The Saxophone - Stephen Cottrell 2013-02-05

In the first fully comprehensive study of one of the world's most iconic musical instruments, Stephen Cottrell examines the saxophone's various social, historical, and cultural trajectories, and illustrates how and why this instrument, with its idiosyncratic shape and sound, became important for so many different music-makers around the world. After considering what led inventor Adolphe Sax to develop this new musical wind instrument, Cottrell explores changes in saxophone design since the 1840s before examining the instrument's role in a variety of contexts: in the military bands that contributed so much to the saxophone's global dissemination during the nineteenth century; as part of the rapid expansion of American popular music around the turn of the twentieth century; in classical and contemporary art music; in world and popular music; and, of course, in jazz, a musical style with which the saxophone has become closely identified.

Playing the Changes on the Jazz Metaphor - Morris B. Holbrook 2008

Playing the Changes on the Jazz Metaphor proposes an expanded view of the jazz metaphor in a broadened perspective that embraces a wide range of possibilities in organizational, management, and marketing-related themes. This monograph presents a new Typology of Jazz

Musicians based on different kinds of artistic offerings. This typology will combine three key distinctions or dimensions to construct a twelve-fold classification that - when extended to the sphere of organizational behavior and business strategy as a Typology of Management and Marketing Styles - will shed light on different ways in which the jazz metaphor relates to organizational design, business practice, management skills, and marketing opportunities. In order to describe these typologies, the author examines important aspects of a first-level jazz metaphor as it relates to organizational issues involved in shaping the jazz improvisation into a form of collective collaboration. This is followed by attention to a second-level linguistic metaphor based on viewing jazz as a kind of language at the foundation for a collaborative conversation.

The Dakotas - 2009-11

Melody Bober's The Dakotas visits both North and South Dakota in three movements. In the opening movement, "The Great Plains," majestic chords, sixteenth-note runs and a soaring melody recreate the sweeping vistas of this vast grassland area that is found in both states. In the second movement, "Heirlooms and Lace," a lyrical and expressive melody with lush accompaniment recreates the sense of loss and longing when families moved to the new Dakota Territory created in 1861 and left behind precious belongings. The final movement, "Badlands Rough

Rider," brings the suite to an energetic close. The Badlands regions of North and South Dakota are represented by this lively piece that shows the style and flair of a rough and tough horse and rider in this desolate region.
