

Multiple Choice Questions In Intensive Care Medicine

If you ally need such a referred **Multiple Choice Questions In Intensive Care Medicine** books that will pay for you worth, acquire the enormously best seller from us currently from several preferred authors. If you want to humorous books, lots of novels, tale, jokes, and more fictions collections are with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all books collections Multiple Choice Questions In Intensive Care Medicine that we will certainly offer. It is not on the order of the costs. Its nearly what you obsession currently. This Multiple Choice Questions In Intensive Care Medicine, as one of the most functional sellers here will unconditionally be in the midst of the best options to review.

Examination Intensive Care Medicine - Carole Foot 2011

A high-quality, exam-focused resource to facilitate passage through ICU Fellowship examinations. This is the first publication to specifically meet the goals of an examination guide for ICM trainees.

Key Questions in Surgical Critical Care - Robert U. Ashford 2002-01-12

A companion to Surgical Critical Care split into two main sections, multiple choice questions and viva topics.

Critical Care MCQs - Steve Lobaz 2015-02-01

Critical Care MCQs is the perfect companion for anyone sitting exams in intensive care, as a training resource or just wanting to improve their knowledge in this constantly developing area of medical practice. Written by critical care doctors with experience of UK and European examination formats, this book leads the reader through 450 true/false questions with referenced explanations, covering core syllabus topics and key influential papers to date. A detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding. It is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers. This book would be useful for not only candidates sitting the UK Final Fellowship of Intensive Care Medicine (FFICM) and European Diploma of Intensive Care (EDIC) exams, but also the Indian Diploma

in Critical Care Medicine (IDCCM), the Diploma of the Irish Board of Intensive Care Medicine (DIBICM), the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM), American Board and any other country-related intensive care exams.

Core Topics in Cardiothoracic Critical Care - Kamen Valchanov 2018-07-05

A fully updated new edition designed specifically for those working within the high-pressure environment of cardiothoracic intensive care.

Intensive Care Medicine MCQs - Shoneen Abbas 2015-04-01

Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and

detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

MCQs for the FRCR, Part 1 - Monica Khanna 2004-07

For candidates sitting the FRCR Part 1 examination to acquaint themselves with the new IRMER regulations.

Viva and Structured Oral Examinations in Intensive Care Medicine - Jeyasankar Jeyanathan 2018-04-01

The objective structured clinical examination (OSCE) has become widely employed in intensive care medicine (ICM) exams such as the UK Final Fellowship of Intensive Care Medicine (FFICM), the European Diploma of Intensive Care (EDIC) exam, or the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM). This book is not only an essential tool for the rehearsal of OSCEs in preparation for these exams, but also for American and Indian exams, and any other exams within the field of intensive care medicine. The OSCE is a style of examination that requires the candidate to present specific information in a short space of time matched to a prescriptive mark scheme. This book allows candidates preparing for an ICM OSCE to format their knowledge for this type of examination whilst practising and rehearsing against time. The 60 OSCE stations provide a broad array of topics from past exams ranging across the

training ICM curriculums. The mark schemes are presented in a short, punctuated form allowing the candidate access to important points, ideal at the sharp end of an exam campaign. The 5 sets of OSCE exams are designed to run as a set of 12. Each set will have an array of clinical scenarios requiring swift assessment, diagnosis, recommendations for investigations and management, whilst also exploring aspects of pathophysiology. There are a number of data-interpretation tools that are incorporated into clinical scenarios as well as standalone stations for electrocardiogram and radiology analysis. This book is an important preparatory tool crucial to the armamentarium of any candidate preparing for an ICM exam.

Core Topics in Critical Care Medicine - Fang Gao Smith 2010-04-22

The critical care unit manages patients with a vast range of disease and injuries affecting every organ system. The unit can initially be a daunting environment, with complex monitoring equipment producing large volumes of clinical data. Core Topics in Critical Care Medicine is a practical, comprehensive, introductory-level text for any clinician in their first few months in the critical care unit. It guides clinicians in both the initial assessment and the clinical management of all CCU patients, demystifying the critical care unit and providing key knowledge in a concise and accessible manner. The full spectrum of disorders likely to be encountered in critical care are discussed, with additional chapters on transfer and admission, imaging in the CCU, structure and organisation of the unit, and ethical and legal issues. Written by Critical Care experts, Core Topics in Critical Care Medicine provides comprehensive, concise and easily accessible information for all trainees.

Multiple True False Questions for the Final FFICM - Emma Bellchambers 2014-12-18

A tailor-made book of practice MCQs for the new FFICM exam, containing 270 MTF questions with full explanations and references.

MCQs and SBAs in Intensive Care Medicine - Consultant in Critical Care and Anaesthesia and Senior Honorary Lecturer Lorna Eyre 2021-11-11

Prepare with confidence for the FFICM and EDIC with this dedicated guide featuring 300 original multiple choice (MCQ) and single best

answer questions (SBAs) covering the whole FICM curricula. Organized into ten practice papers so readers can practice the style and format of the real exam, questions cover a broad range of intensive care topics for postgraduate exams. Each answer includes a full explanation, up-to-date evidence-based guidelines and sources for further reading to ensure high-quality self-assessment. Written by a team of consultants, these original and high-quality questions have been developed over years of clinical experience. This invaluable resource provides intensive care medicine trainees with an ideal companion for the FFICM and EDIC and other postgraduate critical care exams.

Oxford Desk Reference: Critical Care - Carl Waldmann 2008-11-27

The Oxford Desk Reference: Critical Care allows easy access to evidence-based materials on commonly encountered critical care problems for quick consultation to ensure the optimum management of a particular condition. A concise reference book, it collates key recommendations and presents them in an easily accessible and uniform way.

Essential Neonatal Medicine - Sunil Sinha 2017-07-03

Providing a comprehensive yet concise guide for trainee doctors, neonatal nurses and midwives, Essential Neonatal Medicine continues to be an indispensable resource that combines the depth and breadth of a textbook with the efficiency of a revision guide. Extensively updated and full-colour throughout, this edition includes new chapters on neonatal transport and palliative care, as well as further content on pathophysiology and embryology, quality improvement and risk management, infection control, and non-invasive ventilation. With an improved artwork programme and a new glossary of terms, Essential Neonatal Medicine is ideal for all trainee health professionals new to neonatology, or looking for a comprehensive aid to support them.

MCQs for the Primary FRCA - B S K Kamath 2010-07-22

Reflecting the revised Primary FRCA exam, this book is structured according to the three specific areas covered in the curriculum: physics and clinical measurement, physiology, and pharmacology. Each section includes a brief

introduction, a selection of MCQs, and answers including a brief explanation.

Best of Five MCQs for the Acute Medicine SCE - Nigel Lane 2016-01-28

Best of Five MCQs for the Acute Medicine SCE is a new revision resource designed specifically for this high-stakes exam. It contains over 350 Best of Five questions with explanatory answers, each accurately reflecting the layout of questions in the exam.

Certification and Core Review for Neonatal Intensive Care Nursing - E-Book - AACN 2016-11-01

Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN's CCRN®-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. Online exam simulation — included free with each new copy of the book — mirrors the test-taking experience with an interactive, timed format. Customized study lets you choose whether to

work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere. 225 NEW review questions include 75 in the book and 150 additional online questions on the Evolve companion website. Thoroughly UPDATED review content reflects AACN's latest CCRN®-Neonatal exam and the NCC's latest Neonatal Intensive Care Nursing (RNC-NIC) exam, information in Core Curriculum for Neonatal Intensive Care Nursing, 5th Edition, and the newest evidence-based guidelines for neonatal critical care. NEW! Three new chapters include Grieving Process, Quality Improvement, and Facilitation of Learning. NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

Clinical teaching and practice in intensive care medicine and anesthesiology - Longxiang Su
2023-09-19

MCQs in Critical Care - Yatin Mehta
2018-03-03

Revision Notes in Intensive Care Medicine - Stuart Gillon 2016-06-23

Revision Notes in Intensive Care Medicine is a key resource for candidates preparing for postgraduate intensive care examinations. Mapped to the FFICM, EDIC and FCICM syllabuses, this title ensures candidates have all the information needed to prepare for their examinations. Information is presented in concise note form and bullet points with visually memorable tools, such as tables and diagrams, making revising and retaining key facts easier. Chapters are arranged into physiological systems, such as 'Respiratory Intensive Care' and 'Obstetric Intensive Care', and are subdivided into major clinical issues within each chapter so specific areas of further study can be found easily. Drawing from the authors'

experiences as successful candidates, and carefully reviewed by consultants, Revision Notes in Intensive Care Medicine provides the foundation for postgraduate intensive care exam revision.

MCQs in Intensive Care Medicine - Steve Benington, 2009-05-01

This book provides 300 practice MCQs divided into three practice papers. Correct answers follow, accompanied by short referenced notes drawing from recent important journal articles, major critical care textbooks and selected internet resources. Since there is no other dedicated intensive care MCQ book on the market, this book is relevant to the following groups: junior intensive care trainees, senior intensive care nursing staff wishing to enhance their medical knowledge, intensive care consultants as a teaching aid and trainees preparing for professional examinations. This MCQ book will also be ideal in preparation for the European Diploma in Intensive Care Medicine (EDIC) Part 1 examination, as the questions are matched as closely as possible in style and difficulty to those in the EDIC Part 1. The EDIC is an internationally recognised qualification for medical trainees in intensive care, set by the European Society for Intensive Care Medicine (ESICM). It is a two-part examination consisting of a 100-question multiple choice paper (Part 1) and a clinical and viva voce examination (Part 2). To ensure relevance, the questions are designed with reference to the training syllabus provided by the ESICM.

Multiple Choice Questions in Intensive Care Medicine - Steve Benington 2009

"This book contains 300 true/false and single best answer questions covering all aspects of intensive care medicine. Questions are based on the internationally recognised Competency-Based Training in Intensive Care Medicine in Europe (CoBaTrICE) syllabus. Topics include resuscitation, diagnosis, disease management, peri-operative care, organ support, applied basic science and ethical issues. Each answer is accompanied by fully referenced short notes drawn from recent review articles, landmark papers and major critical care textbooks." "This book is an ideal companion for candidates approaching multiple choice examinations in

intensive care medicine, including the European Diploma in Intensive Care (EDIC). It will also be a valuable teaching and learning aid for doctors preparing for oral examinations in the specialty, candidates sitting professional examinations in related specialties, and anyone involved in the care of critically ill patients." --Book Jacket.

Short Answer Questions and MCQs in Anaesthesia and Intensive Care, 2Ed - Peter Murphy 2012-12-17

Following on from the success of the first edition, Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay based examination to compulsory short answer questions (SAQs). This guide aims to introduce methods and systems of answering questions such

Extracorporeal Membrane Oxygenation -

Marc O. Maybauer 2022-03-22

"Extracorporeal Membrane Oxygenation : An Interdisciplinary Problem-Based Learning Approach" provides an overview of the latest techniques, management strategies, and technology surrounding the clinical use of ECMO. ECMO is a miniaturized heart-lung-machine that can be used to support patients with either acute respiratory and/or cardiocirculatory failure in numerous scenarios and can be a bridge to either heart or lung transplantation. This book focuses on educating clinicians about this complex but life-saving technology.

Neurocritical Care Board Review - Asma Zakaria, MD 2013-07-19

Neurocritical Care Board Review: Questions and Answers provides clinicians with a thorough review of the complex subspecialty of Neurocritical Care, using a question-and-answer (Q&A) format. The Q&A format is easily readable, high yield, and serves as good practice for test takers or anyone looking to improve or reinforce essential knowledge. The book covers the key topics pertinent to (and found on) neurocritical care boards, and is organized according to the exam core curriculum outline. A total of 649 questions address both neuroscience critical care (general neurology, neurotrauma, neurovascular and neurosurgical problems) and general critical care topics (systems trauma, cardiovascular, infectious

disease, pulmonary and renal issues, and hemodynamic monitoring). Detailed explanations follow in the answer section of each chapter, along with references for further study. Where relevant, neuroimaging, EEG and monitoring waveforms, and other images are included in case questions to allow candidates to familiarize themselves with these tools that form a significant part of the exam. Features of Neurocritical Care Board Review include: Comprehensive, high-yield review that covers all areas tested on the neurocritical care certifying exam Applicability to a wide range of physicians in multiple specialties reviewing for boards or looking to test skills and clinical acumen in this challenging area Question and answer format with detailed explanations and references to facilitate recall of must-know information and help identify knowledge gaps for further attention Material aggregated from multiple specialties into a singular resource for exam study

Single Best Answer Questions for the Final FFICM - Keith Davies 2016-12-22

Containing 240 practice questions, this is the first dedicated study resource for the SBA component of the Final FFICM examination. *SBAs and MCQs for Drugs in Anaesthesia and Intensive Care* - Edward Scarth 2023-08-05 Designed to complement the highly popular *Drugs in Anaesthesia and Intensive Care*, this companion title provides high quality pharmacology practice questions for exam revision. Focusing specifically on pharmacological principles and agents, it is tailored for postgraduate exams in anaesthesia and intensive care including the FRCA, FFICM, the EDAIC, and the EDIC. Over 230 True/False MCQs and Single Best Answers help readers to test and consolidate knowledge learnt from *Drugs in*. Questions are arranged into 17 subject-themed chapters such as 'Intravenous anaesthetic agents' to focus revision. Structured questions and answers are accompanied by detailed explanations, cross-references to *Drugs in* where relevant, and further reading. Written by consultants and experienced trainees, SBAs and MCQs for *Drugs in Anaesthesia and Intensive Care* offers a true test of the reader's pharmacology knowledge, and is an essential purchase for anyone preparing for their

anaesthetic and intensive care examinations, including the Fellowship of the Royal College of Anaesthetists (FRCA), the European Diploma in Anaesthesiology and Intensive Care (EDAIC), the Fellowship of the Faculty of Intensive Care Medicine (FFICM), and the European Diploma in Intensive Care Medicine (EDIC) examinations.

Oxford Textbook of Advanced Critical Care Echocardiography - Anthony McLean 2020
Provides a physiological and evidence-based reference guide to the principles and techniques of advanced echocardiography. Both transoesophageal and transthoracic echocardiography are addressed making this an ideal adjunct to more advanced echo courses for intensivists.

Clinical Medicine - Melissa Patel 2019-08-23
This book provides 300 practice MCQs divided into three practice papers. Correct answers follow, accompanied by short referenced notes drawing from recent important journal articles, major critical care textbooks and selected internet resources. Since there is no other dedicated intensive care MCQ book on the market, this book is relevant to the following groups: junior intensive care trainees, senior intensive care nursing staff wishing to enhance their medical knowledge, intensive care consultants as a teaching aid and trainees preparing for professional examinations. This MCQ book will also be ideal in preparation for the European Diploma in Intensive Care Medicine (EDIC) Part 1 examination, as the questions are matched as closely as possible in style and difficulty to those in the EDIC Part 1. The EDIC is an internationally recognised qualification for medical trainees in intensive care, set by the European Society for Intensive Care Medicine (ESICM). It is a two-part examination consisting of a 100-question multiple choice paper (Part 1) and a clinical and viva voce examination (Part 2). To ensure relevance, the questions are designed with reference to the training syllabus provided by the ESICM.

OSCEs for Intensive Care Medicine - Peter Hersey 2020-08-27

OSCEs for Intensive Care Medicine is a comprehensive revision resource for doctors preparing to take the Fellowship of the Faculty of Intensive Care Medicine (FFICM) and the

European Diploma in Intensive Care Medicine (EDIC). Written by a team of practicing intensive care consultants with extensive experience running a successful FFCIM course, this book features over 100 practice questions organised into eight mock OSCE exams and is mapped to both the FFCIM and CoBaTrICE curricula.

Reflecting the real exams, they are divided into stations on professionalism, data, resuscitation, and equipment, each of which are accompanied by further reading to ensure high-quality self-assessment. With hints and tips throughout to help candidates avoid common mistakes and misconceptions, this book is essential reading for any doctor preparing for the FFCIM or EDIC OSCE exams.

Education in Anesthesia - Edwin A. Bowe 2018-04-19

Become a better educator in anesthesia, understanding and implementing best practices and evidence-based principles in a range of settings.

Achieving Cultural Competency - Lisa Hark 2011-09-07

Achieving Cultural Competency: A Case-Based Approach to Training Health Professionals provides the necessary tools to meet the ever-growing need for culturally competent practitioners and trainees. Twenty-five self-study cases cover a variety of medical topics, including cardiovascular, pulmonary, neurology, oncology, hematology, immunology, and pediatric disorders. Actual scenarios that occurred in clinical settings help the user gain direct insight into the realities of practice today. Cultural factors covered within the cases include cultural diversity plus gender, language, folk beliefs, socioeconomic status, religion, and sexual orientation. This book is an approved CME-certifying activity to meet physicians' cultural competency state requirements. Get 25 pre-approved self-study American Dietetic Association credits at no additional charge when you purchase the book. Email hark@lisahark.com for further instructions.

Critical Care Medicine Review - Abraham Sonny 2019-10-07

Covering all four critical care board exams (anesthesiology, surgery, internal medicine, and neurology), Critical Care Medicine Review: 1000 Questions and Answers prepares you for exam

success as well as clinical practice in today's ICU. This full-color, easy-to-use review tool provides challenging case studies, relevant images, multiple-choice board-style questions, rationales for correct and incorrect answers, and references for every question. Edited by instructors of anesthesia and critical care from Harvard Medical School and Massachusetts General Hospital, this comprehensive resource is an ideal study guide for critical care fellows, recertifying practitioners, and CCRNs. Contains 1000 multiple-choice, case study questions and answers that mirror the four critical care exams in both content and distribution of questions and topics. Covers all body systems as well as Surgery, Trauma, and Transplantation; Pharmacology and Toxicology; Research, Administration, and Ethics; and miscellaneous topics such as pregnancy, dermatologic disorders, and thermoregulatory disorders. Answers include detailed rationales for both correct and incorrect responses, as well as references for further study and review. Enrich Your eBook Reading Experience Read directly on your preferred device(s), such as computer, tablet, or smartphone. Easily convert to audiobook, powering your content with natural language text-to-speech.

OSCEs for the Final FFICM - Raj Nichani
2016-07-28

Comprehensive coverage of key topics for the FFICM OSCE examination, based on actual exam questions and modelled to the curriculum. *Single Best Answer MCQs in Anaesthesia* - Cyprian Mendonca, 2010-09-01

The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge

and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

Intensive Care Medicine MCQs - Shoneen Abbas
2015-04-01

Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr

Steve Benington.

Multiple Choice Questions in Regional Anaesthesia - Rajesh Gupta 2019-07-17

This revised and expanded second edition is a learning and self-assessment tool for the study of regional anesthesia. The first part deals with the basic principles of regional anesthesia and the equipment used. This is followed by sections on peripheral nerve blocks, central neuraxial blocks and pain. Pediatric regional anesthesia is discussed along with the adult blocks. There are additional MCQs in each section, and new chapters on the anatomy, physiology, assessment and monitoring of acute pain. This book is aimed at those studying for the European Society of Regional Anesthesia Diploma Examinations, regional anesthesia component of FRCA examinations, and exit examinations for regional anesthesia fellowships. It is also relevant to the regional anesthesia component of US Board examinations and the Canadian fellowships in regional anesthesia.

Critical Care Medicine MCQs Practice Book - Kapil Zirpe 2019-07-19

Chapter 1: Overview of MCQs Based Critical Care in India Chapter 2: Airway Management Chapter 3: Cardiopulmonary Resuscitation Chapter 4: Shock and Resuscitation Chapter 5: Mechanical Ventilation Chapter 6: Respiratory System Chapter 7: Hemodynamic Monitoring Chapter 8: Infection Control Chapter 9: Infectious Diseases Chapter 10: Gastrointestinal System Chapter 11: Nutrition Chapter 12: Endocrine and Metabolic System Chapter 13: Neurocritical Care Chapter 14: Trauma Chapter 15: Cardiovascular System Chapter 16: Renal Chapter 17: Toxicology Chapter 18: Obstetric Critical Care Chapter 19: End-of-Life/Ethics/Transplant Chapter 20: Oncology Chapter 21: Hematology Chapter 22: Postoperative Critical Care Chapter 23: Tropical Diseases Chapter 24: Critical Care Pharmacology 2019 Chapter 25: HRCT Thorax Chapter 26: Chest X-Ray Chapter 27: Arterial Blood Gases Chapter 28: USG and ECHO Exam Paper

Questions for the Final FFICM Viva - Kate Flavin 2018-03-08

An essential, up-to-date and evidence-based revision guide designed in the style of the Final FFICM structured oral examination.

Critical Care Physiology - Judith Ochola 2019-10-31

A book of questions and answers that are designed to help candidates prepare for the College of Intensive Care Medicine primary examination

MCQS in Critical Care Medicine - Sandeep Aggarwal 1905-07-08

This is the first comprehensive book published from India which is based on MCQs, primarily for doctors appearing for competitive exams in critical care medicine. It is also a must have for every doctor and nurse working in the ICU, as the case scenarios and latest recommendations will help them to have a better approach towards complex situations and provide better care to the patients.

Anesthesiology: A Problem-Based Learning Approach - Tracey Straker 2018-11-12

Linking existing knowledge to new knowledge by presenting it in the form of a case or a problem is a popular and effective educational approach resulting in better retention of the knowledge and improved ability to apply that knowledge to solve real problems. This problem-based learning (PBL) method was introduced into medical education at McMaster University in Ontario, Canada, in 1969. Since then it has been widely incorporated into secondary, undergraduate, and graduate education in a variety of disciplines worldwide. This new volume for the Anesthesiology Problem-Based Learning series reviews topics in general anesthesiology utilizing the PBL approach. Each chapter deals with conditions and problems in anesthesia practice presented as a case stem with questions to encourage critical thinking, followed by an evidence-based discussion and multiple-choice questions for self-assessment. Current in its knowledge of organ systems and management, the text keeps pace with new technology, new drugs, and new surgical techniques coupled with current guidelines for anesthetic management. Cases highlight the practical issues that arise in the operating room and offers solutions for them. The book can be used to review an upcoming clinical case or as a PBL tool. The Stem Case and Key Questions and Discussion sections can serve as the basis for interactive learning experiences for study groups or as a broad yet in-depth clinical review

of the specialty for the individual learner. Self-assessment questions can be used as a measure

of knowledge acquisition or simply as a question bank to prepare for examinations.
