[Effective Leadership for School Improvement](#) - Alma Harris 2013-09-05

This book takes up the challenge of finding an alternative method of leadership in educational contexts, and looks at how this can help achieve sustained improvement in schools. The authors acknowledge that there are no simple solutions to school improvement. They argue that the effective leaders of the future will be those who are able to share responsibility, build positive relationships and offer stakeholders - teachers, parents and students - an opportunity to work together to improve their schools. The book is based around four key areas of concern: the changing context of leadership, leadership and school improvement, building leadership capacity, and future direction and implications. In each section, the authors discuss current theories and issues, and put forward alternative ideas and perspectives. This important book will make valuable reading for headteachers, principles, deputies and other senior teachers, particularly those undertaking leadership qualifications and training. It will also be of interest to postgraduate students and school governors.

Teaching by Heart - Thomas J. DeLong 2020-01-14

The best teachers are leaders, and the best leaders are teachers. *Teaching by Heart* summarizes the author's key insights gained from more than forty years of teaching and managing. It illustrates how teachers can both lift people up and let them down. It proposes that the best teachers are also leaders, and the best leaders are also teachers. In examining how to lead and teach, renowned Harvard Business School professor Thomas J. DeLong takes the reader inside his own head and heart. He notes that, as teachers, we often focus more on our inadequacies and missteps than on our strengths and unique talents. He explains why this is so by dissecting and analyzing his own experiences—using himself as a case study. The book's goal is to help readers learn about the intricacies of teaching and managing, and to impart lessons about how teachers can create a unique teaching atmosphere. To do this, the author analyzes the process of creating a curriculum, preparing for an eighty-minute class, managing the fifteen minutes before class begins, and evaluating the nature of the teaching experience after the session concludes. Along the way, he connects specific classroom behaviors with leadership issues—in organizations, in teams, and in personal relationships. He also asks—and answers—some provocative questions, such as: What happens on multiple levels when I teach or lead—with me, students, or professionals? What am I thinking and feeling as I process what students are thinking and feeling? How are my internal conversations affecting how I teach and lead? How do I manage my biases, including having "favorite" students? To what extent can I use teaching methods in the arena of management? Throughout *Teaching by Heart*, DeLong discusses why empathy and authenticity matter. When teachers embrace this mindset, students have the opportunity to have a unique learning experience. Teachers and managers will learn how to create moments of transformation for students. Whether you're a university professor, a student, a business leader, or just someone fascinated by teaching, this book will instruct, entertain, and—hopefully—inspire.

The Mantle Leadership Teacher's Guide and Student Workbook - Jim Biscardi 2009

This book can be used by both teachers and students. It is designed to be used in conjunction with the textbook, *The Mantle: How To Dress For Success In Leadership* by Jim Biscardi Jr., published by Mantle Ministries in 2009. This Guide and Workbook provides a set of questions for the students in the Student Workbook Section and the corresponding answers in the Teachers Guide and Answer Sheet Section. This arrangement facilitates both a self-study course as well as a classroom teaching setting. As Elijah anointed Elisha to take his place, similarly, Jesus anoints every believer. As Elijah cast his mantle upon Elisha, so Christ casts the mantle of the Holy Spirit upon us. Just as Elisha, who wanted a double portion of Elijah's spirit, was required to keep his eyes upon Elijah, likewise we go in the power of the Holy Spirit, and we keep our mind stayed upon our great High-Priest, Servant-Leader, who is the Lamb upon the throne. While we have the Holy Spirit mantle, God leads us into the desert of learning as He did Christ, Moses, Paul and other great biblical heroes who became servant-leaders. The Great Fisher of Men leads us often into deep waters where only Christs outstretched,

nail-driven hands provide the strength to keep serving others. We learn that it was not the nails that held Christ to the cross. Through it all, He presses into us the servant-leader qualities of self-sacrifice, faithfulness, endurance, patience and love. King-priest MANTLE leadership excellence may be difficult to attain and require our utmost attention and energy. It will certainly go against our human nature. Its value may not be recognized at first just as Christ was not recognized by the religious leaders of His day. The downward spiral, however, of our vital enterprises, speaks loudly that we most certainly must continuously strive to improve the quality of our leadership performance. The other mantles being worn by leaders are frayed and unraveling. What greater goal is there for a workplace manager, pastor, deacon, teacher, parent, coach, leader than to follow in the path of the Master Manager, King of kings and Lord of lords, who is also the Lamb upon the throne? This book is designed to help us discover and emulate one of the greatest untapped riches in Christ - a way to lead people - a powerful leadership style that He left us as a legacy of His ministry here.

The Leader in Me - Stephen R. Covey 2012-12-11

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Leadership education is responding to these challenges by centering cultural relevance, critical pedagogies, and important issues of identity, capacity, and efficacy in the preparation of emerging learners. Meeting the global demand for social justice requires thoughtful, innovative, and engaged praxes by all leadership educators. Alongside a cadre of diverse authors, we intend to shift the mindset of leadership education toward forward-thinking and holistic solutions, empowering our students to build a fairer and more equitable world for themselves and others. *Shifting the Mindset: Socially Just Leadership Education* widens and deepens the discourse begun in *Changing the Narrative: Socially Just Leadership Education*. Our contributors' ideas occur into two parts: the first examines student social identities otherwise underrepresented in existing leadership education literature. The second portion illuminates key factors of leadership learning contexts frequently under- or unattended in both leadership education and social justice education. Every chapter includes critical considerations and practical guidance for educators striving to meet the leadership demands of an increasingly unjust world. Taken together, these thinking, planning, and acting tools augment the potential of educators who are preparing leaders under uncertain conditions. We envision this book as an essential element of the leadership learning toolkit of socially just leadership educators at all levels, between contexts, and across varying amounts of education, influence, and experience. You are needed now more than ever before. We, once again, invite you to our ongoing fight for fairness, freedom, and a brighter future for all.

Mentorship, Leadership, and Research - Michael Snowden 2018-08-27

This insightful volume details the implementation and challenges of the Teaching Excellence Framework (TEF), developed in the UK to ensure equal access to higher education for all social classes. It posits that a modern higher education institution requires a robust set of mechanisms

- specifically mentorship, leadership, and research - to create high-quality teaching and learning. Noted contributors pose and answer key questions about the TEF in such areas as solution-focused teaching, mentoring for the job market, and social science curriculum development, using best practice examples in the field. These ideas and strategies carry great potential to improve the caliber of teaching and learning in universities, and with it, students' social mobility. Among the topics covered:

- Why have mentoring in universities? Reflections and justifications.
- Working with students as partners: developing peer mentoring to enhance the undergraduate student experience.
- The employers' reach: mentoring undergraduate students to enhance employability.
- Learn it and pass it on: strategies for educational succession.
- Mentoring mentees to mentor.
- Interdisciplinarity in higher education: the challenges of adaptability.

Mentorship, Leadership, and Research will play a pivotal role in UK higher education since currently there is scant academic literature on practical tools to help universities to succeed at the TEF. A resource with international implications, it should interest sociologists of education and professionals in business strategy and leadership, social work, and community development. Michael Snowden is a Senior Lecturer in Mentoring Studies at the University of Huddersfield, UK. Jamie P. Halsall is a Reader in Social Sciences at the University of Huddersfield, UK. "Given the recent introduction of the Teaching Excellence Framework (TEF) in the United Kingdom, this timely book outlines effective practices to help earn the "Gold" standard. While considering TEF within the current climate of academic competition and critical evaluation, a diverse group of experts lay out why mentoring is one highly effective answer to the TEF standards and without compromising productivity in other service and research agendas. This book is a must read for academics and higher learning administrators alike." Leda Nath, Professor of Sociology, University of Wisconsin
