Architectural Styles of Ancient Alexandria - Barbara Tkaczow 2010

and in some categories far from sufficient, originating from Alexandria and its nearest vicinity, as well as from other urban and religious centers of Graeco-Roman Egypt. This material has been compared to finds from outside Egypt, which preserve actual building remains of which Alexandria still has too little. Adelard of Bath, Conversations with His Nephew - Adelard (of Bath) 1998-12-10

Adelard of Bath was one of the most colourful personalities of the Middle Ages. He travelled to the Crusader kingdoms, to Sicily and south Italy, and translated texts on astronomy, astrology and magic from Arabic into Latin. He acquired a lasting reputation as a pioneering mathematician, and he was a gifted teacher. He addressed one of these works, on cosmology and the astrolabe, to the future King Henry II, and it is in the context of the education of the nobility that the three works edited in this book are to be viewed. Adelard meant them to be both entertaining and instructive. They deal with all kinds of topics, from the nature of the soul to the cause of earthquakes, from the effects of music to how to train a hawk. A preface provides the results of research on Adelard's life and

work.

Dao De Jing - Laozi 2019-05-07

The Dao De Jing exists on the border between poetry and philosophy, embracing both mythos and logos. Its poetic form can stand alone, but it is enriched when its timeless ideas are analyzed and explained through careful scholarship. For example: He who knows others is knowledgeable. He who knows himself is wise. These words resemble Socrates' account of his own quest in Plato's Apology. Ancient philosophy, both in China and in Greece, places self-knowledge at the center of the search for wisdom. Contemporary philosophers are often misled about this way of thinking, because the self has been detached from external things and separated from nature and society. The wisdom of China and of Europe unites human existence and nature. © Agora Publications ©2015 Agora, New Internet Technologies (P)2015 Agora, New Internet Technologies

The Speculum Astronomiae and Its Enigma - P. Zambelli 2013-12-21

The attribution of the Speculum Astronomiae to Albertus Magnus became a controversial issue only recently, when the great neo-Thomist historian Pierre Mandonnet suggested -- without any antecedents -- that the author

was Roger Bacon rather than Albert. Mandonnet's theses were refuted by Lynn Thorndike and have since then been the subject of widespread discussion. The present historiographical case-study considers this debate in the light of an analysis of texts by Albert himself, as well as other important authors, such as Bacon, Bonaventura, Thomas Aquinas, Witelo, Campanus of Novara, and others, which shows how widespread the general concept of the influence of the stars and other astrological ideas to be found in the Speculum were. Most of the scientific ideas of the Middle Ages were based on principles derived from the notion of celestial influence and its consequences. The Speculum drew the fundamental outlines of this discipline into a theoretical and bibliographical introduction -- no small achievement -- and was consequently greeted with great interest and used as a standard reference book for many centuries. Set against the background of discussions taking place in the 1260s, within the Dominican Order as well as in the Faculties of Arts, Zambelli removes all doubt that the Speculum was written by Albert, possibly with some collaboration.

The Divine Trinity - Rev. Joseph Pohle Ph. D. D.

Whether the infinite personality of God must be conceived as simple or multiplex, is a matter which human reason cannot determine unaided. On the strength of the inductive axiom, "Quot sunt naturae, tot sunt personae," we should rather be tempted to attribute but one personality to the one Divine Nature. Positive Revelation tells us, however, that there are in God three really distinct persons: Father, Son, and Holy Ghost. This fundamental dogma, which essentially differentiates the Christian conception of God from that of the Pagans, the Jews, and the Mohammedans, is designated in the technical Latin of the Church as "Trinitas," a term first used, so far as we know, by Theophilus of Antioch and Tertullian, and which later became current in ecclesiastical usage and was embodied in the Creeds. In the private symbolum of St. Gregory Thaumaturgus mention is made of a "perfect Triad" (????? ?????). Didymus the Blind, Cyril of Alexandria, Hilary, Ambrose, and Augustine have written separate treatises "On the Trinity." Aeterna Press
De Essentiis - Hermann (of Carinthia.) 1982

Beyond Anger - Susan H. Braund 1988-11-24

Beyond Anger is a detailed literary analysis of the three poems which make up Juvenal's third book of Satires (i.e. Satires 7, 8 and 9). Dr Braund pays particular attention to the satiric techniques Juvenal employs in this book, arguing that in Book III Juvenal uses a new, ironic persona, which makes his satire more indirect, subtle and double-edged than does the angry approach found in the earlier books.
