Around Damascus Township - Barbara Davis Dexter 2012

Damascus Township was formed in 1798, though the first recorded settlers arrived in 1755 at Cushetunk, as the area was called by the Lenni Lenape Indians. Skirmishes and battles between white settlers and other Indian tribes were fierce, with homes burned and lives lost. When peace was restored, other settlements were created and dotted the countryside. Some of the notable surnames in the area were Skinner, Thomas, Conklin, Tyler, Shields, and Bush, with each family lending a valuable contribution to the community. Images of America: Around Damascus Township is a glimpse into the past, revealing the founding families and their descendants, why they stayed, how they survived, and what they enjoyed.

Feltness - Stephanie Springgay 2022-09-23

4724485-Funny-Awards-For-High-School-Students

Stephanie Springgay's concept of feltness—which emerges from affect theory, queer and feminist theory, and feminist conceptions of more-than-human entanglements—is a set of intimate practices of creating art based on touch, affect, relationality, love, and responsibility. In this book, she explores how feltness is a radical pedagogy that can be practiced with diverse publics, including children, who are often left out of conversations about who can learn in radical ways. Springgay examines the results of a decade-long project in which researchers, artists, students, and teachers participated in events in North American elementary, secondary, and postsecondary institutions. In projects that ranged from children learning to be critics and artists to university students experimenting with building “a public” through art, participants blended participatory art creation with academic research to address social justice issues. Springgay shows how feltness can redefine who is imagined to be capable of complex feeling, experiential learning, embodied practice, social engagement, and intimate care. In this way, feltness fosters learning that disrupts and defamiliarizes schools and institutions, knowledge systems, values, and the legibility of art and research.

Having Fun with PBIS: Free or No-cost Reinforcers for Appropriate Behavior - Laura A. Riffel, Ph.D.

2016-09-13

This book is based on twelve years of research. So many schools were focusing on tangible incentives with a PBIS program. Dr. Riffel felt that was not truly what students wanted so she started interviewing students and writing down their responses. As she hypothesized, only one student in twelve years has named anything tangible. This book focuses on the following items described by students: 1) privileges, 2) attention, 3) leadership, 4) praise, 5) assistance, 6) touch, 7) escape and 8) supplies. Although no student named supplies as a choice for reinforcement, the authors felt there were many students who could not afford the normal school supplies. The authors felt the students would feel better if they could "purchase" the school items with "gotcha" tickets rather than have handouts. This has proven to be the case in many schools.

High School Memoirs: a Journey in Surrealism - Sean C. Cusack 2007-11-14

Synopsis High School Memoirs: A Journey in Surrealism is a tear-jerking, hilarious ride for a less-than-ordinary High School student who battles bullies and librarians to become King of the Classroom. Set in a small Catholic High School on the north side of Chicago, author Sean Cusack takes us on a surrealistic journey through four fun-filled years of triumph and tragedy in this unique epic. The journey begins with Sean Cusack entering St. Bernadin High School in August of 1995 as a very young and innocent Freshman student. He focuses on several life changing experiences in his infant days of High School that change him forever. Innocence Lost traces the steps Sean Cusack took that ultimately lead him on a path toward frequent battles with students and the school faculty and Administration. As a Sophomore, The Ride most certainly takes us on a ride through fights, vandalism, and verbal debacles that continued to steer the vengeful ship that Sean Cusack had been building since a Freshman. He now had become the ships Captain as it set sail. The Ride takes us through many strange and mysterious encounters that add more of a surrealist element to this budding melodrama and comedic satire. Sean Cusacks roses bud Junior Year in Forever Remembered, when he becomes a charismatic hero and leader of a rebellious group of students that pillage and plunder the school and faculty in wild and zany antics. Forever Remembered embodies the humorous and more imaginative side of Sean Cusack as the journey through High School becomes more surreal. Senior Year wraps up the trials and tribulations that Sean Cusack had endured thus far in his High School experience culminating into one person after years of battling the Defunct Administration. He is molded by evil as the rebellious youth becomes totally hellbent on crippling the school. In the end, he loses friends, respect from teachers, but most of all, he loses faith in his cause, yet ends his High School experience with a fantastical and triumphant bow. Sean Cusack proves that not all High School stories are the same in this turbulent and chaotic autobiography. High School Memoirs: A Journey in Surrealism chronicles a strange and unique history that is truly a step above the rest.

Please Lord, Spare Me the Full Moon - Deborah Hendricks Pierce 2009-08-13

When I began teaching in the early seventies, I knew I was in it for the long haul. I knew this was my career, my calling, the fulfillment of a childhood dream. From as far back as my memory will take me, I had a longing to be a teacher. It never entered my mind to spend my life in any other way than in front of a classroom. This was cemented with I entered the first grade and loved my teacher so much I wanted to be just like her. Im sure I lost no time telling this teacher what I wanted to be when I grew up. So she gave me little opportunities

to practice teaching. When someone couldnt tie his shoes, she would ask me to teach him how. If a student was struggling, shed place me beside him to help. I was so proud! Any opportunity to teach was just taking me one inch nearer my destination. As I progressed through my school years, being assigned to help one of the slower students was an honor for me. I was fortunate that those were the years teachers were absolutely dedicated to their calling and to their students. Those were the days when teaching was one of the few professions women could enter. And to get there usually meant someone was sacrificing for them to attend school. Completing their education was a culmination of hard work and determination. Teachers were respected and highly regarded by the public. All that combined, produced good teachers who were extremely proud to stand before children and be the planters of knowledge. As a child, to be like any one of them was my burning desire. Never losing sight of my goal, I progressed through the grades. I may not have been the most academic kid on the block, but I was responsible. Teachers entrusted me with duties, jobs, and tutoring. In twelfth grade I was put in charge of a study hall! Upon graduation, I was one step closer to being a teacher. I finished college early, and finally was a teacher. From the beginning of my days in the classroom, I wrote down funny things kids would say and do, because I just didnt want to forget them. As I moved from pre-school to kindergarten, then middle or high school, I had quite a treasure trove. After retiring, I reflected upon my time in the classroom and decided maybe my friends were right in telling me I should write a book. I knew it would be fun to share my stories and experiences. From time to time, I would get out my old brown tattered notebook and write. And as I got older and older, I decided if I am going to ever write a book, I need to get moving. I knew Id rather write it myself, than to die and have someone run across my notebook and try to write my story. Thus, a book was born! I delight in telling my story. Some pages will make you cry. Others will make you laugh. I dont begin to pretend I was the perfect teacher. This book does not allude to that. It paints a portrait of the inner workings of a classroom in todays world. It conveys the fact that when teaching children with special needs, subject matter sometimes takes a back seat. They came to us with such baggage. When I stop and think about the troubles those children carried on their shoulders, I marvel at how they managed to rise in the mornings and get to school. As teachers, we had to look beyond the language and behavior in order to help these people. Our role as teachers extended way beyond our training. These were not the children of yesteryear. Most of them were products of drug-ridden homes and streets, absentee parents, video games, violence on television and movies, and absolute poverty. These influences rode on the bus with them and traveled right into the classroom where we were expected to teach, counsel, and police. That may not have been the teaching of my childhood dreams, but somehow I saw the need to know what my priorities had to be each and every day. Given all the things I saw, heard, and dealt with, I dont believe I

could ever have returned to a regular classroom. It woul
