Introduction to Sociology - George Ritzer 2017-09-15

This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories about "public" sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New "Trending" boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

The First American School of Sociology - Earl Wright II 2017-05-15

This book offers an original and rounded examination of the origin and sociological contributions of one of the most significant, yet continuously ignored, programs of social science research ever established in the United States: the Atlanta Sociological Laboratory. Under the leadership of W.E.B. Du Bois, this unit at Atlanta University made extensive contributions to the discipline which, as the author demonstrates, extend beyond 'race studies' to include founding the first American school of sociology, establishing the first program of urban sociological research, conducting the first sociological study on religion in the United States, and developing methodological advances that remain in use today. However, all of these accomplishments have subsequently been attributed, erroneously, to White sociologists at predominately White

institutions, while the Atlanta Sociological Laboratory remains sociologically ignored and marginalized. Placing the achievements of the Du Bois led Atlanta Sociological Laboratory in context, the author contends that American Jim Crow racism and segregation caused the school to become marginalized and ignored instead of becoming recognized as one the most significant early departments of sociology in the United States. Illuminating the sociological activities - and marginalization - of a group of African American scholars from a small African American institution of higher learning in the Deep South - whose works deserve to be canonized alongside those of their late nineteenth and early twentieth century peers - this book will appeal to all scholars with interests in the history of sociology and its development as a discipline, race and ethnicity, research methodology, the sociology of the south, and urban sociology.

Sociology - Margaret L. Andersen 2020

The Sacred Project of American Sociology - Christian Smith 2014-07-03

Counter to popular perceptions, contemporary American sociology is and promotes a profoundly sacred project at heart. Sociology today is in fact animated by sacred impulses, driven by sacred commitments, and serves a sacred project. Sociology appears on the surface to be a secular, scientific enterprise--its founding fathers were mostly atheists. Its basic operating premises are secular and naturalistic. Sociologists today are disproportionately not religious, compared to all Americans, and often irreligious. The Sacred Project of American Sociology shows, counter-intuitively, that the secular enterprise that everyday sociology appears to be pursuing is actually not what is really going on at sociology's deepest level. Christian Smith conducts a self-reflexive, tables-turning, cultural and institutional sociology of the profession of American sociology itself, showing that this allegedly secular discipline ironically expresses Emile Durkheim's inescapable sacred, exemplifies its own versions of Marxist false consciousness, and generates a spirited reaction against Max Weber's melancholically observed disenchantment of the world. American sociology does not escape the analytical net that it casts over the rest of the ordinary world. Sociology itself is a part of that very human, very social, often very sacred and spiritual world. And sociology's ironic mis-recognition of its own sacred project leads to a variety of arguably self-destructive and distorting tendencies. This book re-asserts a vision for what sociology is most important for, in contrast with its current commitments, and calls sociologists back to a more honest, fair, and healthy vision of its purpose.

Vincent N. Parrillo - Vincent N. Parrillo 2020-08-16

This book is a collection of many talks and writings of Vincent N. Parrillo, a professor of sociology, Fulbright scholar, and internationally renowned expert on immigration and intergroup relations. He gave dozens of invited lectures on three continents, frequently under the sponsorship of the U.S. State Department through its programs in the U.S. Information Agency (USIA) and the International Information Program (IIE). In representing the United States abroad, he was interviewed through numerous radio, television, and newspaper outlets, including Radio Free Europe and Voice of America. In addition, other speaking engagements came from universities in Asia, Canada, and Europe, some of these as the keynote speaker at international conferences. He was also a visiting scholar in Belgium, the Czech Republic, England, and Italy. Numerous U.S. newspapers also called upon him for his commentary on current events. His reputation, both in his homeland and abroad, primarily came from his journal articles and books that mostly centered on the themes of assimilation, diversity, or multiculturalism. As his public presentations and writings increased, they generated still more speaking invitations that in turn led to many being transcribed and printed in various scholarly publications. Many, but not all, of these writings have been included

here. A unique and multidimensional person, Parrillo expanded his horizons into other fields of endeavor. He wrote, narrated, and produced six television documentaries for PBS, so popular that they were aired repeatedly and DVD copies were in heavy demand. He drew from his insights into Ellis Island and immigration to write two historical novels, He also acted in, or directed, dozens of plays—comedies, dramas, and musicals—for a number of community theaters in northern New Jersey. This collection is an effort to capture at least a part of his insights and observations that he presented to a worldwide public.

Richard Schaefer, a leading scholar in the area of racial and ethnic relations, grew up in Chicago in the 1960's, at a time when neighborhoods were going through transitions in ethnic and racial composition.
