**Central Florida's Most Notorious Gangsters** - Samuel Parish 2013-04-30  
Blazing gun battles, bank heists, and high-speed escapes: The true story of two men who terrorized Depression-era Florida and the Deep South. This is the story of Alva Hunt and Hugh Gant, central Florida's own Dillinger and

Capone. They began their infamous careers fencing automobile parts as the Florida land boom became a bust. After doing hard time in state jails, they emerged as bank robbers and embarked on a crime spree across the Deep South. In the end they were captured and served time in Leavenworth, Alcatraz, and other penitentiaries. Their reign was one of terror for Florida and many Southern states. Their story reflects an intriguing period in Florida's own history, and the desperate days when Southern gangsters were armed, notorious and deadly. *Intervention Research in Learning Disabilities* - Thomas E. Scruggs

2012-12-06

Intervention Research in Learning Disabilities is based on proceedings of the Symposium on Intervention Research sponsored by the Division for Learning Disabilities (DLD) of the Council for Exceptional Children and held at Purdue University, November 14-16, 1988. It presents a wide range of critical issues and insights, both theoretical and practical, related to research with learning disabled individuals. The book is divided into four broad sections: issues in intervention research, academic interventions, social and behavioral interventions, and postsecondary interventions. It considers both present and future directions of such research. Topics explored include variance and verities in learning disability interventions, instruction derived from the strategy deficit model, enhancement of academic performance with mnemonic instruction, the

Ordination of Plant Communities -

R.H. Whittaker 2012-12-06

A large part of ecological research depends on use of two approaches to synthesizing information about natural communities: classification of communities (or samples representing these) into groups, and ordination (or arrangement) of samples in relation to environmental variables. A book published in 1973,

Downloaded from [id-blockchain.idea.gov.vn](https://id-blockchain.idea.gov.vn) on by guest

'Ordination and Classification of Communities,' sought to provide, through contributions by an international panel of authors, a coherent treatise on these methods. The book appeared then as Volume 5 of the Handbook of Vegetation Science, for which R. TuxEN is general editor. The desire to make this work more widely available in a less expensive form is one of the reasons for this second edition separating the articles on ordination and on classification into two volumes. The other reason is the rapid advancement of understanding in the area of indirect ordination-mathematical techniques that seek to use measurements of samples from natural communities to produce arrangements that reveal environmental relationships of these communities. Such is the rate of change in this area that the last chapter on ordination in the first edition is already, 4 or 5 years after it was

written, out of date; and new techniques of indirect ordination that could only be mentioned as possibilities in the first edition are becoming prominent in the field. In preparing the second edition the chapter on evaluation of ordinations has been rewritten, a new chapter on recent developments in continuous multivariate techniques has been included, and references to recent work have been added to other chapters.

**The Fall of the House of Zeus -**

Curtis Wilkie 2010-10-19

“Masterful . . . an epic tale of backbiting, shady deal-making, and greed [that] reads like a John Grisham novel.”—The Wall Street Journal A real-life legal thriller as timeless as a Greek tragedy, tracing the downfall of one of America’s most famous lawyers and exposing the dark side of Southern politics—from the author of When Evil Lived in Laurel Dickie Scruggs was arguably the most

successful plaintiff's lawyer in America. A brother-in-law of former U.S. Senate majority leader Trent Lott, Scruggs made a fortune taking on mass tort lawsuits against Big Tobacco and the asbestos industries. He was hailed by Newsweek as a latter-day Robin Hood and was portrayed in the movie *The Insider* as a dapper aviator-lawyer. Scruggs's legal triumphs rewarded him lavishly, and his success emboldened both his career maneuvering and his influence in Southern politics—but at a terrible cost, culminating in his spectacular fall, when he was convicted for conspiring to bribe a Mississippi state judge. Based on extensive interviews, transcripts, and FBI recordings never made public, *The Fall of the House of Zeus* uncovers the Washington legal games and power politics: the swirl of fixed cases, blocked investigations, judicial tampering, and a zealous prosecution that would eventually

ensnare not only Scruggs but his own son, Zach, in the midst of their struggle with insurance companies over Hurricane Katrina damages. Featuring Trent Lott and Jim Biden, brother of then-Senator Joe Biden, in supporting roles, with cameos by John McCain, Al Gore, and other Washington insiders, Curtis Wilkie's account of this uniquely American tragedy reveals the seedy underbelly of institutional power.

Power, Greed, and Hubris - James R. Crockett 2013-12-17

From 2003 to 2009 sensational judicial bribery scandals rocked Mississippi's legal system. Famed trial lawyers Paul Minor and Richard (Dickie) Scruggs and renowned judge and former prosecutor Bobby DeLaughter proved to be the nexus of these scandals. Seven attorneys and a former state auditor were alleged to

Downloaded from [id-blockchain.idea.gov.vn](http://id-blockchain.idea.gov.vn) on by guest

have attempted to bribe or to have actually bribed five state judges to rule in favor of Minor and Scruggs in several lawsuits. This is the story of how federal authorities, following up on information provided by a bank examiner and a judge who could not be bribed, toppled Minor, Scruggs, and their enablers in what was exposed as the most significant legal scandal of twenty-first-century Mississippi. James R. Crockett details the convoluted schemes that eventually put three of the judges, six of the attorneys, and the former auditor in federal prison. All of the men involved were successful professionals and three of them, Minor, Scruggs, and fellow attorney Joey Langston, were exceptionally wealthy. The stories involve power, greed, but most of all hubris. The culprits rationalized abominable choices and illicit actions to influence judicial decisions. The crimes came to light in those six

years, but some crimes were committed before that. These men put themselves above the law and produced the perfect storm of bribery that ended in disgrace. The tales Crockett relates about these scandals and the actions of Paul Minor and Richard Scruggs are almost unbelievable. Individuals willingly became their minions in power plays designed to distort the very rule of law that most of them had sworn to uphold.

**Wild Girls: How the Outdoors Shaped the Women Who Challenged a Nation** - Tiya Miles 2023-09-19

A National Book Award-winning, New York Times best-selling historian shows how girls who found self-understanding in the natural world became women who changed America. Harriet Tubman, forced to labor outdoors on a Maryland plantation, learned a terrain for escape. Louisa May Alcott ran wild, eluding gendered expectations in New England. The Indigenous women's basketball team

from Fort Shaw, Montana, recaptured a sense of pride in physical prowess as they trounced the white teams of the 1904 World's Fair. Celebrating women like these who acted on their confidence outdoors, Wild Girls also brings new context to misunderstood icons like Sakakawea and Pocahontas, and to underappreciated figures like Gertrude Bonin, Dolores Huerta, and Grace Lee Boggs. For the girls at the center of this book, woods, prairies, rivers, ball courts, and streets provided not just escape from degrees of servitude, but also space to envision new spheres of action. Lyrically written and full of archival discoveries, this book evokes landscapes as richly as the girls who roamed in them—and argues for equal access to outdoor spaces for girls of every race and class today.

**Corporate Crops** - Gabriela Pechlaner

2012-12-01

Biotechnology crop production area increased from 1.7 million hectares to 148 million hectares worldwide between 1996 to 2010. While genetically modified food is a contentious issue, the debates are usually limited to health and environmental concerns, ignoring the broader questions of social control that arise when food production methods become corporate-owned intellectual property. Drawing on legal documents and dozens of interviews with farmers and other stakeholders, *Corporate Crops* covers four case studies based around litigation between biotechnology corporations and farmers. Pechlaner investigates the extent to which the proprietary aspects of biotechnologies—from patents on seeds to a plethora of new rules and contractual obligations associated with the technologies—are reorganizing crop production. The

lawsuits include patent infringement litigation launched by Monsanto against a Saskatchewan canola farmer who, in turn, claimed his crops had been involuntarily contaminated by the company's GM technology; a class action application by two Saskatchewan organic canola farmers launched against Monsanto and Aventis (later Bayer) for the loss of their organic market due to contamination with GMOs; and two cases in Mississippi in which Monsanto sued farmers for saving seeds containing its patented GM technology. Pechlaner argues that well-funded corporate lawyers have a decided advantage over independent farmers in the courts and in creating new forms of power and control in agricultural production. Corporate Crops demonstrates the effects of this intersection between the courts and the fields where profits, not just a food supply, are reaped.
