Air Force Recruitment Test [Group 'X' (Technical) Trade] - Dr. Lal & Jain 2010-09

Wasteland - Kristin Keppler 2021-06-15
Danielle Clark is done with the Resistance. After years of leading a relentless charge against the National Armed Forces, she has nothing left to give. Her brother Lucas in tow, Dani leaves the frontlines for the solitude of the wastelands, content to start a new life as a scavenger. Dani thought she'd finally found peace until the general's daughter, Katelyn Turner, shows up on her doorstep and brings the fight right back to her. Now Dani has to decide what to do about Kate, ranking member of the NAF, a once-sworn enemy...and a woman she can't keep out of her head. The growing

spark of attraction forces Dani into an impossible choice between her newfound life and Kate's fate. She must act quickly or risk losing everything.

Animal Biodiversity and Conservation in Brazil's Northern Atlantic Forest - Gentil Alves Pereira Filho 2023-04-13
This book describes the fauna of the Pernambuco Endemism Center in Brazil's Northern Atlantic Forest, an understudied global biodiversity hotspot. Through fifteen curated chapters, it provides the latest information about the fauna of the

Downloaded from id-blockchain.idea.gov.vn on

northern portion of the Atlantic Forest, gathering important information about the faunal composition of the region for the first time. The chapters address animal biodiversity including terrestrial and aquatic vertebrates (fish, amphibians, reptiles, birds, and mammals) and invertebrates (ants, butterflies, dung beetles, harvestmen, spiders, and termites). All chapters provide species lists, taxonomic aspects and richness analysis. Conservation of specific animal groups is also discussed. Finally, the book discusses human impacts on the forest and its biodiversity, emphasizing the need for conservation of this highly impacted ecosystem.

Management of Unintended and Abnormal Pregnancy - Maureen Paul 2011-08-24 Access to high quality abortion care is essential to women's health, as evidenced by the dramatic decrease in pregnancy-related morbidity and mortality since the legalization of abortion in the United States, and by high rates of maternal death and complications in those countries where abortion is still provided under unsafe conditions. The past two decades have brought important advances in abortion care as well as

Downloaded from id-blockchain.idea.gov.vn on
by guest

increasing cross-disciplinary use of abortion technologies in women's health care. Abortion is an important option for pregnant women who have serious medical conditions or fetal abnormalities, and fetal reduction techniques are now well-integrated into infertility treatment to reduce the risks of multiple pregnancies resulting from assisted reproductive technologies. Management of Unintended and Abnormal Pregnancy: Comprehensive Abortion Care is the textbook of the National Abortion Federation, and serves as the standard, evidence-based reference text in abortion care. This state-of-the-art textbook provides a comprehensive overview of the public health implications of unsafe abortion and reviews the best surgical and

medical practices for pregnancy termination, as well as managing ectopic and other abnormal pregnancies. Management of Unintended and Abnormal Pregnancy: Comprehensive Abortion Care is the leading source for a comprehensive understanding of issues related to unintended and abnormal pregnancy. This textbook: is authored by internationally-known leaders in women's health care; addresses unintended pregnancy and abortion from historical, legal, public health, clinical, and quality care perspectives; includes chapters on pregnancy loss, ectopic pregnancy, gestational trophoblastic disease, and multifetal pregnancy reduction; covers treatment of pregnancies in the first and second trimester by both

medical and surgical techniques; and provides resources for clinical, scientific, and social support for the abortion provider and patient.

Disability, Health, and Happiness in the Shakespearean Body -

Sujata Iyengar
2014-12-05

This book considers early modern and postmodern ideals of health, vigor, ability, beauty, well-being, and happiness, uncovering and historicizing the complex negotiations among physical embodiment, emotional response, and communally-sanctioned behavior in Shakespeare's literary and material world. The volume visits a series of questions about the history of the body and how early modern cultures understand physical ability or vigor, emotional competence or

satisfaction, and joy or self-fulfillment.

Individual essays investigate the purported disabilities of the "crook-back" King Richard III or the "corpulent" Falstaff, the conflicts between different health-care belief-systems in *The Taming of the Shrew* and *Hamlet*, the power of figurative language to delineate or even instigate puberty in the *Sonnets* or *Romeo and Juliet*, and the ways in which the powerful or moneyed mediate the access of the poor and injured to cure or even to care. Integrating insights from *Disability Studies*, *Health Studies*, and *Happiness Studies*, this book develops both a detailed literary-historical analysis and a provocative cultural argument about the emphasis we place on popular notions of fitness and contentment

today.

Computational Models of Argument - H. Prakken
2020-09-25

The investigation of computational models of argument is a rich and fascinating interdisciplinary research field with two ultimate aims: the theoretical goal of understanding argumentation as a cognitive phenomenon by modeling it in computer programs, and the practical goal of supporting the development of computer-based systems able to engage in argumentation-related activities with human users or among themselves. The biennial International Conferences on Computational Models of Argument (COMMA) provide a dedicated forum for the presentation and discussion of the latest advancements in the field, and cover both

basic research and innovative applications. This book presents the proceedings of COMMA 2020. Due to the Covid-19 pandemic, COMMA 2020 was held as an online event on the originally scheduled dates of 8 -11 September 2020, organised by the University of Perugia, Italy. The book includes 28 full papers and 13 short papers selected from a total of 78 submissions, the abstracts of 3 invited talks and 13 demonstration abstracts. The interdisciplinary nature of the field is reflected, and contributions cover both theory and practice. Theoretical contributions include new formal models, the study of formal or computational properties of models, designs for implemented systems and experimental research. Practical papers include

by guest

applications to medicine, law and criminal investigation, chatbots and online product reviews. The argument-mining trend from previous COMMA's is continued, while an emerging trend this year is the use of argumentation for explainable AI. The book provided an overview of the latest work on computational models of argument, and will be of interest to all those working in the field.

Web Information Systems and Technologies - José Cordeiro 2009-04-30
This book contains a selection of the best papers from WEBIST 2008 (the Fourth International Conference on Web Information Systems and Technologies), held in

Downloaded from id-blockchain.idea.gov.vn on
by guest

Funchal, Madeira, in 2008, organized by the Institute for Systems and Technologies of Information, Control and Communication (INSTICC), and co-sponsored by the Workflow Management Coalition (WfMC). The purpose of the WEBIST series of conferences is to bring together researchers, engineers and practitioners interested in the technological advances and business applications of web-based information systems. The series focuses on four main topic areas, covering different aspects of web information systems, including internet technology; web interfaces and applications; society, e-business, and e-government; and e-learning. WEBIST 2008 received 238 paper submissions from more than 40 countries on all continents. A double-

blind review process was enforced, with the help of more than 200 experts from the international Program Committee, each of them specialized in one of the main conference topic areas. After reviewing, 32 papers were selected to be published and presented as full papers and 64 additional papers, describing work-in-progress, as short papers for oral presentation only. Furthermore, 58 papers were presented as posters. The full-paper acceptance ratio was 13%, and the total oral paper acceptance ratio was 40%. Therefore, we hope that you find the papers included in this book interesting, and we trust they may represent a helpful reference in the future for all those who need to address any of the research areas mentioned above.
