A Beginner's Guide to America - Roya Hakakian 2021-03-16

A stirring, witty, and poignant glimpse into the bewildering American immigrant experience from someone who has lived it. Hakakian's "love letter to the nation that took her in [is also] a timely reminder of what millions of human beings endure when they uproot their lives to become Americans by choice" (The Boston Globe). Into the maelstrom of unprecedented contemporary debates about immigrants in the United States, this perfectly timed book gives us a portrait of what the new immigrant experience in America is really like. Written as a "guide" for the newly arrived, and providing "practical information and advice," Roya Hakakian, an immigrant herself, reveals what those who settle here love about the country, what they miss about their homes, the cruelty of some Americans, and the unceasing generosity of others. She captures the texture of life in a new place in all its complexity, laying bare both its beauty and its darkness as she discusses race, sex, love, death, consumerism, and what it is like to be from a country that is in America's crosshairs. Her tenderly perceptive and surprisingly humorous account invites us to see ourselves as we appear to others, making it possible for us to rediscover our many American gifts through the perspective of the outsider. In shattering myths and embracing painful contradictions that are unique to this place, *A Beginner's Guide to America* is Hakakian's candid love letter to America.

Welcome Home - Najwa Zebian 2021-06-01

From the celebrated poet, speaker, and educator comes a powerful blueprint for healing by building a home within yourself. In her debut book of inspiration, poet Najwa Zebian shares her revolutionary concept of home - the place of safety where you can embrace your vulnerability and discover your self-worth. It's the place where your soul feels like it belongs, where you are loved for who you are. Building your home inside yourself - and never experiencing inner homelessness again - begins here. In *Welcome Home*, Zebian shares her story for the first time, powerfully weaving memoir, poetry and deeply resonant teachings into her storytelling, from leaving Lebanon at sixteen, to coming of age as a young Muslim woman in Canada, to building a new identity for

herself as she learned to speak her truth. After the profound alienations she experienced, she learned to build a stable foundation inside herself, an identity independent of cultural expectations and the influence of others. With practical tools and prompts for self-understanding, she shows you how to build each room in your house, which form a firm basis for your self-worth, sense of belonging and happiness. Welcome Home provides the life-changing tools for building that inner space of healing and solace.

Doing Meta-Analysis with R - Mathias Harrer 2021-09-15
Doing Meta-Analysis with R: A Hands-On Guide serves as an accessible introduction on how meta-analyses can be conducted in R. Essential steps for meta-analysis are covered, including calculation and pooling of outcome measures, forest plots, heterogeneity diagnostics, subgroup analyses, meta-regression, methods to control for publication bias, risk of bias assessments and plotting tools. Advanced but highly relevant topics such as network meta-analysis, multi-three-level meta-analyses, Bayesian meta-analysis approaches and SEM meta-analysis are also covered. A companion R package, dmetar, is introduced at the beginning of the guide. It contains data sets and several helper functions for the meta and metafor package used in the guide. The programming and statistical background covered in the book are kept at a non-expert level, making the book widely accessible. Features • Contains two introductory chapters on how to set up an R environment and do basic imports/manipulations of meta-analysis data, including exercises • Describes statistical concepts clearly and concisely before applying them in R • Includes step-by-step guidance through the coding required to perform meta-analyses, and a companion R package for the book
