Beyond the Vault of Souls - Colin McComb 2009-08

A wizard is capturing souls and binding them to magical gems to keep the spirits of the dead from departing to their just rewards, and the church of Pharamasma, goddess of death, has had enough of his meddling with the afterlife. When a magical security feature in the wizard's tower sends the gems spinning off to several different planes, the church calls on the PCs to track them down. From the vault of the gods in the planar nexus of Axis, to the fields of Elysium where righteous heroes battle endlessly even in death, and on past to the gates of Hell itself, the PCs must race through portal after portal to recover the lost souls before sinister outsiders can beat them to the prize. This Journey series planar adventure is designed for 9th-level characters and is compatible with the 3.5 fantasy roleplaying rules. Author Colin McComb (Planescape) leads a fascinating tour through the undiscovered outer planes of the Pathfinder world.

Soil Remediation - 2009

Soil remediation deals with the removal of pollution or contaminants from environmental media such as soil and groundwater. This book presents new research the contamination of building materials with chemicals, which occurs as a result of storage, spills, and also catastrophic floods and hurricanes. Included in this book is an analysis and comparison of three protocols for the removal of chemicals trapped within building materials. The substantial economic consequences of heavy metal contamination in ecosystems, which poses major environmental problems world-wide, are presented as well. This book discusses the use of plants to remove or immobilise contaminants as a potentially safe and low cost method for the remediation of metal contaminated soil. Membrane techniques applied in water treatment from soil remediation are also reviewed and discussed with the aim to remove and/or recover metals and recycle water.
