Christian Warlich - Ole Wittmann 2019-10-29

The original work of Christian Warlich, Europe's preeminent tattoo artist in the first half of the 20th century, is brought back to life in a stunning new volume. Christian Warlich was a world famous German tattooist and his flash book is one of the most coveted objects in the tattoo world. It is now available in this exquisite edition that includes over three hundred hand-drawn designs restored to their original vibrant state. It also includes photographs and other archival material, much of which has never been published before. This book brings Warlich's career into new focus, reflecting the latest research on how his early years at sea may have influenced his work. Intricate renderings of cowboys and indigenous Americans, Chinese dragons and Japanese geishas, daggers, snakes, and skulls reveal not only Warlich's influence in the iconography of tattoos, but also suggest the interplay of ideas with tattooists across Europe, North America, and Asia. The book also explores how the art of tattooing was reframed during the Nazi era and how Warlich's estate helped shape the state of tattoo art today. This elegant book is invaluable in understanding the importance of Warlich to the history of tattooing.

Sailor Jerry Collins, American Tattoo Master - Sailor Jerry Collins 1994

Vintage Tattoo Flash - Jonathan Shaw 2016-04-12

Vintage Tattoo Flash is a one-of-a-kind visual exploration of the history and evolution of tattooing in America. A luscious, offset-printed, hardcover tome—a beautiful and serious addition to the understanding of one of the world's oldest and most popular art forms. Electric tattooing as we know it today was invented in New York City at the turn of the 19th century. In the first days of American tattooing, tattoos were primarily worn by sailors and soldiers, outlaws and outsiders. The visual language of what came to be known as "traditional tattooing" was developed in those early days on the Bowery and catered to the interests of the clientele. Common imagery that soon became canon included sailing ships, women, hearts, roses, daggers, eagles, dragons, wolves, panthers, skulls, crosses, and popular cartoon characters of the era. The first tattooists also figured out that using bold outlines, complimented by solid color and smooth shading, was the proper technique for creating art on a body that would stand the test of time. In the over 100 years since then, techniques and styles have evolved, and the customer base has expanded, but the core subject matter and philosophy developed at the dawn of electric tattooing has persisted as perennial favorites through the modern era. While most tattoos are inherently ephemeral, transported on skin until the death of the collector, a visual record exists in the form of tattoo flash: the hand-painted sheets of designs posted in tattoo shops for customers to select from. Painted and repainted, stolen, traded, bought and sold, these sheets are passed between artists through one channel or another, often having multiple useful lives in a variety of shops scattered across time and geography. The utility of these original pieces of painted art has made it so that original examples can still be found in use or up for grabs if you know where to look. Vintage Tattoo Flash draws from the personal collection of Jonathan Shaw—renowned outlaw tattooist and author—and

represents a selection of over 300 pieces of flash from one of the largest private collections in existence. Vintage Tattoo Flash spans the first roughly 75 years of American tattooing from the 1900s Bowery, to 50s Texas, through the Pike in the 60s and the development of the first black and grey, single-needle tattooing in LA in the 70s. The book lovingly reproduces entirely unpublished sheets of original flash from the likes of Bob Shaw, Zeke Owen, Tex Rowe, Ted Inman, Ace Harlyn, Ed Smith, Paul Rogers, the Moskowitz brothers, and many, many others relatively known and unknown.

Brooklyn Joe Lieber - Don Ed Hardy 2018-08-15

Brooklyn Joe Lieber (1888-1953) was a mentor for Sailor Jerry Collins. Though born in Brooklyn, Lieber moved to the S.F. Bay area and spent most of his career there. Sharing a powerful near-identical drawing and painting style, he and Collins originated and traded hundreds of designs. This book features Lieber's brilliant and influential flash and drawings, equal in scope to those of Sailor Jerry.

The Originals. Tattoo Designs by David Gibson, Bill Loika, Daniel Sawyer - M. Vialetto 2013

Clean Solid Tattoo Flash - Robert Aalbers 2012

Flash from the Bowery - Cliff White 2011

Between these pages are images of the original acetate rubbings from Charlie Wagner's turn of the 20th century tattoo shop, The Black Eye Barbershop, in the Bowery at Chatham Square in New York. This is the only known art that has survived from this shop, where Samuel J. O'Reilley's modern-day electric tattoo machine was born and patented. The imagery of this classic flash preserves the origins of American tattoos, when tattoo art was transferred to the client from these templates via an acetate stencil. Everything was done by hand until O'Reilley's electrified tattoo machine changed history. This rich heritage of folk art has more than 900 individual pieces of flash that provide commentary on the shop's clientele and reveal some of the social, economic, and political ideas of the time. Including nautical themes, Asian imagery, flowers, boxers, circus characters, and plenty of girls, this is an exciting collection of early American flash and a necessary book for the tattoo artist, aficionado, and student.

Russian Criminal Tattoo - Arkady Bronnikov 2016-02-29

This book features over 180 photographs and accompanying texts of Russian criminal tattoos from the Arkady Bronnikov collection. From the mid-1960s to the late- 1980s Bronnikov worked as a senior expert in criminalistics at the USSR Ministry of Internal Affairs, part of his duties involved visiting correctional institutions of the Ural and Siberia regions. It was here that he interviewed, gathered information and took photographs of convicts and their tattoos, building one of the most comprehensive archives of this phenomenon. He regularly helped to solve criminal cases across Russia by using his collection of tattoos to identify culprits and corpses. The Bronnikov collection was made exclusively for police use, to further the understanding of the language of these tattoos and to act as an aid in the identification and apprehension of criminals in the field. Unimpeded by artistry, these vernacular photographs present a guileless representation of criminal society. Every image discloses evidence of an inmate's character: aggressive, vulnerable, melancholic, conceited. Their bodies display an unofficial history, told not just through tattoos, but also in scars and missing digits. Closer inspection only confirms our inability to comprehend the unimaginable lives of this previously unacknowledged caste.

Classic Flash 3 - Jeromey McCulloch 2016

Japanese folklore and modern American tattooing come together in this book of more than 100 sheets of tattoo flash designed to be drawn on the body in a single session. Exploring the rich history of Japanese ink drawings and making readily tattooable images were the priorities of this third book in the Classic Flash series. The artists applied themes and characters from Japanese mythology, such as yōkai, to their traditional American aesthetic. Divided into three sections, one each for designs by the artists individually, and one with flash created collaboratively, the book features designs that have gradually more complicated backgrounds, or filler. Tattoo collectors and enthusiasts with an appreciation for manga, who may be intimidated by extremely complex Japanese tattoo designs, will revel in this colorful, whimsical collection of flash.

Classic Flash in Five Bold Colors - Jeromey McCulloch 2009

Traditional American tattooing has a rich, extensive heritage. Often underappreciated, it represents a true folk art, encompassing design motifs and themes that are expressions of the heart, the desires, loves, and ambitions of the artists and those who wear their artworks. After carefully studying work by renowned American tattoo artists (including Paul Rogers, Leonard "Stoney" St.Clair, George Burchett, August "Cap" Coleman, Percy Waters, Owen James and others) the author distilled it into five component colors: black, red, yellow, green, and brown, and developed a new interpretation of their classic styles. Besides classic

designs by the author, the images here include collaborative work with other tattoo designers. Over 640 individual flash designs are reproduced in color as a celebration of the tradition and the hope that it will continue as folk art.
