**The Flickering Mind** - Todd Oppenheimer  
2007-12-18

The Flickering Mind, by National Magazine Award winner Todd Oppenheimer, is a landmark account of the failure of technology to improve our schools and a call for renewed emphasis on what really works. American education faces an unusual moment of crisis. For decades, our schools have been beaten down by a series of curriculum fads, empty crusades for reform, and stingy funding. Now education and political leaders have offered their biggest and most expensive promise ever—the miracle of computers and the Internet—at a cost of approximately \$70 billion just during the decade of the 1990s. Computer technology has become so prevalent that it is transforming nearly every corner of the academic world, from our efforts to close the gap between rich and poor, to our

hopes for school reform, to our basic methods of developing the human imagination. Technology is also recasting the relationships that schools strike with the business community, changing public beliefs about the demands of tomorrow's working world, and reframing the nation's systems for researching, testing, and evaluating achievement. All this change has led to a culture of the flickering mind, and a generation teetering between two possible futures. In one, youngsters have a chance to become confident masters of the tools of their day, to better address the problems of tomorrow. Alternatively, they can become victims of commercial novelties and narrow measures of ability, underscored by misplaced faith in standardized testing. At this point, America's students can't even make a fair choice. They are an increasingly distracted lot. Their ability to reason, to listen, to feel empathy, is quite literally flickering. Computers and their attendant technologies did not cause all these problems, but they are quietly accelerating

them. In this authoritative and impassioned account of the state of education in America, Todd Oppenheimer shows why it does not have to be this way. Oppenheimer visited dozens of schools nationwide—public and private, urban and rural—to present the compelling tales that frame this book. He consulted with experts, read volumes of studies, and came to strong and persuasive conclusions: that the essentials of learning have been gradually forgotten and that they matter much more than the novelties of technology. He argues that every time we computerize a science class or shut down a music program to pay for new hardware, we lose sight of what our priority should be:

“enlightened basics.” Broad in scope and investigative in treatment, *The Flickering Mind* will not only contribute to a vital public conversation about what our schools can and should be—it will define the debate.

*RBG's Brave & Brilliant Women* - Nadine Epstein 2021-09-21

This collection of biographies of brave and

brilliant Jewish female role models--selected in collaboration with Ruth Bader Ginsburg and including an introduction written by the iconic Supreme Court justice herself-- provides young people with a roster of inspirational role models, all of whom are Jewish women, who will appeal not only to young people but to people of all ages, and all faiths. The fascinating lives detailed in this collection--more than thirty exemplary female role models--were chosen by Ruth Bader Ginsburg, or RBG, as she was lovingly known to her many admirers. Working with her friend, journalist Nadine Epstein, RBG selected these trailblazers, all of whom are women and Jewish, who chose not to settle for the rules and beliefs of their time. They did not accept what the world told them they should be. Like RBG, they dreamed big, worked hard, and forged their own paths to become who they deserved to be. Future generations will benefit from each and every one of the courageous actions and triumphs of the women profiled

here. RBG's Brave & Brilliant Women, the passion project of Justice Ginsburg in the last year of her life, will inspire readers to think about who they want to become and to make it happen, just like RBG.

**Puppy Problems** - Paige Braddock 2020-09-22

A goofy new puppy rocks the world of a high-strung dog and a snarky cat in this hilarious graphic novel for early readers. Crackers is a rescue dog who's a bit on the nervous side, but pretty comfy at home with Butter, a very plump cat who--like all cats--is all about himself. The two pets have a good life: big backyard, nice couch, good eats, and an owner who goes to work every day so they can pretty much do what they want. Enter Peanut, a brand-new puppy with big floppy ears, unabashed energy, and no appreciation for the quiet life. The little dog is a chowhound who dips into everybody's food bowl. He drools, he chews up stuff, he doesn't get how stairs work, and he's afraid of the dark. Yowl! Not to mention he's hogging their owner's lap.

Even the squirrels in the yard are laughing at this goofy little canine. Butter and Crackers have had it! This puppy has to go! But when the backyard gate is left open (the cat's idea, of course!) and Peanut wanders out and gets lost, the older animals remember what it was like to be alone--and lonely. Butter and Crackers to the rescue! Kids will laugh-out-loud at Paige Braddock's funny, endearing art and dialogue. (She also cleverly never shows "our human," the animals' owner, as anything more than a pair of hands or unintelligible speech balloons.) This is a wonderful story about friendship and acceptance, with the funniest combination of pets to ever hit the page.

**Never Simple** - Liz Scheier 2022-03-01

This gripping and darkly funny memoir "is a testament to the undeniable, indestructible love between a mother and a daughter" (Isaac Mizrahi). Liz Scheier's mother was a news junkie, a hilarious storyteller, a fast-talking charmer you couldn't look away from, a single

mother whose devotion crossed the line into obsession, and—when in the grips of the mental illness that plagued her—a masterful liar. On an otherwise uneventful afternoon when Scheier was eighteen, her mother sauntered into the room and dropped two bombshells. First, that she had been married for most of the previous two decades to a man Liz had never heard of and, second, that the man she had claimed was Liz's dead father was entirely fictional. She'd made him up—his name, the stories, everything. Those big lies were the start, but not the end; it had taken dozens of smaller lies to support them, and by the time she was done she had built a fairy-tale, half-true life for the two of them. Judith Scheier's charm was more than matched by her eccentricity, and Liz had always known there was something wrong in their home. After all, other mothers didn't raise a child single-handedly with no visible source of income, or hide their children behind fake Social Security numbers, or host giant parties in a one-

bedroom Manhattan apartment only to throw raging tantrums when the door closed behind the guests. Now, decades later, armed with clues to her father's identity—and as her mother's worsening dementia reveals truths she never intended to share—Liz attempts to uncover the real answers to the mysteries underpinning her childhood. Trying to construct a “normal” life out of decidedly abnormal roots, she navigates her own circuitous path to adulthood: a bizarre breakup, an unexpected romance, and the birth of her son and daughter. Along the way, Liz wrestles with questions of what we owe our parents even when they fail us, and of how to share her mother's hilarity, limitless love, and creativity with children—without passing down the trauma of her mental illness. *Never Simple* is the story of enduring the legacy of a hard-to-love parent with compassion, humor, and, ultimately, self-preservation.

From the creators of Little Pea and Little Hoot comes this tidy tale of a decidedly different pig. Little Oink is a neat little fellow. Clean, clean, clean, that's all he wants to do. But Mama and Papa won't have it! They say in order to be a proper pig, he has to learn to make a proper

Lawyer, Know Thyself - Susan Swaim Daicoff 2004-01-01

Lawyer, Know Thyself explores what some consider to be a three-part crisis in the legal profession. Despite the many perks of being a lawyer - among them intellectual challenge, social status, and high salaries - job dissatisfaction, poor mental health, and substance abuse are surprisingly common among lawyers. In addition, the public arguably has less respect for attorneys than for any other professional group. Finally, there seems to be a crisis of professionalism among lawyers, as borne out by frequent complaints of incivility, combative litigation, and ethically questionable conduct.

## **Environmental Assessment of Ogoniland - 2011**

A major new independent scientific assessment, carried out by the United Nations Environment Programme (UNEP), shows that pollution from over 50 years of oil operations in the region has penetrated further and deeper than many may have supposed. The assessment has been unprecedented. Over a 14-month period, the UNEP team examined more than 200 locations, surveyed 122 kilometres of pipeline rights of way, reviewed more than 5,000 medical records and engaged over 23,000 people at local community meetings. The environmental restoration of Ogoniland could prove to be the world's most wide-ranging and long term oil clean-up exercise ever undertaken if contaminated drinking water, land, creeks and important ecosystems such as mangroves are to be brought back to full, productive health. The report key findings are alarming both in terms of human health protection and environmental

protection: some areas, which appear unaffected at the surface, are in reality severely contaminated underground; at least 10 Ogoni communities where drinking contaminated water; control and maintenance of oilfield infrastructure in Ogoniland has been and remains inadequate; the impact of oil on mangrove vegetation has been disastrous. The report recommends direct actions in order to address the Niger Delta contamination by oil and warns that the restoration of the area could take up years.
