Nation to Nation - Suzan Shown Harjo
2014-09-30

Nation to Nation explores the promises,

diplomacy, and betrayals involved in treaties and treaty making between the United States government and Native Nations. One side sought to own the riches of North America and the other struggled to hold on to traditional homelands and ways of life. The book reveals how the ideas of honor, fair dealings, good faith, rule of law, and peaceful relations between nations have been tested and challenged in historical and modern times. The book consistently demonstrates how and why centuries-old treaties remain living, relevant documents for both Natives and non-Natives in the 21st century.

Indian Treaties in the United States - Donald L.

Fixico 2018-05-03

This book examines the treaties that promised self-government, financial assistance, cultural protections, and land to the more than 565 tribes of North America (including Alaska, Hawaii, and Canada). Prior to contact with Europeans and, later, Americans, American Indian treaties assumed unique dimensions, often involving lengthy ceremonial meetings during which gifts were exchanged. Europeans and Americans would irrevocably alter the ways in which treaties were negotiated: for example, treaties no longer constituted oral agreements but rather written documents, though both parties generally lacked understanding of the other's culture. The political consequences of treaty negotiations continue to define the legal status of the more than 565 federally recognized tribes today. These and other aspects of treaty-making will be explored in this single-volume work, which serves to fill a gap in the study of both American history and Native American history. The history of treaty making covers a wide historical swath dating from the earliest treaty in 1788 to latest one negotiated in 1917. Despite the end of formal treaties largely by the end of the 19th century, Native relations with the federal government continued on with the move to reservations and later formal land allotment under the Dawes Act of 1887.

The statute provision for the surrender of deserting seamen, applies only to the seamen of governments with which a treaty exists to that effect. There is no express provision to that effect in existing treaties between the United States and Denmark. In the construction of treaties, the general doctrine is, that any special advantage conceded by a party under one article of the compact is in consideration of all the advantages enjoyed by the same party under that and all the other articles. Engagements of extradition, whether of fugitives from justice, or from service, stand in each case on particular stipulations of treaty, and are not to be inferred from the " favored nation " clause in treaties. Attorney-General's Office. October 14, 1853. Sir: I have considered the question presented by the communication of Mr. Bille, Charge d'Affaires of Denmark, of the 26th of August, referred by you to me, and submit herewith my conclusions thereon. On occasion of the arrest in New York of a deserter from the Danish ship " Saga," and the discharge of the alleged deserter by the authorities there on the assumption that there is no lawful authority for such arrest, Mr. Bille appeals to the government of the United States for its decision and action in the premises. An act of Congress, enacted March 2, 1829,

entitled, "An Act to Provide for the Apprehension and Delivery of Deserters from Certain Foreign Vessels in the Ports of the United States," (iv Stat, at Large, p. 359, Documents of American Indian Diplomacy - Vine Deloria 1999

Reproduced in this two-volume set are hundreds of treaties and agreements made by Indian nations--with, among others, the Continental Congress; England, Spain, and other foreign countries; the ephemeral Republic of Texas and the Confederate States; railroad companies seeking rights-of-way across Indian land; and

other Indian nations. Many were made with the United States but either remained unratified by Congress or were rejected by the Indians themselves after the Senate amended them unacceptably. Many others are "agreements" made after the official--but hardly de facto--end of U.S. treaty making in 1871. With the help of chapter introductions that concisely set each type of treaty in its historical and political context, these documents effectively trace the evolution of American Indian diplomacy in the United States.
