The Book of the Jihad of 'Ali ibn Tahir al-Sulami (d. 1106) - Niall Christie 2017-07-05
In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim

jurisprudent named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled Kitab al-Jihad (The Book of the Jihad), al-Sulami's

work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern

readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

Epistemic Situationism - Abrol Fairweather 2017

"This volume is the first sustained examination of epistemic situationism, the clash between virtue epistemology and the situationist hypothesis supported by research in empirical psychology. Current research in social psychology suggests that environmental variables have greater explanatory and predictive power than traits in explaining human behavior and this has raised serious challenges to ethical theories, such as virtue ethics, that rely on a psychology of personality traits. However, virtue epistemology appears to assume the same trait-based psychology as virtue

ethics does, and the research challenging virtue theories in ethics is relevant to philosophical theorizing about knowledge as well. Until recently virtue epistemology and situationism were separate literatures, but philosophers have begun to examine the apparent incompatibility between situationist psychology and virtue epistemology. Much of the psychological research that raises questions about the empirical adequacy of the moral psychology of virtue ethics also appears to raise doubts about the empirical adequacy of the epistemic psychology assumed by virtue epistemology. Responsibilist virtue epistemology appears particularly vulnerable because epistemic virtues like open-mindedness, conscientiousness, and intellectual courage are traits of intellectual character, but reliabilist virtue epistemology appeals to the psychology of cognitive skill,

abilities, and competences that may be similarly vulnerable. The essays in this volume take up this new problem of epistemic situationism from multiple points of view - some skeptical or revisionary, others conservative."--

The Count of Monte Cristo - Alexandre Dumas
2020-09-28

On the 24th of February, 1815, the look-out at Notre-Dame de la Garde signalled the three-master, the Pharaon—from Smyrna, Trieste, and Naples. As usual, a pilot put off immediately, and rounding the Chateau d'If, got on board the vessel between Cape Morgion and Rion island. Immediately, and according to custom, the ramparts of Fort Saint-Jean were covered with spectators; it is always an event at Marseilles for a ship to come into port, especially when this ship, like the Pharaon, has been built, rigged, and laden at the old Phocée docks, and belongs to an owner of the city. The ship drew on and had safely passed the strait, which some volcanic shock has made between the Calasaigne and Jaros islands; had doubled Pomegue, and approached the harbor under topsails, jib, and spanker, but so slowly and sedately that the idlers, with that instinct which is the forerunner of evil, asked one another what misfortune

could have happened on board. However, those experienced in navigation saw plainly that if any accident had occurred, it was not to the vessel herself, for she bore down with all the evidence of being skilfully handled, the anchor a-cockbill, the jib-boom guys already eased off, and standing by the side of the pilot, who was steering the Pharaon towards the narrow entrance of the inner port, was a young man, who, with activity and vigilant eye, watched every motion of the ship, and repeated each direction of the pilot. The vague disquietude which prevailed among the spectators had so much affected one of the crowd that he did not await the arrival of the vessel in harbor, but jumping into a small skiff, desired to be pulled alongside the Pharaon, which he reached as she rounded into La Reserve basin. When the young man on board saw this person approach, he left his station by the pilot, and,

hat in hand, leaned over the ship's bulwarks. He was a fine, tall, slim young fellow of eighteen or twenty, with black eyes, and hair as dark as a raven's wing; and his whole appearance bespoke that calmness and resolution peculiar to men accustomed from their cradle to contend with danger.

Once upon a time in a Middle Eastern land, a fat, sweet-natured little boy grows up as the son of an important ruler. His older brother was apparently still-born and so he is the heir to his father's kingdom. But far away from the royal palace a lonely prospector happens across a wild creature, half boy, half animal,

roaming the forests. Eventually this strange child's adventures lead him to the capital and into the path of a platoon of deserters from Napoleon's army - the flashy, ultimately dangerous, face of Enlightenment thought in this isolated kingdom - with drastic consequences. With original poems embedded like gems in the text, this is a fable for all ages, full of shivers and delights, sadness and wonder.
