*Rethinking University Teaching* - Diana Laurillard 2013-07-04

Teachers in higher education have had to become more

professional in their approach to teaching, matching their professionalism in research. The first edition of this book prepares teachers to do and undergo quality audits and appraisals, and to achieve their personal aims of improving their teaching and their students' learning. The strength of this book is that it provides a sound theoretical basis for designing and using learning technologies in university teaching. This new edition builds upon the success of the first and contains major updates to the information on learning technologies and includes the implications of using technology for the university context - both campus and electronic - which suggests a new approach to managing learning at institutional level.

**Men of Tomorrow** - Gerard Jones 2006-07-01

In the depths of the Depression, out of the crowded tenements of New York and Cleveland, the comic book superhero leapt into being. Out of a mix of geekiness, science fiction, and outsider yearning, a crew of young men from working-class Jewish neighbourhoods and shady backgrounds created a series of blue-eyed, chisel-nosed crime fighters and adventurers who quickly captured the imaginations of young and old. Within a few years their creations had spawned a new genre that still dominates youth entertainment seventy years later. Gerard Jones draws on exhaustive research to portray how the immigrant experience and an outsider mentality shaped the vision of the make-believe hero, while a bizarre melting-pot of left-wing politics, mob money and the worlds of soft-porn and detective magazines contributed to the publishing world that produced the comics and brought them to millions. He chronicles how the success of the comics provoked a backlash that nearly destroyed the industry in the 1950s, and how later they surged back, inspiring a new generation to transmute pre-war fantasies into art, literature, blockbuster movies and graphic novels. Men of Tomorrow rivetingly demonstrates how the creators of the superheroes established their crucial place in the modern imagination.

**The Jewish Intellectual Tradition** - Alan Kadish

2021-01-19

The Jewish intellectual tradition has a long and complex history that has resulted in significant and influential works of scholarship. In this book, the authors suggest that there is a series of common principles that can be extracted from the Jewish intellectual tradition that have broad, even life-changing, implications for individual and societal achievement. These principles include respect for tradition while encouraging independent, often disruptive thinking; a precise system of logical reasoning in pursuit of the truth; universal education continuing through adulthood; and living a purposeful life. The main objective of this book is to understand the historical development of these principles and to demonstrate how applying them judiciously can lead to greater intellectual productivity, a more fulfilling existence, and a more advanced society.

Instructional Technology - Barbara B. Seels 2012-10-01  
The Association officially endorses this definition of Instructional Technology which has been developed over three years by the Committee on Definition and Terminology. The Association recognizes that other theoretical frameworks exist and that these are valid, but believes that these are part of the more inclusive theoretical framework of Instructional Technology used in this definition. In making this definition and the document explaining it available, we hope to help other organizations clarify their relationship to the broad field of Instructional Technology. Although the Association offers this definition as its current position, it is committed to a continuous reevaluation of the definition and to revising and publishing it so that it reflects changing concepts and terminology. A document of this magnitude can only be produced as the result of the dedication and effort of the persons who formed the committee and of its chairperson, Barbara Seels and her collaborator, Rita C. Richey. Without their energies, skill, perseverance, and willingness to risk stating their perceptions in this format we could not have offered this document. Whether or not we agree with the statements presented here, they will provide a benchmark and a point of dialogue for further development of a profession which seeks to provide conditions for effective learning.

*Montessori Madness* - Trevor Eissler 2009

"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. *Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book asks parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what education should look like will never be the same"--Back cover.

*Fashion Underground* - Valerie Steele 2015

"Style is about expressing yourself," says Susanne Bartsch. "You can be whatever you want to be--a silver screen star, a Marie Antoinette baroque creature, or a Victorian punk. I love that about fashion and make-up." Susanne Bartsch has long been a highly visible player in New York City nightlife, with her parties known for their mix of uptown and downtown, gay and straight, high fashion, street style, and Mardi Gras extravaganza. Her penchant for extreme fashion and make-up have made her name the equivalent of a couture label among the 'Fashion Underground,' a diverse group of individuals united around a love of fashion, defined as an embodied practice of self-expression and transformation. This creative subculture distinguishes itself from the commercial, mainstream fashion system, but their extraordinary styles, often bordering on performance art, have often influenced the wider world of fashion and beauty"--Museum at FIT web site
