Student-Teacher Interaction in Online Learning Environments - Wright, Robert D. 2014-09-30

As face-to-face interaction between student and instructor is not present in online learning environments, it is increasingly important to understand how to establish and maintain social presence in online learning. Student-Teacher Interaction in Online Learning Environments provides successful strategies and procedures for developing policies to bring about an awareness of the practices that enhance online learning. This reference book provides building blocks to help improve the outcome of online coursework and discusses social presence to help improve performance, interaction, and a sense of community for all participants in an online arena. This book is of essential use to online educators, administrators, researchers, and students.

2,000 Percent Living - Donald Mitchell 2010-10-08

After thinking about the possible contents for the book over several weeks, Donald Mitchell was surprised to be awakened at 1:30 a.m. on May 19, 2009, by a voice that dictated to him in great detail what should be in this book. This dictation continued for many hours and finally paused for him to begin asking clarifying questions, which were then answered. The instruction lasted over six hours. In the Introduction, Mitchell notes, "From that experience, I believe that by writing this book I am merely serving as a fleshly vehicle for a message from the Holy Spirit that is intended for all people on Earth. I pray that I have been faithful and accurate in sharing with you what I was directed to write." 2,000 Percent Living presents fourteen Godly lessons that you can apply to accomplish at least 20 times more in every aspect of your life, while using less time, effort, and resources. As a result, you will focus more on what's important, spend a lot less effort on what isn't important, and achieve more satisfaction from your efforts: 1. Accept Salvation. 2. Cleanse your mind. 3. Pick better objectives. 4. Increase focus on your objectives. 5. Gain knowledge faster. 6. Obtain more helpful knowledge. 7. Create a 2,000 percent solution. (Achieve 20 times more with the same or less time, money, and effort.) 8. Teach others to make similar breakthroughs. 9. Create a new 2,000 percent solution annually. 10. Improve your breakthrough solutions. 11. Link seven complementary 2,000 percent solutions to add enormous benefits. 12. Increase benefits for those who cannot help you. 13. Draw 20 times closer to others. 14. Check your conduct to please God. 2,000 Percent Living is the tenth book published for the 400 Year Project (www.fastforward400.com and Adventures of an Optimist) designed to accelerate human progress by 20 times from 2015-2035.

School Health Education in Changing Times - Deana Leahy 2015-09-16

This book explores the complex nexus of discourses, principles and practices within which educators mobilise school-based health education. Through an interrogation of the ideas informing particular models and approaches to health education, the authors provide critical insights into the principles and practices underpinning approaches to health education policy, curriculum, pedagogy and assessment. Drawing on extensive literature and research, the book explores and considers what health education can and should do. Chapters examine the extent to which health education, past and present, has attended to the needs and interests of young people in school environments, as well as assess common pedagogical approaches and whether the outcomes tally with expectations. By considering the problems in teaching health education, curriculum making, health education pedagogies and porous classrooms, the book offers a knowledge base from which educators can consider how theories and models can sit together to shape curriculum and influence practice. School Health Education in Changing Times will be of key interest to postgraduate students, researchers and academics in the field of health education. It will also be a valuable resource for teacher educators, current teachers, and those on professional development courses who want to navigate the moral minefield surrounding health education.

The Leader in Me - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
