So get your friends or family who play guitar, mandolin, banjo, ukulele, dulcimer or Dobro together, grab these books and start jamming. Improvisation - Another idea behind writing the First Jam series was to provide a number of tunes that were easy to learn, but that are also a great to begin working on improvising. Each books offer the melody for that particular instrument as well as back-up chords for another instrument to accompany you. Each song is represented in Tab, notation and chord symbols. the accompanying CD has two tracks for each song. the first playing the song with the melody line, the second

track offers just the backup so you can play the melody over it or even improvise. Tunes include: Cripple Creek, Old Joe Clark, Will the Circle Be Unbroken and many more.

The illustrations and lyrics are to be interpreted through the eyes of Kasey, a fictional child that loves music and plays the guitar. Children will learn to play along with music recordings using simple notation, audio and video recordings. The high energy and hip play-along tracks will inspire young learners to play their guitars. The music breaks out of the "little kid music" stereotype by introducing several different styles of engaging music including: funk, rock, reggae, hawaiian, jazz and country. The recordings were professionally recorded by the author, Kelly Weeks, in a Minneapolis recording studio. The audio and video play-along tracks are available online for instant streaming.

<http://kellysmusicbooks.com/media> Each song has "Dr. Seuss" style lyrics that a parent/teacher or child can read before they learn to play the song. Music notation is displayed at the bottom of each page and it shows the notes that the child should play on their guitar. Every song includes three ways that the song can be learned and played (tablature, standard notation, and chord diagrams). Kasey's Guitar Jams For Kids isn't intended to be a comprehensive method for learning the guitar. It is simply a fun way for children to learn to play along with music recordings and develop basic

**Why You Suck at Guitar** - Tommy Gordon  
2015-11-18

Here's a book intended to challenge you.  
Here's a book meant to inspire you. This  
book is a wake-up call to the global  
problems and roadblocks for you as a  
guitarist. This book is meant to be a reality  
check. Even if guitar playing is a hobby for  
you, your level of enjoyment and  
satisfaction will increase exponentially if you  
get better, start to like your playing and  
sound, and then continue to move forward.  
But if you aspire to be a part-time gigging

and recording musician or full-time musician/guitarist, this book is filled with the ten reasons that are seriously holding you back. (It might even give you enough clues to help you teach guitar lessons for years to come!) I want you to attack any or all of these problems that apply to you, and get your momentum back as a guitarist. I've always believed that the expression "momentum builds motivation" is the key to developing as a musician. Once you're truly excited about your playing, your creativity, and your growth, amazing things can happen with your music. If you're here reading a book called "Why You Suck at Guitar" then it means that you're finally ready to deal with those issues that plague aspiring musicians everywhere. It means that you're brave. Brave enough to face the facts. I wrote this to help you, and not to make you feel bad — or worse — about your music. This is your wake-up call — a musician-to-musician intervention — with the goal of helping you get back on the right path. Music should be fun, and it's always fun to get better. I wrote this to help all guitarists because I know that if we don't like our sound, our abilities, or our playing, then music isn't fun at all. It's an annoying feeling. By the way, if you're just looking for a book of guitar exercises, that's not what you'll find here. If you wanted to buy another book of riffs that some random musician-author thinks every guitarist in the world should know, that's fine -- but maybe you don't understand what being a real musician means. What you need is clear. You need a personal sound — and that takes a very personal, grounded approach. That means that you need to deal with some big, global issues in your music-making and not worry about which new lick or riff will suddenly transform your playing. On the other hand, if you've already totally decided what you — as a guitarist — need to do to get better, but you're kind of pissy and

stubborn about it, then may I suggest that you just go and do that thing. Don't read this book to see if I can or will change your mind. Do what you want! Follow your musician instincts. If you pretty much know what you want as a musician, and you already have a sense about what you need to work on, seriously, just practice that! But if you do need some more input, some more ideas, some feedback, and a dose of outside inspiration, then you are my ideal reader because: 1) You want to get better now and 2) You admit that you don't have all the answers 3) You have enough of an open mind to check out what I'm going to say and work on removing those roadblocks that apply to you.

**First Jams: Ukulele** - LEE DREW ANDREWS  
2011-01-04

The First Jam series was created to give children and beginners of all ages a book of simple, common tunes to learn. These are standard Jam tunes in the Bluegrass/Old Time music styles. All the books in this series are written in the same keys; they can all be played together without any problems. So get your friends or family who play guitar, mandolin, banjo, ukulele, dulcimer or Dobro together, grab these books and start jamming. Improvisation – Another idea behind writing the First Jam series was to provide a number of tunes that were easy to learn, but that are also a great to begin working on improvising. Each book in the series offers the melody for that particular instrument as well as back-up chords for another instrument to accompany you. Each song is represented in Tab, notation and chord symbols. the accompanying CD has two tracks for each song. the first playing the song with the melody line, the second track offers just the backup so you can play the melody over it or even improvise. Tunes include: Cripple Creek, Old Joe Clark, Will the Circle Be Unbroken and many more.
