**Family Life Student Booklet** - Christian Pälchen 2017-11-04

In the past seventy years, the divorce rate, even among Christians, has reached an extreme high and the desire to have children and build a family is very low. We, as Christians, have to do something! The first goal of the various products and courses that I offer is to encourage unmarried young adults and youth to think about preparing for partnership, marriage and parenting. The preparation for partnership and building a strong family foundation is becoming increasingly important in Western societies. Therefore, a second goal is to give those, who will work within the course material, a good foundation of scientific insights and Biblical wisdom. Finally, a more prevalent goal is to expose you to, not only, the intellectual aspects of choosing a partner, but more importantly, the rich foundations of God's great idea of living as a couple and building a strong, Godly family in this day and age. I hope and pray that, as time goes on, many others will take a foundational course similar to the one offered here. These Preparing for Partnership Manuals have been specially designed as a basis for discussing relational controversies within a safe context. This Family Life Manual discusses the important topic of choosing a partner and having a stable family foundation. Overall, this content is designed very broadly and informally so that you, no matter your positioning in life, can feel comfortable to discuss your own ideas with others and then compare them with the contents of the course. There is a Facilitator's Manual that can be purchased to enable church leaders, pastors and teachers to facilitate group sessions that follow the content of this manual. If you are interested, then please visit the website to find out more. Good luck and may God bless your work for His Kingdom, Yours in Christ Christian Pälchen Author

**School Travel** - Great Britain. Parliament. House of Commons. Transport Committee  
2009-03-22

In a report out today (HCP 352 session 08/09 ISBN 9780215529206), the House of Commons Transport Select Committee tells education and transport ministers they must do far more to produce a modal shift away from cars towards public transport, dedicated school transport including 'Yellow Buses', walking and safer cycling schemes for British school children. The Transport Committee Chairman Louise Ellman MP says: "Young people deserve safe and affordable travel to education, leisure and employment. The journeys people make when young will influence their preferences and habits in adulthood." Also "Both the Department for Children, Schools and Families and the Department for Transport urgently need to identify how they are going to ensure children and young adults are not denied opportunities because public transport is either inadequate or too costly. In particular, travel should not present a barrier to accessing the new Diploma courses. For similar reasons much more should be done to identify children eligible for free school transport." The Committee recognise in their report that no single model will suit all situations and that car travel to school can

be the most suitable method in some circumstances. However, they call on ministers to: provide high quality guidance and examples of best practice to illustrate when a dedicated school bus system is appropriate; top up the Education Maintenance Allowance for students from low income families and extend similar support for young people engaged in the new 14-19 diplomas; do more to encourage local authorities to identify pupils eligible for free school transport; consider the viability of a concessionary scheme offering reduced fares to young people; ensure that the Department for Transport, Department of Health and the Department for Children, Schools and Families work together so that national policy and practical implementation at the local level deliver both value for money and a greater number of joint initiatives that promote walking and cycling; help local authorities address the inherent tension between school choice and travel impact by raising awareness of sustainable school travel issues amongst parents and young people when they are selecting schools; in rural areas, review whether the maximum travel distance under which free transport may be provided allows for sufficient choice of schools; monitor the effectiveness of School Travel Plans. The Committee also calls on local authorities to consider new ways to fund and run innovative schemes that integrate transport, health and educational objectives for school travel.

forward. Examples of good practice are  
included throughout, alongside suggestions  
for teaching activities. This book also  
outlines the many ways in which children's  
writing can be evidenced and encourages  
you to reconsider the ways in which  
children's progress in writing can be  
tracked and captured. This is a practical  
guide to teaching writing across the  
curriculum.

[Bible Journal for Kids: Christmas](#) - Heather Copping 2019-09-24

Why do we celebrate Christmas? Why did Jesus come to earth as a baby? He tells us why in the Bible..and believe me--it's worth celebrating! Start this journal at the beginning of December, and you will be able to keep your focus on Jesus throughout this "busy season". With D.I.G. (Digging Into God) for Kids Christmas Bible Journal, you will follow a VERY SIMPLE Bible reading plan and discover for yourself what God tells us about why He sent His Son, Jesus, from Heaven to Earth. Sometimes life is so hurried (especially during the Christmas season!) and it feels like there is not enough time to make space for reading the Bible. Or maybe it seems too difficult to teach your children how to have a relationship with God. Using D.I.G. for Kids makes this simple and straightforward. For about 5 to 10 minutes a day, you will slow down the pace of life and focus on just a few Bible verses that remind us why we even celebrate Christmas. This journal is filled with pages that give you space to WRITE, DRAW, and PRAY--and help you teach your child how to develop the pattern of enjoying God's Word and hearing from Him daily. The simplicity of this journal will cause you to breathe easy rather than feel like you have something too time consuming to complete. For 4 weeks (5 days each week) you will focus on verses in

the Bible where Jesus tells us WHY He left Heaven and was born as a baby. D.I.G. for Kids includes a simple to follow reading list, along with uncluttered places for kids to WRITE, DRAW, and PRAY as they read through not only the "Christmas story", but learn how Jesus came to rescue us, fulfill the Law, and show us what God is like. The journal pages are formatted with fun and open spaces to encourage kids to interact with God's Word. And at the end of the journal, there is space for kids to write a "Happy Birthday Jesus!" letter. D.I.G. (Digging Into God) for KIDS is a creative Bible journal designed for kids ages 6 to 12 that will help bring simplicity to reading, enjoying, and understanding God's Word. This journal is the perfect Bible study tool to use individually, as a family devotional, or Sunday School curriculum. You have a Heavenly Father who adores you and wants to speak to you! He sent His Son, Jesus, as a baby to reveal to us who He is, who we are, and how we can be close to Him. D.I.G. for Kids is a simple tool to inspire the joyful habit of having your own special time with God.
