Encyclopedia of the History of Classical Archaeology - Nancy Thomson de Grummond
2015-05-11

With 1,125 entries and 170 contributors, this is the first encyclopedia on the history of classical archaeology. It focuses on Greek and Roman material, but also covers the prehistoric and semi-historical cultures of the Bronze Age Aegean, the Etruscans, and manifestations of Greek and Roman culture in Europe and Asia Minor. The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time; articles on famous monuments and sites as seen, changed, and interpreted through

time; and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages. As the definitive source on a comparatively new discipline - the history of archaeology - these finely illustrated volumes will be useful to students and scholars in archaeology, the classics, history, topography, and art and architectural history. *A Dictionary of Miniaturists, Illuminators, Calligraphers, and Copyists* - John William Bradley 1888

Reclaiming the Roman Capitol: Santa Maria in Aracoeli from the Altar of Augustus to the Franciscans, c. 500-1450 - Claudia Bolgia

significant medieval church of Rome to survive to the present day. Second major church of the Lesser Brothers or fratres minores in the Italian peninsula, and Roman headquarters of the Order, the Aracoeli played a vital role in the interaction between the Franciscans and the papacy, the friars and the laity, and the religious and civic authorities, as reflected in its art and architecture. On the basis of an interdisciplinary approach combining archaeological analysis with the finding of new archival evidence, reinterpretation of documents and literary and epigraphic sources, this book offers a reconstruction of the original church, its monuments and its Benedictine as well as eighth/ninth-century predecessors, which differs radically from earlier hypotheses. This reassessment in turn allows the author to revisit a number of major questions,

including the Franciscans' physical and theoretical appropriation of the past, the adaptation of an ancient site by a 'modern' religious order, the use and functions of space, the interaction between friars, laity and artists, and the contribution of the Roman Franciscans to the development of Marian devotion, thus shedding new light on the social, political and religious history of late-medieval Italy and its impact beyond the peninsula, from England to Bohemia and the Holy Land. *The World Factbook* - United States. Rome - Émile Zola 2018-07-31
Après avoir écrit un livre où il résume son expérience très critique de la société, La Rome nouvelle, l'abbé Pierre Froment se rend à Rome pour défendre son livre qui risque d'être condamné. Il souhaite rencontrer le pape Léon XIII (cet entretien sera le sommet du livre). On assiste aux intrigues, aux rivalités du « monde noir ». « Le clergé romain depuis les cardinaux jusqu'aux petits prêtres de

campagne sont défiés », écrit Zola. L'intérêt de Rome réside non seulement dans l'itinéraire intellectuel et spirituel du héros, prêtre en proie au doute, mais dans la peinture psychologique et sociale des milieux du Vatican, sujet que très peu de romans ont abordé en France. THE ECUMENICAL IMPERATIVE AND FORMATION OF ECUMENICAL CONSCIOUSNESS AMONG PASTORAL WORKERS -

SEBASTIAN CHUKWUMA ANOKWULU 2013-09

The idea of the Church as the instrument of unity had existed before Second Vatican Council; but the Council made the search for unity explicitly an imperative. From the Second Vatican Council emerged a more emphatic

vision of the mission of the Church to the world in which ecumenism is no longer an option but an imperative. From the time of the Council onward, every Christian should positively respond to God's question to Cain: "Where is your brother?" (Gen. 4: 9). The ecumenical imperative is primarily the responsibility of pastoral workers. The book surveys in epochs the historical changes that has occurred in the Church up to Vatican II; reviews reception along the ages of the Church pointing to the uniqueness of Vatican II; and gives through biblical exegesis of 'conversion' a fresh understanding that will help pastoral workers to be ever conscious and ready to serve as Church's instrument of unity wherever they are. This book re-awakens the spirit of the Decree on Ecumenism (Unitatis Redintegratio), offering it to be properly received by all who pray with Christ for unity (Jn 17:21). It proposes

pastoral suggestions on the practice of Ecumenism.

Arabs and Arabists - Alastair Hamilton
2021-11-08

Arabs and Arabists contains nineteen selected articles by Alastair Hamilton on the Western acquisition of knowledge of the Arab and Ottoman world in the early modern period. The first essays are on Arabs who visited Europe and gave instruction to Western Arabists, and on Europeans who either visited the Arab (or the

Ottoman) world in search of manuscripts and information or who, like Franciscus Raphelengius, Isaac Casaubon and Adriaen Reland, studied it at a distance and remained in the West. These are followed by a section on the actual study of the Arabic language in Europe, and above all the creation of the first Arabic-Latin dictionaries, and another on the European study of Islam and Western translations of the Qur'an.

Engineering the Eternal City - Pamela O. Long 2018-11-20

Between the catastrophic flood of the Tiber River in 1557 and the death of the "engineering pope" Sixtus V in 1590, the city of Rome was transformed by intense activity involving building construction and engineering projects of all kinds. Using

hundreds of archival documents and primary sources, *Engineering the Eternal City* explores the processes and people involved in these infrastructure projects—sewers, bridge repair, flood prevention, aqueduct construction, the building of new, straight streets, and even the relocation of immensely heavy ancient Egyptian obelisks that Roman emperors had carried to the city centuries before. This portrait of an early modern Rome examines the many conflicts, failures, and successes that shaped the city, as decision-makers tried to control not only Rome's structures and infrastructures but also the people who lived there. Taking up visual images of the city created during the same period—most importantly in maps and urban representations, this book shows how in a time before the development of modern professionalism and modern bureaucracies,

there was far more wide-ranging conversation among people of various backgrounds on issues of engineering and infrastructure than there is in our own times. Physicians, civic leaders, jurists, cardinals, popes, and clerics engaged with painters, sculptors, architects, printers, and other practitioners as they discussed, argued, and completed the projects that remade Rome.

Palladio's Rome -

Palladio 2006-01-01
Andrea Palladio
(1508-1580), one of the
most famous architects
of all time, published
two enormously popular
guides to the churches

in 1554. Striving to be
both scholarly and
popular, Palladio
invited his Renaissance
readers to discover the
charm of Rome's ancient
and medieval wonders,
and to follow pilgrimage
routes leading from one
church to the next. He
also described ancient
Roman rituals of birth,
marriage, and death.
Here translated into
English and joined in a
single volume for the
first time, Palladio's
guidebooks allow modern
visitors to enjoy Rome
exactly as their
