Ear Mastery - Amos To 2018-07-07

An Insider Guide For Playing Any Song On The Piano By Ear... "Amosdoll covers my songs unbelievably quickly!" - The Living Tombstone "Amosdoll, are you a Mozart reincarnate?" - JT Music What Is Ear Mastery? Ear Mastery is not just about another "how to play piano" book that you can find from your local music shop. It is NOT about relying on sheet music and synesthesia as the main source when learning songs - yet understanding these tricks will improve on the speed when you read sheet music by so much MORE than you've ever experienced before. It is NOT about turning you into the next Beethoven - yet these tricks will allow you to visualize, compose and improvise in your head just like how Beethoven continued to play and compose music even when he became deaf! Ear Mastery is A SHORTCUT. Many piano enthusiasts waste time and money on traditional music teachers where they take years and years just to teach you how to read and follow sheet music when not every song that you like have existing sheet music (that's the bad news). Instead of inefficiently learning one song at a time using traditional methods, Ear Mastery provides you the alternate shortcut in showing you the method that grants you the ability to play any song without sheet music.

Blues Flute Practice Sessions Volume 1 In All 12 Keys Catalog Number: ADG237 Author: Andrew D. Gordon Publisher: ADG Productions I have created various Blues riffs and has transposed them into all 12 keys along with backing tracks to practice with giving you the student a fun way of learning how to play in all keys. We all learned how to play our scales in all 12 keys so I have taken that concept and applied it to learning to play the Blues so that you can try to become equally adept at playing in as many keys as possible. I have heard from teachers who have used my "100 Ultimate Blues Riffs" book who will only allow a student to move on to the next riff once they have mastered playing the riff they are working on in all 12 keys, certainly a great but challenging musical exercise. Each of the riffs are either 2 or 4 measures in length that are notated and recorded around the cycle of 4th.s Also, there is a notation page whereby the riff is being used in a 12 bar blues progression so that you can see how to apply the riff to a real world situation. Each riff has been recorded 4 times: 1. Flute with rhythm tracks recorded around the cycle of 4th.s 2. Rhythm tracks recorded around the cycle of 4th.s to practice with 3. Flute with rhythm tracks recorded in a 12 bar blues progression in a designated key. 4. Rhythm tracks recorded in a 12 bar blues progression in the same key. Reasons for practicing in all 12 keys. Often a singer cannot reach certain notes in the key that you have learned the song in, therefore you will probably be asked to change the key of the song which you can do with confidence knowing all 12 keys. Having the knowledge of playing in all 12 keys, it will then become easier to learn new songs, whatever key they are in. Blues often use the keys of C, F, G, Bb, Eb, Guitar music often uses the keys of E, A, D, by learning as many keys as possible will enable you to adapt to the musical situation you are playing in. Taking riffs, chord progressions etc. through all 12 keys is a great ear training tool relying on your ears to play in keys that you are not used to before the muscle memory sets in. Practicing in all 12 keys is a great exercise for the brain, it is obviously hard work but the more you do it the benefits will become apparent. By practicing in

all 12 keys you will start to see various musical patterns evolve that will help you speed up the process of learning music. It is my hope that as you practice playing in the various keys you will eventually not need the music and be able to transpose in your head.

My First Piano Adventure: Lesson Book A with CD - 2007-01-01

(Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The

recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here
