The Austrian Academy of Sciences - Herbert Karner 2007

The building intended to house the University of Vienna was built in 1753/1755 according to a plan drawn up by Jean Nicolas Jadot, an architect from Lothringen. The opening celebrations, presided over by Emperor Francis I and Empress Maria Theresia, took place in April 1756. In 1857 the building was presented to the Imperial Academy of Sciences - the Austrian Academy of

Sciences since 1945 - which had been founded by Emperor Ferdinand I in 1846. The building site for the new assembly hall of the university was not chosen by chance, but was located in that part of town in which the university buildings had been since the late 14th century. The urban setting and the narrow building area called for an unusual design for this "Neue Aula". The narrow side, facing the square, needed to be emphasised by means of its main facade, which now competed with the previously dominant front of the University Church of the Jesuits as a standout feature, thus leading to a reordering of the visual framework of the square. Such a weakening of the sacred context of the square was symbolic of the reorganisation of the course of academic studies at the university, made manifest through the erection of the Neue Aula and which was taken out of the hands of the

"Society of Jesus" in successive steps lasting until 1759. If at the beginning the main idea was to set up apartments in the new building for virtually all of the professors of the schools of law and medicine, their preferential treatment can be understood when one considers that particularly the practically oriented schools (law and medicine) were affected by the university reforms of the time. The driving force behind the speedy erection of the building was the Chancellor of the University of Vienna, Archbishop Johann Joseph Graf Trautson, whom Maria Theresia had entrusted with all building projects in March of 1753. No later than February 1754, the unification of the four schools in the new building was placed on the agenda, thus stressing the common identity of the academic disciplines - a point of view that was convincingly taken into

account in the frescoes by Gregorio Guglielmi (1755) that decorate the "Festsaal" [great hall]. As far as can be inferred today from the written and pictorial documents, the erection of the new university building should in no way be interpreted as an isolated undertaking. In the final analysis it was part of a comprehensive plan to give the university quarter, which had been located there since the Middle Ages, a clearer structure and a new definition within the concept of town planning. This publication offers a detailed study of the history and the design and decoration of the former assembly hall of the university - today the main building of the Austrian Academy of Sciences - and a description of the genesis and function of this building, all based on a large number of written and pictorial sources.

Pietas Austriaca - Anna  
Coreth 2004  
Pietas Austriaca is a  
path-breaking study of  
the relationship between  
religious beliefs and  
practices and the

Habsburg political  
culture from the end of  
the medieval period to  
the early twentieth  
century. In this seminal  
work, originally  
published in 1959, Anna  
Coreth examines the ways  
that Catholic beliefs in  
the power of the  
Eucharist, the cross,  
the Virgin Mary, and  
saints were crucial for  
the Habsburg ruling  
dynasties in Austria and  
Spain. Coreth analyzes  
how leading Habsburg  
rulers in the early  
modern period, such as  
Rudolf I; Ferdinand I,  
II, and III; Maria  
Theresa; and Joseph II,  
used Catholic  
sacraments, rituals, and  
symbols to create a  
sense of identity and  
political purpose for  
their far-flung  
possessions in Europe.  
She further demonstrates  
how this Catholic  
culture drew on earlier  
models of pious Catholic  
rulers, especially the  
memory of Rudolph, and  
discusses the importance  
of this particular brand  
of Catholic piety in the  
confrontation with  
Protestantism in the

Counter-Reformation period and in the encounter with the Muslim Turkish Empire. Coreth extends her study to discuss the myriad ways that this religious culture continued to influence Austrian society in the nineteenth and twentieth centuries. *Pietas Austriaca* is a tour de force that combines expert social, cultural, gender, and intellectual analysis of the political and religious landscape of one of Europe's most important empires and leading dynastic houses. "Heil dem Bürger des kleinen Städtchens" - Carsten Behle 2002-01-01 Proceeding from an examination of basic tenets in systems theory, the author sets out to review received assumptions about the history of idyllic literature in the 18th century. Consideration of the social theories underlying the idyll as a literary genre casts a different light on the source material from Geßner to Goethe,

revealing that in Enlightenment poetics the idyll was accorded the status of a temporary enclave of contemplative and harmonious sociability without querying the binding nature of the overall framework of society.

**Academic Charisma and the Origins of the Research University** - William Clark 2008-11-15 Tracing the transformation of early modern academics into modern researchers from the Renaissance to Romanticism, *Academic Charisma and the Origins of the Research University* uses the history of the university and reframes the "Protestant Ethic" to reconsider the conditions of knowledge production in the modern world. William Clark argues that the research university—which originated in German Protestant lands and spread globally in the nineteenth and twentieth centuries—developed in response to market forces and bureaucracy,

producing a new kind of academic whose goal was to establish originality and achieve fame through publication. With an astonishing wealth of research, *Academic Charisma and the Origins of the Research University* investigates the origins and evolving fixtures of academic life: the lecture catalogue, the library catalog, the grading system, the conduct of oral and written exams, the roles of conversation and the writing of research papers in seminars, the writing and oral defense of the doctoral dissertation, the ethos of "lecturing with applause" and "publish or perish," and the role of reviews and rumor. This is a grand, ambitious book that should be required reading for every academic.

The novellas, fables, histories, aphorisms, parables and riddles in this collection are brought to life by the playful imagery of the modernist artist and Bauhaus figure Paul Klee.

**Of Cosmogonic Eros** -  
Ludwig Klages 2018

*Wallenstein's Tod / Death of Wallenstein* - Friedrich Schiller 2004  
This is the third and final part of the Wallenstein trilogy by German playwright and mastermind Friedrich Schiller. The work as a whole produced a profound impression, and it is certainly Schiller's masterpiece in dramatic literature. He brings out with extraordinary vividness the ascendancy of Wallenstein over the wild troops whom he has gathered around him, and at the same time we are made to see how the mighty general's schemes must necessarily end in ruin, not merely because a plot against him is skilfully prepared by vigilant enemies, but because he himself is lulled into a sense of security by superstitious belief in

his supposed destiny as revealed to him by the stars. Wallenstein is the most subtle and complex of Schiller's dramatic conceptions, and it taxes the powers of the greatest actors to present an adequate rendering of the motives which explain his strange and dark career. The love-story of Max Piccolomini and Thekla is in its own way not less impressive than the story of Wallenstein with which it is interwoven. This is the bilingual edition of this literary masterpiece including the English and German versions of the play.

Die Ahnfrau (Classic Reprint) - Franz Grillparzer 2017-11-20  
Excerpt from Die Ahnfrau IN presenting their edition of Die Aanfrau to the school public, the editors wish to point out that this first and justly famous work of Grillparzer has never before been edited for English-speaking pupils, although recommended in the Report of the Com mittee of Twelve of the Modern Language Association of America It is thought that this play will be found interesting to pupils in the third high school or second college year because of the dramatic intensity of the action and the rapidity with which the play hastens along; while the simple sentence structure and the inherent poetic value of the language will charm the student without confusing him. Peculiar Language - Derek Attridge 2004  
First published in 1988, this classic text is established as one of the most important discussions of the language of literature. Re-issued as a result of recent critical interest, this edition includes a new preface by the author.  
Legislations - Geoffrey Bennington 1994-05-17  
Written by Jacques Derrida's leading English-language translator and collaborator, this invigorating and intelligent volume displays the continuing power and versatility of deconstruction, presenting it as the most important intellectual movement of our time. Geoffrey Bennington develops a devastating critique of many attempts to clarify or criticize deconstructive thought, and elaborates its potential through original readings of, amongst others, Rousseau, Kant, Hegel, Freud, De Man and

Lyotard. While he is principally concerned with a defence of deconstruction in fields where it has long since demonstrated its critical prowess, Bennington also emphasizes its political dimension.

Deconstruction is a political thinking, he argues, because it entails an irreducible opening to alterity (if only in the form of reading); and this opening, where the other always might arrive as an event on the frontier of my experience, is a place for legislation.

Yolando P. Saavedra

#### **Insolubilia -**

Thomas Bradwardine 2010

The fourteenth-century thinker Thomas Bradwardine is well known in both the history of science and the history of theology. The first of the Merton Calculators (mathematical physicists) and passionate defender of the Augustinian doctrine of salvation through

grace alone, he was briefly archbishop of Canterbury before succumbing to the Black Death in 1349. This new edition of his *Insolubilia*, made from all thirteen known manuscripts, shows that he was also a logician of the first rank. The edition is accompanied by a full English translation. In the treatise, Bradwardine considers and rejects the theories of his contemporaries about the logical puzzles known as "insolubles," and sets out his own solution at length and in detail. In a substantial introduction, Stephen Read describes Bradwardine's analysis, compares it with other more recent theories, and places it in its historical context. The text is accompanied by three appendices, the first of which is an extra chapter found in two manuscripts (and partly in a third) that appears to contain further thoughts by Bradwardine himself. The second contains an

extract from Ralph  
Strode's *Insolubilia*,  
composed in the 1360s,  
repeating and enlarging  
on Bradwardine's text;  
and the third consists  
of an anonymous text  
that applies  
Bradwardine's solution  
to a succession of  
different insolubles.

1927-1934 - Walter  
Benjamin 1996

**A Pilgrim's Journey** -  
Joseph N. Tylanda  
2009-09-03  
Saint Ignatius of Loyola  
was a man who saw above  
and beyond his century,  
a man of vision and calm  
hope, who could step  
comfortably into our era  
and the Church of our

time and show us how to  
draw closer to Christ.  
Ignatius' autobiography  
spans eighteen very  
important years of this  
saint's 65-year  
life...from his wounding  
at Pamplona (1521)  
through his conversion,  
his university studies  
and his journey to Rome  
in order to place his  
followers and himself at  
the disposal of the  
Pope. These critical  
years reveal the  
incredible  
transformation and  
spiritual growth in the  
soul of a great saint  
and the events that  
helped to bring about  
that change in his life.  
This classic work merits  
a long life. Apart from  
providing a splendid  
translation of the  
saint's original text,  
Father Tylanda has  
included an informative  
commentary which enables  
the modern reader to  
grasp various allusions  
in the text-and to gain  
a better view of a  
saintly man baring his  
soul.
