Teaching EFL Learners Shadowing for Listening - Yo Hamada 2016-07-01

Shadowing, an active and highly cognitive technique for EFL listening skill development, in which learners track heard speech and vocalize it simultaneously, is gradually becoming recognized. However, there remain a lot of mysteries and misunderstandings about it. This book uncovers shadowing in terms of theory and practice. This book cements shadowing as a separate technique from other similar techniques such as Elicited Imitation, Mirroring, and simple repetition, and provides ample empirical data to explain the function of Shadowing. It also elaborates on how Shadowing should be used in terms of materials, procedure, and learners' psychology, which would aid in instructors' use of Shadowing in teaching. A guide on a method effective in improving learners' bottom-up listening skills, this book will certainly prove useful to English Language learners and instructors in their linguistic pursuits.

**Coming Apart** - Charles Murray 2012-01-31

NEW YORK TIMES BESTSELLER • A fascinating explanation for why white America has become fractured and divided in education and class,

from the acclaimed author of *Human Diversity*. "I'll be shocked if there's another book that so compellingly describes the most important trends in American society."—David Brooks, *New York Times* In *Coming Apart*, Charles Murray explores the formation of American classes that are different in kind from anything we have ever known, focusing on whites as a way of driving home the fact that the trends he describes do not break along lines of race or ethnicity. Drawing on five decades of statistics and research, *Coming Apart* demonstrates that a new upper class and a new lower class have diverged so far in core behaviors and values that they barely recognize their underlying American kinship—divergence that has nothing to do with income inequality and that has grown during good economic times and bad. The top and bottom of white America increasingly live in different cultures, Murray argues, with the powerful upper class living in enclaves surrounded by their own kind, ignorant about life in mainstream America, and the lower class suffering from erosions of family and community life that strike at the heart of the pursuit of happiness. That divergence puts the success of the American project at risk. The evidence in *Coming Apart* is about white America. Its message is about all of America.

Penguin Readers Level 2: The Adventures of Tom Sawyer (ELT Graded Reader) - Mark Twain 2020-07-30

Penguin Readers is an ELT graded reader series. Please note that the eBook edition does NOT include access to the audio edition and digital book. Written for learners of English as a foreign language, each title includes carefully adapted text, new illustrations and language learning exercises. Titles include popular classics, exciting contemporary fiction, and thought-provoking non-fiction, introducing language learners to bestselling authors and compelling content. The eight levels of Penguin Readers follow the Common European Framework of Reference for language learning (CEFR). Exercises at the back of each Reader help language learners to practise grammar, vocabulary, and key exam skills. Before, during and after-reading questions test readers' story comprehension and develop vocabulary. The Adventures of Tom Sawyer, a Level 2 Reader, is A1+ in the CEFR framework. Sentences contain a maximum of two clauses, introducing the future tenses will and going to, present continuous for future meaning, and comparatives and superlatives. It is well supported by illustrations, which appear on most pages. Tom Sawyer lives with his aunt in a small village next to the long Mississippi river. One night, Tom and his friend, Huckleberry Finn see Injun Joe kill Dr. Robinson. "We can't say anything about it. Or we will die," says Tom. But then the wrong man goes to prison... Visit the Penguin Readers website Register to access online resources including tests, worksheets

and answer keys. Exclusively with the print edition, readers can unlock a digital book and audio edition (not available with the eBook).

**The Adventures of Tom Sawyer Annotated - Mark Twain 2020-11-06**

"The Adventures of Tom Sawyer by Mark Twain is an 1876 novel about a young boy growing up along the Mississippi River. It is set in the 1840 in the fictional town of St. Petersburg, inspired by Hannibal, Missouri, where Twain lived as a boy. In the novel Tom Sawyer has several adventures, often with his friend Huckleberry Finn. Originally a commercial failure, the book ended up being the best selling of any of Twain's works during his lifetime. Though overshadowed by its sequel, Adventures of Huckleberry Finn, the book is by many considered a masterpiece of American literature, and was one of the first novels to be written on a typewriter."

**The Adventures of Huckleberry Finn (Annotated) - Mark Twain 2021-09-07**

Adventures of Huckleberry Finn is a novel by Mark Twain, first published in the United Kingdom in December 1884 and in the United States in February 1885. Commonly named among the Great American Novels, the work is among the first in major American literature to be written throughout in vernacular English, characterized by local color regionalism. It is told in the first person by Huckleberry "Huck" Finn, a friend of Tom Sawyer and narrator of two other Twain novels (Tom Sawyer Abroad and Tom Sawyer, Detective). It is a direct sequel to The Adventures of Tom Sawyer. The book is noted for its colorful description of people and places along the Mississippi River. Set in a Southern antebellum society that had ceased to exist about twenty years before the work was published, Adventures of Huckleberry Finn is an often scathing satire on entrenched attitudes, particularly racism

**Train Your Brain - Robert G Winningham 2018-02-06**

Train Your Brain was written to provide older adults, and the people who work with them, with practical and scientifically based suggestions and interventions on how to maintain and even improve memory ability.

Researchers have found that certain lifestyle factors predict the likelihood of developing memory problems. Most chapters begin with research summaries, followed by practical suggestions for taking advantage of the identified factors that affect memory. The book also contains information and suggestions for people interested in starting a cognitive enhancement

program in an assisted living facility, senior center, or medical setting. Two chapters, "How Memory Works" and "How the Brain Works," provide readers with a foundation of knowledge so they can get the most out of subsequent chapters. The author presents the "Use It or Lose It" theory of memory and aging and the overwhelming evidence that cognitive stimulation is associated with better memory ability; he also provides information on how nutrition, physical exercise, mood, stress, and sleep all affect memory. The book contains cognitive enhancement activities, with

instructions, that can be used to create a memory enhancement program for oneself or others. However, even all of this information won't help the older adult who is unmotivated to make the necessary behavioral changes, so the author includes information on how to motivate people to do the things that can improve their quality of life and their ability to make new memories.
