Producer Price Index Manual -
International Monetary Fund
2004-09-03

The producer price index (PPI) measures the rate at which the prices of producer goods and services are changing overtime. It is a key statistic for economic and business decision making and inflation monitoring. The Producer Price Index Manual: Theory and Practice provides clear, up-to-date guidance on the concepts, uses, methods, and economic theory of the PPI, including information on classifications, sources, compilation techniques, and analytical uses of the PPI. The Manual supersedes the previous international guidance on PPIs (available in the Manual on Producers' Price Indices for Industrial Goods, published by the United Nations Statistics Division in 1979). The Manual's conceptual framework derives from the System of National Accounts 1993 and recent developments in index number theory. Preparation of the Manual was undertaken by the Intersecretariat Working Group on Price Statistics through a technical expert group chaired by the IMF and involving representatives from the ILO, the

OECD, the UN Economic Commission for Europe, the World Bank, national statistical offices, and academic institutions.

The Palgrave Handbook of Textbook Studies - Eckhardt Fuchs 2018-04-04
This volume examines the present status and future trends of textbook studies. Cutting-edge essays by leading experts and emerging scholars explore the field's theories, methodologies, and topics with the goal of generating debate and providing new perspectives. The Georg Eckert Institute's unique transdisciplinary focus on international textbook research has shaped this handbook, which explores the history of the discipline, the production processes and contexts that influence textbooks, the concepts they incorporate, how this medium itself is received and future trends. The book maps and discusses approaches based in cultural studies as well as in the social and educational sciences in addition to contemporary methodologies used in the field. The book aims to become the central interdisciplinary reference for textbook researchers, students, and educational practitioners.

Twelve Years A Slave, Illustrated Edition - Solomon Northup 2014-04-08
Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.
The Lost Pianos of Siberia - Sophy Roberts 2020-02-06

* Shortlisted for the 2021 Stanford Dolman Travel Book of the Year prize
* A critically-acclaimed Sunday Times, Spectator and Independent Book of 2020 * Now with colour photography by Michael Turek 'Richly absorbing... An impressive exploration of Siberia's terrifying past.' Guardian 'Evocative and wonderfully original.' Colin Thubron _____ Siberia's expansive history is traditionally one of exiles, bitter cold and suffering. Yet there is another tale to tell. Dotted throughout this remote and beautiful landscape are pianos created during the boom years of the nineteenth century. They tell the story of how, ever since entering Russian culture under the influence of Catherine the Great, piano music has run through the country like blood. How these pianos made the journey into this snow-bound wilderness in the first place is remarkable. That they might be capable of making music in such a hostile landscape feels like a miracle. The Lost Pianos of Siberia

is an absorbing story about a piano hunt - a quixotic quest through two centuries of Russian history and eight time zones stretching across an eleventh of the world's land surface. It reveals not only an unexpected musical legacy, but profound and brave humanity in the last place on earth you might expect to find it.

_____ What readers are saying about The Lost Pianos of Siberia: ***** 'You know a book's good when, on finishing it, you just want to start again.' ***** 'Beautifully written, full of compelling anecdotes celebrating Siberia's extraordinary history.' ***** 'The most unusual and intelligent way to tell a travel story.'

Playing Up - Sibylle Peters 2016-04

"Kids are explorers of the everyday. For them, to light a match can be something extraordinary that needs focus and time, and creates an experience. The same is true for everyone who practices Live Art. 'Playing Up' is an artwork by Sibylle Peters of Hamburg's Theatre of Research, exploring the potential of Live Art to bridge generations. Drawing on key Live Art themes and seminal works, 'Playing Up' takes the form of a game played by adults and kids together." -- Box.

Law, Territory and Conflict Resolution - Matteo Nicolini 2016-05-19

Law, Territory and Conflict Resolution examines the role of law

in territorial disputes and legal realities in territorial conflicts by critically reflecting on the well-established assumption that law is 'part of the solution' rather than 'part of the problem'.

Art of the Hellenistic Kingdoms -

Seán Hemingway 2019-04-29

This handsome newly designed addition to The Metropolitan Museum of Art's symposia series furthers the study of one of the most influential but less known periods of Greek art and culture. It is based on papers given at a two-day scholarly symposium held in conjunction with the award-winning exhibition "Pergamon and the Hellenistic Kingdoms of the Ancient World," on view at the Metropolitan in 2016. The twenty diverse essays exemplify the international scope of the Hellenistic arts, which cover the three centuries between the death of Alexander the Great in 323 B.C. and the suicide of Cleopatra in 30 B.C. Subjects range from twenty-first century approaches to museum displays of archaeological material to the circulation of artists and works of art throughout the Mediterranean and the influence of Hellenistic art and its legacy in the ancient Roman world. Among the topics discussed are aspects of royal self-presentation and important elements of iconography and style in coins, gems, mosaics, sculpture, vessels, and wall paintings, in mediums including bronze, faience, glass, marble, silver, and terracotta. Authored by a number of internationally renowned

scholars, the essays in this volume highlight the holdings of the Metropolitan and markedly demonstrate the artistic innovations and technical mastery of Hellenistic artists, offering new insights into the vitality and complexity of Hellenistic art. p.p1 {margin: 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Membrane-Based Separations in

Metallurgy - Lan Ying Jiang

2017-02-26

Membrane-Based Separation in Metallurgy: Principles and Applications begins with basic coverage of the basic principles of the topic and then explains how membrane technology helps in the development of new environmentally friendly and sustainable metallurgical processes. The book features the principles of metallurgical process and how widely the membrane-based technology has been applied in metallurgical industry, including the basic principles of membrane-based separation in terms of material science, membrane structure engineering, transport mechanisms, and module design, detailed metallurgical process flowcharts with emphasis on membrane separations, current process designs, and describes problems and provides possible solutions. In addition, the book includes specific membrane applications, molecular design of materials, fine tuning of membrane's multi-scale structure, module selection and process design, along with a final analysis of the environmental and economic benefits achieved by using these new processes. Outlines membrane

separation processes and their use in the field of metallurgy Includes case studies and examples of various processes Describes individual unit operations and sectors of extractive metallurgy in a clear and thorough presentation for students and engineers Provides a quick reference to wastewater treatment using membrane technology in the metallurgical industry Outlines the design of flowsheets, a topic that is not covered in academic studies, but is necessary for the design of working process Provides examples and analysis of the economic implications and environmental and social impacts

A Sad Fiasco - Jonas Kreienbaum
2019-09-01

Only in recent years has the history of European colonial concentration camps in Africa—in which thousands of prisoners died in appalling conditions—become widely known beyond a handful of specialists. Although they preceded the Third Reich by many decades, the camps' newfound notoriety has led many to ask to what extent they anticipated the horrors of the Holocaust. Were they designed for mass killing, a misbegotten attempt at modernization, or something else entirely? *A Sad Fiasco* confronts this difficult question head-on, reconstructing the actions of colonial officials in both British South Africa and German South-West Africa as well as the experiences of internees to explore both the similarities and the divergences between the African camps and their Nazi-era successors.

Fall into the lives of the city's filthy rich with Juno Dawson's deliciously dark and intoxicating London Collection. WINNER OF THE YA BOOK PRIZE 2020 Jana Novak's history sounds like a classic model cliché: tall and gangly, she's uncomfortable with her androgynous looks until she's unexpectedly scouted and catapulted to superstardom... But the fashion industry is as grimy as it is glamorous. And there are unexpected predators at every turn. Jana is an ordinary girl from a south London estate, lifted to unimaginable heights. But the further you rise, the more devastating your fall ... Honest and raw, this is a timely exposé of the dark underbelly of the fashion industry in an era of #TimesUp and #MeToo. It might just be Juno Dawson's most important book yet. 'Juno Dawson slashes through the glamour of the fashion industry ... combining blockbuster appeal with piercing commentary on modelling, body image and consent' Observer 'Guaranteed to be your summer read' Glamour

Shanghai and the Yangzi Delta - Eric N. Danielson 2004

Innovations for Metropolitan Areas - Patrick Planing 2020-06-17

This book presents human-centered concepts and solutions for mobility, logistics and infrastructure that will make our growing metropolitan areas more livable and sustainable. The still accelerating

megatrend of urbanization is leading to constantly growing metropolitan areas. This creates a whole series of challenges for municipalities, as well as citizens, such as overcrowded traffic routes, limited building space and an increasingly difficult supply situation. With this book we want to answer the following question: How can people live in densely populated areas and meet their needs in terms of mobility, freedom, self-determination, security, prosperity, communication or in other words: how can metropolitan regions be made humane? The answer to this question requires innovative ideas and approaches in various areas: Sustainable designs of infrastructure Economically and ecologically efficient logistics and mobility approaches Intelligent applications for navigation and communication All these ideas must be measured against the needs of citizens and should thus be developed following a human-centered design approach. This ensures that innovative solutions will be widely accepted by the public. In addition, they also have the potential to turn citizens into active co-designers of future metropolitan areas.

Future History 2050 - Thomas Harding
2022-03-01

This future history of the next thirty years, imagined by bestselling author Thomas Harding, is a compelling and startling call to action. In 2020, a researcher is shocked to find a set of notebooks detailing the history of the next thirty years. Is this a hoax? Or could it be real? The notebooks, written in the year 2050, contain interview transcripts between teenage Billy and Gran Nancy. We learn about the great climate SHOCK, when global temperatures rise much faster than anticipated, resulting in catastrophic consequences for

humanity. We learn about a shift away from democracy, toward unelected "ethnarchs" – heads of corporations who use their access to our personal data to competently run the world. We learn about the giant city towers where most people live, work and play inside – where it's safe from natural disasters and viral outbreaks. And between these interviews, we learn more about Billy, whose interest in the history that has been erased from the official record is causing trouble in 2050. Is it too late to change the past to save the future?

Science and Conservation in African Forests - Richard Wrangham 2008-08-14
Forests need apes as much as the apes need the forests. They are the gardeners of the forest - keystone species in the ecology of African and Southeast Asian forests, dispersing seeds, creating light gaps and pruning branch-tips whilst feeding. Their habitat comprises two of the planet's three major tropical forest blocks that are essential for global climate regulation. But the economic pressures that are destroying ape habitats are much greater than current available conservation finance. This unique case study from the Kibale national park illustrates how biological research has had diverse consequences for conservation. It examines effects on habitat management, community relations, ecotourism and training. Lessons learned from this project over the last 20 years will inspire researchers and conservationists to work together to promote biodiversity through field projects.

Travels in a Blue Chair - Walt Balenovich 2007-09-25

I had polio when I was twelve weeks old and moved to a wheelchair full time when I moved out on my own. Far from being confining, the blue chair has allowed me the freedom to do whatever I want to and when, including backpacking the world alone when time and finances allow. Whether it is falling out of my blue chair and breaking a leg in Zambia or being stranded in the dark on a small boat in the Java Sea off Indonesia, there is always a funny story to be told. For me *Travels in a Blue Chair* isn't about the chair. The chair is in many ways just a means to get me from point A to point B, exactly like shoes. The real story is about the many smiling people I've met all over the world who trip over themselves to help me out when I need it and then remain in contact with me to become life-long friends.

Fame - Daniel Kehlmann 2010-09-14

Imagine being famous. Being recognized on the street, adored by people who have never even met you, known the world over. Wouldn't that be great? But what if, one day, you got stuck in a country where celebrity means nothing, where no one spoke your language and you didn't speak theirs, where no one knew your face (no book jackets, no TV) and you had no way of calling home? How would your fame help you then? What if someone got hold of your cell phone? What if they spoke to your girlfriends, your agent, your director, and started making decisions for you? And worse, what if no one believed you were you anymore? When you saw a look-alike acting your roles for you, what would you do? And what if one day you realized your magnum opus, like everything else you'd ever written, was a total waste

of time, empty nonsense? What would you do next? Would your audience of seven million people keep you going? Or would you lose the capacity to keep on doing it? Fame and facelessness, truth and deception, spin their way through all nine episodes of this captivating, wickedly funny, and perpetually surprising novel as paths cross and plots thicken, as characters become real people and real people morph into characters. The result is a dazzling tour de force by one of Europe's finest young writers.

Global Academic Publishing - Mary Jane Curry 2017-11-22

This book reports on the state of academic journal publishing in a range of geolinguistic contexts, including locations where pressures to publish in English have developed more recently than in other parts of

the world (e.g. Kazakhstan, Colombia), in addition to contexts that have not been previously explored or well-documented. The three sections push the boundaries of existing research on global publishing, which has mainly focused on how scholars respond to pressures to publish in English, by highlighting research on evaluation policies, journals' responses in non-Anglophone contexts to pressures for English-medium publishing, and pedagogies for supporting scholars in their publishing efforts.

Axolotl Roadkill - Helene Hegemann
2012-06-21

'Horrible lives are a godsend,' writes 16-year-old Mifti in her diary. Since the death of her mother, she has been living in Berlin in an increasingly dire state of disarray. Diagnosed as a 'pseudo stress-debilitated' problem child, she becomes enmeshed in the Berlin party scene, surviving her so called life through a haze of sex, drugs and club culture. What sets Mifti apart is her hypersensitivity and her open, questioning curiosity about an older generation that doesn't seem to be able to care for its children. Torn between genius and madness, she delves into the language of adults, their conventions and toys with what she calls, 'the general decay of their worlds, where the pursuit of prosperity has led to neglect'.

The First World War as a Turning Point / Wendezeit Weltkrieg - Frieder Ludwig

The First World War led to a fundamental reorganization of international relations. This had a

profound impact on churches and mission agencies and their ecumenical networks. European Christianity was increasingly questioned. The shock was all the greater since the war alliances were formed without taking religious orientation into consideration. This volume examines the impact of the war on church and mission especially in Africa and Asia. The contributions provide a wide scope of historical analyses with a focus on the Hermannsburg Mission. The symposium was organized by the Ludwig-Harms-Kuratorium and the Fachhochschule für Interkulturelle Theologie Hermannsburg in 2018.

Guerrilla Warfare - Che Guevara
2002-01-01

Che Guevara, the larger-than-life hero of the 1959 revolutionary victory that overturned the Cuban dictatorship, believed that revolution would also topple the imperialist governments in Latin America. Che's call to action, his proclamation of "invincibility"-the ultimate victory of revolutionary forces-continues to influence the course of Latin American history and international relations. His amazing life story has lifted him to almost legendary status. This edition of Che's classic work *Guerrilla Warfare*

contains the text of his book, as well as two later essays titled "Guerrilla Warfare: A Method" and "Message to the Tricontinental." A detailed introduction by Brian Loveman and Thomas M. Davies, Jr., examines Guevara's text, his life and political impact, the situation in Latin America, and the United States' response to Che and to events in Latin America. Loveman and Davies also provide in-depth case studies that apply Che's theories on revolution to political situations in seven Latin American countries from the 1960s to the present. Also included are political chronologies of each country discussed in the case studies and a postscript tying the analyses together. This book will help students gain a better understanding of Che's theoretical contribution to revolutionary literature and the inspiration that his life and Guerrilla Warfare have provided to revolutionaries since the 1960s. This volume is an invaluable addition to courses in Latin American studies and political science.

Colonialism and National Identity - Paolo Bertella Farnetti 2015-09-04
Until the latter part of the twentieth century, Italy's colonial past was a largely neglected topic in historical studies. Before then, only a handful of historians had shown any inclination for rescuing it from the dusty shelves of history, to which it had been relegated. With a few exceptions – most notably Angelo Del Boca – not many had the courage to venture into such treacherous territory. Colonial studies experienced a resurgence at the start of the new millennium, with remarkable progress in the quantity and quality of research, along with the wider public's newfound interest, as evidenced by an important conference held in Milan in 2006 and the large audience it attracted. This

book addresses the relationship between national identity and colonial culture in Italy. The centrality of the construction of Otherness in the identity formation of the colonizer has been extensively reported, both in Europe and elsewhere, and the relevance of colonial heritage has also been attested. In Italy, however, this relationship has been neglected in existing historiography, and the colonial experience has traditionally been side-lined and marginalized. This volume is divided into several sections, each organized around an underlying theme. Within each theme, a broad array of topics and methodologies reflect the authors' approach in analysing the role of colonialism in the process of Italian identity formation. The rather heterogeneous works contained in this book, which attest the vitality and complexity of the debate on Italian colonialism, are clustered around one central theme: the reconstruction of un-comfortable memories, and a past that will not pass – which overlap the challenging present circumstances of rigidity, racism and rejection. As such, this book is a work of critical reflection, assembled using varied resources and scientific tools in order to shed light on a common past that is still so near and vivid in the minds of Italians, but at the same time so denied, distorted and forgotten in the collective memory.

Handbook of Economic Sociology for the 21st Century - Andrea Maurer
2021-05-08

This handbook provides an overview on major developments that occurred in the field of economic sociology after its rebirth since the 1980s in the US. It offers new insights on the uniqueness of European economic sociology compared to US economic sociology which emerged at the end of the 20th century. The handbook presents economic sociology as a developing field which started with certain foundations as new economic sociology, widening the perspective by introducing social factors thereby focusing more on general belief systems, social forms of coordination and the relationships between society and the economy. It offers an outstanding portrait of the research field helping to identify major foundations and trajectories as well as new research perspectives for a globalized economic sociology. This makes the handbook appeal to specialized researchers of the field, researchers from other disciplines interested in economic phenomena, as well as graduate and postgraduate students.

Exercitationes paradoxicae adversus Aristoteleos, in quibus praecipua totius Peripateticae doctrinae fundamenta excutiuntur, etc - Pierre Gassendi 1656

Dancing Carl - Gary Paulsen
2012-05-22

Dancing Carl, Gary Paulsen's first novel, was a ALA Best Book for Young Adults and a Notable Children's Trade Book for the Language Arts. In the winter, life in McKinley, Minnesota, revolves around the rinks, where kids play hockey and grown-ups skate to scratchy phonograph records. Then, the year Marsh and his best friend,

Willy, are twelve, Carl appears at the rink, wearing a battered, old leather flight jacket and doing a strange dance that is both beautiful and disturbing to watch. It is Marsh and Willy who discover the terrible secret behind Carl's dance, a secret that threatens to destroy him. But a small miracle occurs, and Carl's dance becomes a fragile and tentative expression of hope and the healing power of love.

Little Fox - Edward van de Vendel
2020-08-25

Good parents everywhere know the tension of wanting our kids to be curious, to have rich experiences and friends...but to be perfectly safe while doing it. Little Fox knows all about it! His father (in classic picture book fashion) warns him of the danger everywhere. But Little Fox still frolics with butterflies, scavenges for food, and searches for new friends. Then one day he takes a tumble, bumps his head, and starts

dreaming of things that reflect both the beauty he's seen and the scary things he's heard. Marije Tolman's ingenious illustrations use a fresh technique that feels like a movie and a dream, starring the cheerful, bright orange Little Fox on grainy mixed media landscapes of blue and green. And when Little Fox wakes up, he's perhaps a little wiser, but still every bit as curious and full of life. Praise for Little Fox ★ "A beautiful, fully realized dreamscape. A tender, brilliant tour de force from the Netherlands."—Kirkus Reviews, starred review

Free, Fair, and Alive - David Bollier
2019-09-03

The power of the commons as a free, fair system of provisioning and governance beyond capitalism, socialism, and other -isms. From co-housing and agroecology to fisheries and open-source everything, people around the world are increasingly turning to 'commoning' to emancipate themselves from a predatory market-state system. Free, Fair, and Alive presents a foundational re-thinking

of the commons – the self-organized social system that humans have used for millennia to meet their needs. It offers a compelling vision of a future beyond the dead-end binary of capitalism versus socialism that has almost brought the world to its knees. Written by two leading commons activists of our time, this guide is a penetrating cultural critique, table-pounding political treatise, and practical playbook. Highly readable and full of colorful stories, coverage includes: Internal dynamics of commoning How the commons worldview opens up new possibilities for change Role of language in reorienting our perceptions and political strategies Seeing the potential of commoning everywhere. Free, Fair, and Alive provides a fresh, non-academic synthesis of contemporary commons written for a popular, activist-minded audience. It presents a compelling narrative: that we can be free and creative people, govern ourselves through fair and accountable institutions, and experience the aliveness of authentic human presence.
