all have that one special, favorite grade school teacher whom we fondly remember throughout our adult lives - and every teacher also has students whom they will never forget. This is the perfect book for teachers, parents, and anyone else who is looking for a lighthearted, nostalgic read.

Making the Team - Timothy Morris 1997

He concludes with a chapter that asks, "What does it mean to be 'literary'?" What distinguishes "high art" from a baseball novel, or a mystery, or a

romance novel, or pornography? Making the Team suggests that drawing the line may be a more vital concern - not just for scholars, but for Americans at large - than anything critics have argued about for a very long time.

Best Books for Children, Preschool Through Grade 6 - 2006

Brain-Compatible Mathematics - Diane Ronis 2006-09-18

Students' brains are wired to make them natural, curious learners. The mathematical world around them offers a vast classroom, filled with textiles, shapes, spaces, quantities, and experiences to discover and explore, all leading to the construction of understanding. Teachers can use this natural curiosity to tap the inborn neural mechanisms that motivate students to learn--to make relevance and meaning of their surroundings. Brain-Compatible Mathematics,

Second Edition bridges the findings from the realms of brain research and improved mathematics instruction through teaching samples, standards, newest research findings, and integration to other content areas.

The Power of Picture Books in Teaching Math and Science - Lynn Columbia 2017-05-12

This book's 50-plus lessons--each based on a different picture book or story--will help classroom teachers build a foundation for teaching math, science, and social studies concepts to their students. Each lesson uses children's literature to make challenging, abstract concepts relevant to children's lives, inviting them to learn these concepts while responding to a story's illustrations, theme, characters, and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math, science, and social studies. Chapters 1 through 5 set the stage for using picture books, discussing

the effective, imaginative integration of literature into the classroom.

Teachers will learn to create an environment that ensures that when children and books come together, the experience is enjoyable and thought provoking. Chapters 6 through 9 provide individual lessons, by grade level, with detailed activities based on specific books.

Catapult Loading System - Joey Myers 2018-02-14

"My son at 10yo (90-lbs) is highly coach-able. I taught him the system in February and he hit well during the season but could only hit the ball around 180'. Then all of a sudden around June he started killing the ball. He was hitting home runs every game and hit a ball at least 250-feet" - Michael Parillo (via email) Sick of struggling to help hitters drive the ball hard with more consistency? Dramatically increase power without sacrificing swing quality. Literally thousands of coaches across the nation are getting predictably positive results with hitters using the CLS system. How? By applying human movement principles validated by REAL science to hitting a ball, and NOT "bro-science." THIS STEP-BY-STEP GUIDE TO CONSISTENT POWER TEACHES: How to master a handful of human movement principles, so you can slice the "teach hitting" learning curve in half. How to effectively load the body, so your hitters can optimize their batted ball distance potential. How elite-hitters are revealing ways to hit balls with High-Exit-Speeds, swing after swing, using three elements a 4-year-old can understand. Why 'loading and exploding the hips' is bad for lower back, and how to teach hitters a highly effective but SAFE swing. THE NEW EXPANDED EDITION INCLUDES: 'How to practice' section at end of each movement principle Chapter. How to train a 2-year-old to hit a moving ball (proof that NOT only elite hitters can be taught these movements). Why pitchers are taught to pitch around ineffective swing paths, and how to turn their weapon against them. Why coaches MUST focus their hitters' efforts on targeting and elevating pitches low in the zone. How to teach timing and get hitters on-

time more often in games.
