On flower power. The role of the vase in arts, crafts and design. Catalogo della mostra (Roma, 16 luglio-29 settembre 2019). Ediz. italiana e inglese - Martí Guixé 2019

Published with the exhibition at the Galleria Nazionale d'Arte Moderna e Contemporanea in Rome, this book brings together history, art, and industry in a single object: the vase. The vase has been the subject and object of a narrative in which artists and designers have portrayed, photographed, and reinvented it. It has filled roles as both an art object, with its intrinsic value, and an industrial object with the same functions and no less artistic value. Curated by Spanish designer Martí Guixé, the exhibition offers an opportunity to reflect on the

relationship between artisanship, design, and contemporary art, and compare visual languages that are more similar than we may think.

**Delacroix** - Sébastien Allard 2018-09-12  
p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana} Eugène Delacroix (1798-1863) was one of the towering figures to emerge in France in the wake of Napoleon. No other artist of the nineteenth century balanced a reverence for the past with such a strong ambition and spirit of innovation. Distinguishing himself from many other talented young artists in Paris, he gained renown in the 1820s for his novel subject matter, theatrical sense of composition, vibrant palette, and vigorous painterly technique. His vast production—including some eight hundred paintings, prints in a variety of media, and thousands of drawings and pages of writing—won the admiration of countless writers

and artists, including Charles Baudelaire, Paul Cézanne, and Pablo Picasso. This comprehensive monograph closely examines the full breadth of Delacroix's career, including his engagement with the work of his predecessors, his fascination with the natural world, his interest in Lord Byron and the Greek War of Independence, and the profound influence of his voyage to North Africa in 1832. It brings to life his relationships with his contemporaries, ranging from the painters Pierre Narcisse Guérin and Antoine Jean Gros to Gustave Courbet, as well as his exploration of literary, historical, and biblical themes, his writing in personal journals, and his triumphant exhibition at the Exposition Universelle of 1855. Richly illustrated and encompassing the entire range and diversity of his art, from grand paintings to intimate drawings, Delacroix illuminates how this intrepid figure changed the course of European painting by heeding "a call for the liberty of art."
