**Expo Sixty Seven** - Rhona Richman Kenneally

2010-01-01

Expo 67, the world's fair held in Montreal during the summer of 1967, brought architecture, art, design, and technology together into a glittering modern package. Heralding the ideal city of the future to its visitors, the Expo site was perceived by critics as a laboratory for urban and

architectural design as well as for cultural exchange, intended to enhance global understanding and international cooperation. This collection of essays brings new critical perspectives to Expo 67, an event that left behind a significant material and imaginative legacy. The contributors to this volume reflect a variety of interdisciplinary approaches and address Expo 67 across a broad

spectrum ranging from architecture and film to more ephemeral markers such as postcards, menus, pavilion displays, or the uniforms of the hostesses employed on the site. Collectively, the essays explore issues of nationalism, the interplay of tradition and modernity, twentieth-century discourse about urban experience, and the enduring impact of Expo 67's technological experimentation. Expo 67: Not Just a Souvenir is a compelling examination of a world's fair that had a profound impact locally, nationally, and internationally.

**Expo 67 and Its World** - Craig Moyes 2022-06-17  
In 1967, Montreal hosted Man and His World/Terre des hommes. By far the most successful cultural event ever produced in Canada, it was embraced by the public at the same time as intellectuals from Marshall McLuhan to Umberto Eco hailed it as a new type of exhibition

for a new global age. Because it was held where and when it was - on a man-made archipelago in the St Lawrence River seven years into Quebec's Quiet Revolution - Expo 67 also provided a prism through which the idea of the nation could be refracted and recast in original ways. Misunderstood by some scholars as an expensive exercise in official patriotism, while maligned by Quebec intellectuals as a crypto-federalist distraction from the real business of national independence, the fair nevertheless showcased Montreal as the de facto capital of a suddenly modern Quebec engaging with a late-modern world. Expo 67 and Its World proposes a reappraisal of the 1967 Montreal International and Universal Exhibition across a range of political, social, and cultural spaces: from the dispossession of Indigenous Peoples and what was then known as the Third World, through

the aspirations of Montreal, Quebec, and Canada, to the increasingly global ambit of youth culture, medicine, film, and finance. A new approach to understanding Expo 67, the collection challenges assumptions about the significance of the event to Canadian, Québécois, and First Nations history.

The World of Child Labor

- Hugh D. Hindman 2009  
"The World of Child Labor" details both the current and historical state of child labor in each region of the world, focusing on its causes, consequences, and cures. Child labor remains a problem of immense social and economic proportions throughout the developing world, and there is a global movement underway to do away with it. Volume editor Hugh D. Hindman has assembled an international team of leading child labor scholars, researchers, policy-makers, and activists to provide a comprehensive reference with over 220 essays. This volume first provides a current global snapshot with overview essays on the dimensions of the problem and those institutions and organizations combating child labor. Thereafter the organization of the work is regional, covering developed, developing, and less developed regions of the

world. The reference goes around the globe to document the contemporary and historical state of child labor within each major region (Africa, Latin and South America, North America, Europe, Middle East, Asia, and Oceania) including country-level accounts for nearly half of the world's nations. Country-level essays for more developed nations include historical material in addition to current issues in child labor. All country-level essays address specific facets of child labor problems, such as industries and occupations in which children commonly work, the national child welfare policy, occupational safety regulations, educational system, and laws, and often highlight significant initiatives against child labor. Current statistical data accompany most country-level essays that include ratifications to UN and ILO conventions,

the Human Development Index, human capital indicators, economic indicators, and national child labor surveys conducted by the Statistical Information and Monitoring Program on Child Labor. "The World of Child Labor" is designed to be a self-contained, comprehensive reference for high school, college, and professional researchers. Maps, photos, figures, tables, references, and index are included.

**Sweetie 2.0** - Simone van der Hof 2019-07-06  
This book centres on Webcam Child Sex Tourism and the Sweetie Project initiated by the children's rights organization Terre des Hommes in 2013 in response to the exponential increase of online child abuse.

Webcam child sex tourism is a growing international problem, which not only encourages the abuse and sexual exploitation of children and provides easy access to child-abuse images, but which is also a crime involving a relatively low risk for offenders as live-streamed webcam performances leave few traces that law enforcement can use.

Moreover, webcam child sex tourism often has a cross-border character, which leads to jurisdictional conflicts and makes it even harder to obtain evidence, launch investigations or prosecute suspects.

Terre des Hommes set out to actively tackle webcam child sex tourism by employing a virtual 10-year old Philippine girl named Sweetie, a so-called chatbot, to identify offenders in chatrooms. Sweetie 1.0 could be deployed only if police officers participated in chats, and thus was limited in dealing with the large number of offenders

With this in mind, a more pro-active and preventive approach was adopted to tackle the issue. Sweetie 2.0 was developed with an automated chat function to track, identify and deter individuals using the internet to sexually abuse children. Using chatbots allows the monitoring of larger parts of the internet to locate and identify (potential) offenders, and to send them messages to warn of the legal consequences should they proceed further. But using artificial intelligence raises serious legal questions. For instance, is sexually interacting with a virtual child actually a criminal offence? How do rules of criminal procedure apply to Sweetie as investigative software? Does using Sweetie 2.0 constitute entrapment? This book, the outcome of a comparative law research initiative by Leiden University's Center for Law and Digital Technologies (eLaw) and the Tilburg

Institute for Law, Technology, and Society (TILT), addresses the application of substantive criminal law and criminal procedure to Sweetie 2.0 within various jurisdictions around the world. This book is especially relevant for legislators and policy-makers, legal practitioners in criminal law, and all lawyers and academics interested in internet-related sexual offences and in Artificial Intelligence and law. **Walk a Mile in My Shoes**

- Danette Jaeb  
2013-11-13

Can you imagine going to kindergarten for the first time at the age of 13, living in a shack with eight other children and sleeping on a small foam mattress on a dirt floor? Or selling your clothes and searching the streets for returnable bottles so you can feed your children? Or being abandoned by everyone in your family when you are a toddler because they think you have a disease they don't understand and that they fear? Or having twelve children because you were an only daughter and your mother wanted lots of grandchildren to work

endless hours on the farm? These are the realities of some women and children who live in poverty in the former township of Katutura, a suburb of the capital city of Windhoek, in Namibia. This book shares not only their stories and the stories of others, but it shows how one small

organization, Family of Hope Services, is able to uplift these children and women and to give them a future. Walk a Mile in My Shoes is a fund-raising book with 100% of all proceeds from sales going to educate, feed, and to empower orphans and vulnerable children in Katutura. By buying this book you will empower a child and contribute to his or her future and hope. Reading this book will be your blessing; a realization of the good fortune in your own life."e;When I first met Abigail Bachopi and her team, and began to learn about Family of Hope Services, I found myself deeply moved by the vision and wisdom with

which they run their Centre. They see clearly what is required to foster dignity, self-confidence, and not just an impression of hope but the real possibility that all of the children and youth who come through their doors will experience a more fulfilling life. I have witnessed the life-changing results of their programming over the past few years. Everything they undertake is done with the utmost integrity and honesty. They inspired me to share some of their stories so that others could see the challenges they face and to see the good work that they do. It is truly humbling to be in the company of these generous people with such big hearts, and incredible insight."e; Danette Jaeb, Author *Man and His World, Expo 67 - 1968*

Urban Playground - Tim

Gill 2021-03-03  
What type of cities do we want our children to grow up in? Car-dominated, noisy, polluted and devoid of nature? Or walkable, welcoming, and green? As the climate crisis and urbanisation escalate, cities urgently need to become more inclusive and sustainable. This book reveals how seeing cities through the eyes of children strengthens the case for planning and transportation policies that work for people of all ages, and for the planet. It shows how urban designers and city planners can incorporate child friendly insights and ideas into their masterplans, public spaces and streetscapes. Healthier children mean happier families, stronger communities, greener neighbourhoods, and an economy focused on the long-term. Make cities better for everyone.

*The Tourism We Do Not Talk About. A Study on Sexual Exploitation of Children in Tourism.*

*with a Focus on  
Argentina and Brazil* -  
Alana Hartmann  
Matschulat 2018  
Countries facing  
substantial  
socioeconomic problems  
where tourism acts as an  
engine for development  
often become vulnerable  
to the phenomenon known  
as „sex tourism“. South  
America is a region that  
shows a high incidence  
of commercial activities  
of this kind, which also  
hides many forms of  
exploitation, sex trade  
of children being one of  
the most serious. What  
leaves room for its  
occurrence often are the  
gaps present in the  
legislations, along with  
the obsolete  
applicability of such  
laws, or even our  
indifference as actors  
capable of provoking  
social change. This book  
contains a study that  
seeks to identify the  
origins of the  
occurrence and the legal  
apparatus available to  
deal with the incidence  
of commercial sexual  
exploitation of children  
in the region, focusing  
on Brazil - as a pioneer

- and Argentina - a  
recent country dealing  
with such an issue.  
Through an analysis of  
the evolution of the  
legal framework in both  
countries and the  
international mechanisms  
the book is also an  
invitation to the reader  
to reflect on this  
unmentioned side of  
tourism.

**Beyond Market Value** -

Annette Campbell White  
2019-09-03  
Beyond Market Value chronicles Annette Campbell-White's remarkable life, from a childhood spent in remote mining camps throughout the British Commonwealth, where books created an imaginary home; to her early adulthood in London, where she first discovered a vocation as a book collector; to Silicon Valley, where she built a pioneering career as a formidable venture capitalist. She

recalls the impulsive purchase of the first book in her collection, T. S. Eliot's A Song for Simeon, and her pursuit of rare editions of all one hundred titles listed in Cyril Connolly's The Modern Movement. Campbell-White's collecting and career peaked in 2005, when she acquired the last of the Connolly titles and was first named to Forbes' Midas List, the annual ranking of the most successful dealmakers in venture capital. In 2007, out of concern for their preservation, Campbell-White rashly sold the Connolly titles she had spent more than twenty years assembling, leading to a new appreciation of what remained of her collection and, going forward, a broader focus on collecting modernist letters, manuscripts, and ephemera. Beyond Market Value is both a loving tribute to literary collecting and a telling account of the challenges of being a woman in the male-

Antoin E. Murphy 1987-03-12  
This is a study of Irish-born Richard Cantillon, eighteenth century banker and economist whose *Essai sur la Nature du Commerce en General* (1755), published twenty-one years after his death, remains a significant contribution to the development of monetary theory. Cantillon's life was an exciting story of

involvement in high-level international banking, and speculation in foreign exchanges, commodities and stocks at the time of the South Sea Bubble. His death occurred in mysterious circumstances.

**Introducing Forced Migration** - Patricia Hynes 2021-03-31

At a time when global debates about the movement of people have never been more heated, this book provides readers with an accessible, student-friendly guide to the subject of forced migration. Readers of this book will learn who forced migrants are, where they are and why international protection is critical in a world of increasingly restrictive legislation and policy. The book outlines key definitions, ideas, concepts, points for discussion, theories and case studies of the various forms of forced migration. In addition to this technical grounding, the book also signposts further

reading and provides handy Key Thinker boxes to summarise the work of the field's most influential academics. Drawing on decades of experience both in the classroom and in the field, this book invites readers to question how labels and definitions are used in legal, policy and practice responses, and to engage in a richer understanding of the lives and realities of forced migrants on the ground. Perfect for undergraduate and postgraduate teaching in courses related to migration and diaspora studies, *Introducing Forced Migration* will also be valuable to policy-makers, practitioners, journalists, volunteers and aid workers working with refugees, the internally displaced and those who have experienced trafficking.

**Marquises : Si lointaine**

**Terre des Hommes** - Loïc Josse 2021-06-11

Parce que pour connaître les peuples, il faut d'abord les comprendre. Les îles Marquises portent la marque d'hommes dont le peuple a failli disparaître, rompus à préserver leur culture et leur originalité. La symphonie turquoise des lagons polynésiens s'arrête ici, au pied de ces fascinants contreforts montagneux qui, jadis, hypnotisèrent Paul Gauguin et Jacques Brel. Les Marquises ne sont pas qu'une terre paradisiaque. Leur relief est rude. Leurs vallées sont hors d'atteinte. Les Marquisiens ont combattu pour voir enfin

reconnues leurs racines, source de leur exceptionnelle résilience et de leur force pour surmonter les meurtrissures de leur passé. Ce petit livre n'est pas un guide. Il raconte les Marquises à travers l'histoire, les témoignages et les livres. Il tend aux Marquisiens le miroir de leur immémoriale solitude. Parce que pour comprendre ce peuple insulaire et fier, l'écouter est la première des règles. Un grand récit suivi d'entretiens avec Pierre et Marie-Noëlle Ottino-Garanger, Debora Kimitete et Ben Teikitoutoua. Un voyage historique, culturel et linguistique pour mieux connaître les forces marquisiennes. Et donc mieux les comprendre. À PROPOS DE L'AUTEUR Loïc Josse a longtemps été libraire à Saint-Malo. Passionné de mer et de voyage, auteur, il est un conférencier régulier sur l'Aranui, le cargo qui relie Tahiti aux îles Marquises.
