Pilgrimage - Jonathan Sumption 2011-07-07

In a fascinating work of history, Jonathan Sumption brings alive the traditions of pilgrimage prevalent in Europe from the beginning of Christianity to the end of the fifteenth century. Vividly describing such major destinations as Jerusalem, Rome, Santiago de Compostela and Canterbury, he examines both major figures - popes, kings, queens, scholars, villains - and the common people of their day. With great sympathy he evokes their achievements and failures, and addresses the question of what motivated such extraordinary quests.

**Lend the Eye a Terrible Aspect** - Loren Rhoads 1994

**The Genesis of Lachmann's Method** - Sebastiano Timpanaro 2005

Until the modern period, the reproduction of written texts required manual transcription from earlier versions. This cumbersome process inevitably created errors and made it increasingly difficult to identify the original readings among multiple copies. Lachmann's method—associated with German classicist Karl Lachmann (1793-1851)—aimed to provide scholars with a scientific, systematic procedure to standardize the transmission of ancient texts. Although these guidelines for analysis were frequently challenged, they retained a paradigmatic value in philology for many years. In 1963, Italian philologist Sebastiano Timpanaro became the first to analyze in depth the history and limits of Lachmann's widely established theory with his publication, *La genesi del metodo del Lachmann*. This important work, which brought Timpanaro international repute, now appears in its first English translation. *The Genesis of Lachmann's Method* examines the origin, development, and validity of Lachmann's model as well as its association with Lachmann himself. It remains a fundamental work on the history and methods of philology, and Glenn W. Most's translation makes this seminal study available to an English-speaking audience. Revealing Timpanaro's extraordinary talent as a textual critic and world-class scholar, this book will be indispensable to classicists, textual critics, biblical scholars, historians of science, and literary theorists.

Jewish and Christian Ethics - Elia Benamozegh 1873

**Philostratus and Eunapius** - Philostratus (the Athenian) 1922

**German Jews beyond Judaism** - George L Mosse 1997-05-01

Jews were emancipated at a time when high culture was becoming an integral part of German citizenship. German Jews felt a powerful urge to integrate, to find their Jewish substance in German culture and craft an identity as both Germans and Jews. In this reprint edition, based on the 1983 Efrogmson Memorial Lectures given at Hebrew Union College-Jewish Institute of Religion in Cincinnati, George Mosse argues that they did this by adopting the concept of *Bildung*—the idea of intellectual and moral self-cultivation—and combining it with key Enlightenment ideas such as optimism about human potential, individualism and autonomy, and a connection between knowledge and morality through aesthetics. Personal friendships could be devoted to common pursuit of *Bildung* and become a means of overcoming differences, becoming a means for integration into German society. Mosse traces how Jewish artists, writers, and thinkers actively sought to participate in German culture and communicate these ideals through popular culture, scholarship, and political activity. From the historical biographies, novels, and short stories of Stefan Zweig and Emil Ludwig; to the psychoanalysis of Freud, which sought to subject irrationality to reason; to the

revolutionary thought of Walter Benjamin-Jews sought to influence a mass political culture that was fast drifting into irrationality. As individualism was subsumed into nationalism, and eventually the German political right's racist version of nationalism, German-Jewish dialogue became more difficult. Jews remained idealistic as German society became less rational, their ideas corresponded less and less to the realities of German life, and they drifted out of the mainstream into an intellectual isolation. Yet out of this German-Jewish dialogue, what had once been part of German culture became a central Jewish heritage. The ideal of cultivating a personal identity beyond religion and nationality, the liberal outlook on society and politics, and the desire to transcend history by stressing what united rather than divided individuals and nations infiltrated Jewish life became an inspiration for many men and women searching to humanize their society and their own lives. Mosse's lectures trace the emergence of a form of Jewishness which resisted cultural ghettoization in favor of the pursuit of that which is universally human.

**The Psychology of Adolescence** - Aaron H. Esman 1975

**Shakespeare and the Mannerist Tradition** - Jean-Pierre Maquerlot 1995

This 1996 book offers an original approach to Shakespeare's so-called 'problem plays' by contending that they can be viewed as experiments in the Mannerist style. The plays reappraised here are Julius Caesar, Hamlet, Troilus and Cressida, All's Well That Ends Well and Measure for Measure. How can a term used to define a movement in art history be made relevant to theatrical analysis? Maquerlot shows how famous painters of sixteenth-century Italy cultivated structural ambiguity or dissonance in reaction to the classical canons of the High Renaissance. Close readings of Shakespeare's plays, from the period 1599 to 1604, reveal intriguing analogies with Mannerist art and the dramatist's response to Elizabethan formalism. Maquerlot concludes by examining Othello, which marks the end of Shakespeare's Mannerist experiments, and the less equivocal use of artifice in his late romances.

**The Benefits of Learning** - Tom Schuller 2004-02-26

How do education and learning really impact on people's lives? The Benefits of Learning is a detailed, systematic and vivid account of the impact of formal and informal education on people's lives. Based on extended interviews with adults of all ages, it shows how learning affects their health, family lives and participation in civic life, revealing the downsides of education as well as the benefits. At a time when education is in danger of being narrowly regarded as an instrument of economic growth, this study covers: \* the interaction between learning and people's physical and psychological well-being \* the way learning impacts on family life and communication between generations \* the effect on people's ability and motivation to take part in civic and community life. Packed with detail from adults' own accounts of their lives, the book reveals how learning enables people to sustain themselves and their communities in the face of daily stresses and strains, as well as sometimes transforming their lives. The book opens up new avenues for debate. It is a valuable resource for education researchers and of particular interest to education policy makers, adult education practitioners, health educators and postgraduate students in education.

**The Reception of James Joyce in Europe** - Geert Lernout 2004-08-17

James Joyce is now widely considered the most influential writer of the twentieth century. His name and his most important works appeared again and again in fin-de-millennium surveys. This is the case not only in the English-speaking world, but also in many European literatures. Joyce's influence is most pronounced in French, German and Italian literatures, where translations of most of his works appeared during his life-time and where he had a clear impact on his fellow-writers. In other countries and cultures, his influence took more time to register, sometimes after the war in the fifties and sixties, and sometimes only in the final decade of the century. This was the case in most of the languages of Eastern Europe, where the translation of Joyce's work could only begin after the collapse of the Soviet Union in the 1990s. This book contains two volumes. Series Editor: Dr Elinor Shaffer FBA, Institute of Germanic & Romance Studies, School of Advanced Study, University of London Contributors to the volume include: Sonja Basic (University of

Zagreb) Eric Bulson, (Columbia University) Astradur Eysteinnsson (University of Reykjavik) Kalina Filipova (University of Sofia) Marta Goldmann (University of Budapest) Jakob Greve (University of Copenhagen) Manana Khergiani (New York) Teresa Iribarren (University of Barcelona) Onno R. **The Javelin Thrower** - Paolo Volponi 2018

As a boy growing up in rural Italy in the 1930s, Damìn is experiencing the first stirrings of adolescence when he accidentally sees his mother having sex with the local Fascist commandant. His pain, anger, and confusion are uncomfortably intertwined with a compulsion to watch them, which becomes an obsession. Isolating himself from anyone who might help him understand what he's feeling, he channels his fury into his javelin, getting better and better until he is a local champion. But his success is fleeting, as wholly confused and caught up in his own anger, he ends up betraying and humiliating his friends. The Javelin Thrower is the story of an erotic education turned tragic, poisoned by the darkness running through Mussolini's Italy.

**The Tudor Shakespeare** - William Shakespeare

*Histories* - William Shakespeare 2008

Upon publication in 1997, The Norton Shakespeare set a new standard for teaching editions of Shakespeare's complete works.

**Power on Display** - Leonard Tennenhouse 2010-12-06

First published in 1986. 'Impressively open to the complexity of cultural discourses, to the ways in which one discursive form may function as a screen for another above all to the political entailment of genre.' Stephen Greenblatt. What is the relation between literary and political power? How do the symbolic dimensions of social practice and the social dimensions of artistic practice relate to one another? Power on Display considers Shakespeare's progression from romantic comedies and history plays to tragedy and romance in the light of the general process of cultural change in the period.

**The Pragmatics of Literature** - Marcello Pagnini 1987

**Brief Counselling: Narratives and Solutions** - Judith Milner 2017-05-01

This innovative and highly practical text provides an introduction to solution and narrative approaches to brief counselling and demonstrates how they may successfully be combined to create solution talk with clients. Solution talk is a highly flexible and effective way of empowering people to use their own potential for positive change, for coping with what they cannot change, and for re-creating their lives and even their identities. Judith Milner and Patrick O'Byrne compare and contrast solution talk with other more traditional or problem-oriented approaches to illustrate how a collaborative, co-constructive and empowering way of working may help clients to meet their goals quickly, painlessly and with long-lasting effects. They outline the philosophy, practice principles and specific techniques of solution talk and discuss what to do if no immediate progress is apparent. Through detailed case examples, they illustrate how the approach may be used in client work with a wide range of issues connected to family life, school and work, health, personal safety and leisure. Brief Counselling: Narratives and Solutions will be an essential text for all trainees and practitioners in counselling, psychotherapy and other health-related professions interested in brief therapeutic approaches and working creatively with clients.

**Becoming Mikhail Lermontov** - David Powelstock 2011-08-31

Mikhail Lermontov (1814-1841) is one of Russia's most prominent poets--and one of its most puzzling. In

this radically new interpretation, David Powelstock reveals how the seeming contradictions in Lermontov's life and works can be understood as manifestations of a coherent worldview. By bringing to light Lermontov's operative version of Romantic individualism, Powelstock is able to make sense of the poet's relationship to "romantic irony," his highly modern concept of the reader (both real, and implied in the text), and his vexed passion for his predecessor Alexander Pushkin--a relationship that is almost always treated sentimentally, but is here given its true competitive edge. Furthermore, Powelstock offers the most persuasive account ever given of Lermontov's exceptionally odd treatment of, and success with, women--both in real life and in fiction--and of his cruel overlapping of these two planes. Clarifying what has remained perplexing for so long, and correcting what has been misinterpreted, Powelstock's work illuminates Lermontov's views of dignity, death, love, nature, society, and ethics--and, finally, gives us an intellectual biography that is deeper and more subtle than any written before.

The World of Aldus Manutius - Martin Lowry 1979

*The Acquisition of Language* - David McNeill 1970

**The Freudian Slip** - Sebastiano Timpanaro 2011-01-10

Philology cross-examines Freud in this sustained critique of psychoanalysis and its foundational notion of the slip. Challenging virtually every account of linguistic error in Freud's work as arbitrary and constrained, Sebastiano Timpanaro advances an alternative picture keyed to the dynamics of "banalization," "disimprovement," and contextual play borrowed from the field of literary criticism. Underscored with a Marxist defense of science against the professed materialism of the psychoanalytic "individual drama," Timpanaro's analysis demands a strong reassessment of the Freudian legacy and a renewed debate over its value for the Left.

Here, in the first English edition of Benedetta Craveri's recent scholarly study, *Civiltà della conversazione*, he describes the world of women and French salons in the 17th and 18th centuries.

The Language Revolution - David Crystal 2013-05-08

We are living through the consequences of a linguistic revolution. Dramatic linguistic change has left us at the beginning of a new era in the evolution of human language, with repercussions for many individual languages. In this book, David Crystal, one of the world's authorities on language, brings together for the first time the three major trends which he argues have fundamentally altered the world's linguistic ecology: first, the emergence of English as the world's first truly global language; second, the crisis facing huge numbers of languages which are currently endangered or dying; and, third, the radical effect on language

of the arrival of Internet technology. Examining the interrelationships between these topics, Crystal encounters a vision of a linguistic future which is radically different from what has existed in the past, and which will make us revise many cherished concepts relating to the way we think about and work with languages. Everyone is affected by this linguistic revolution. The Language Revolution will be essential reading for anyone interested in language and communication in the twenty-first century.

**Story of a Year** - Benito Mussolini 2019-05-21

First published as a series in the *Corriere della Sera* newspaper from June to July 1944, this is Mussolini's autobiographical account, written in the third person, of the dramatic events--as he experienced them--from the time of the Battle of El Alamein until his rescue and reinstatement as leader of German-occupied Italy.

*Obsolete Objects in the Literary Imagination* - Francesco Orlando 2008-10-01

Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.
