La vuelta a España del Corto Maltés -
Álvaro González de Aledo Linos
2014-01-28

El autor es médico y Capitán de Yate. En el verano de 2012, junto a Luis Espejo, también Capitán de Yate y ambos navegantes aficionados, dio la vuelta a la península ibérica a vela en una travesía que duró tres meses. Tres detalles hicieron a este viaje especial. En primer lugar el barco era un Tonic 23, velero de serie de menos de 7 metros y 28 años de antigüedad, sin ninguna preparación estructural específica. En segundo lugar, la circunnavegación de la península fue completa, no finalizó en Cataluña como es lo habitual. Ellos continuaron la vuelta atravesando Francia por el Canal de Midi y volvieron a Santander por el Este. Y en tercer lugar, no estuvieron esponsorizados, realizando el viaje por el puro gusto de navegar y con sus propios medios. En este libro se relatan los detalles de la preparación del barco, las anécdotas del viaje y sus propias conclusiones personales y relativas a la navegación en barcos pequeños de serie. Si algún lector se anima a ampliar los horizontes de su pequeño velero tras la lectura de estas páginas, el objetivo del libro estará

cumplido.

Fields for President - W. C. Fields
2016-02-01

In this wonderful parody from 1940, W.C. Fields announces his candidacy for America's highest office. He offers sound advice on a number of topics in classic Fields-style humor in his attempt to win votes.

"Campaign resolutions are no better than New Year's resolutions," he writes. "They are thrown together hastily at the last minute, with never a thought as to how they may be gracefully broken. Now, I am a candidate with years of experience breaking New Year's resolutions, and what I can accomplish with those, I can certainly accomplish with campaign resolutions."

Hosts and Guests - Valene L. Smith
2012-06-13

Tourism—one of the world's largest industries—has long been appreciated for its economic benefits, but in this volume tourism receives a unique systematic scrutiny as a medium for cultural exchange. Modern

developments in technology and industry, together with masterful advertising, have created temporarily leisured people with the desire and the means to travel. They often in turn effect profound cultural change in the places they visit, and the contributors to this work all attend to the impact these "guests" have on their "hosts." In contrast to the dramatic economic transformations, the social repercussions of tourism are subtle and often recognized only by the indigenous peoples themselves and by the anthropologists who have studied them before and after the introduction of tourism. The case studies in *Hosts and Guests* examine the five types of tourism—historical, cultural, ethnic, environmental, and recreational—and their impact on diverse societies over a broad geographical range

The Shipkiller - Justin Scott
2013-08-01

It was the largest moving object on the face of the earth, but for Carolyn and Peter Hardin it was a towering wall of steel bursting out of a squall at full speed, bearing down on their ketch Siren. In a few dramatic moments, Siren was shattered by the indifferent juggernaut. Struggling for his life, Peter Hardin felt the hand of his wife being torn from his grip as the huge white letters on the supertanker's stern - Leviathan - steamed away. Thus begins an odyssey of revenge that embraces the distant waters of the world, from the titanic storms of the South Atlantic to the oil-slicked reaches of the Persian Gulf. Now back in print for the first time in twenty-five years, *The Shipkiller* is the story of one man determined to win at sea the justice he has been denied on land.

The Rebel Sell - Joseph Heath 2006
An explosive rejection of the myth of the counterculture in the most provocative book since *No Logo*. - In this wide-ranging and perceptive work of cultural criticism, Joseph Heath and Andrew Potter shatter the central myth of radical political, economic and cultural thinking. The idea of a counterculture that is, a world outside of the consumer dominated one that encompasses us pervades everything from the anti-globalisation movement to feminism and environmentalism. And the idea that mocking the system, or trying to jam it so it will collapse, they argue, is not only counterproductive

but has helped to create the very consumer society that radicals oppose. - In a lively blend of pop culture, history and philosophical analysis, Heath and Potter offer a startlingly clear picture of what a concern for social justice might look like without the confusion of the counterculture obsession with being different. Permanent Record - Edward Snowden
2019-09-17

The Sunday Times top ten bestseller. Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States

government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, Permanent Record is the extraordinary account of a bright young man who grew up online – a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, Permanent Record is a crucial memoir of our digital age. 'A riveting account . . . Reads like a literary thriller' - New York Times

La construcción del conocimiento histórico - Heraclio Bonilla
2017-12-28

La construcción del conocimiento histórico. Errata y bricolaje de la Historia, reconstruye y comenta, en su primera parte, las peripecias seguidas en la elaboración del conocimiento en el campo de la Historia, proceso sin horizontes y de ahí su caracterización como errata, y, en función de los humores cambiantes de la coyuntura y de las modas académicas de la disciplina, por lo tanto como un bricolaje. El mensaje que nos transmite Heraclio Bonilla en esta sección inicial es que es necesario repensar la Historia, rescatar lo mejor de cada tradición, a fin de construir un tipo de análisis a la altura de las exigencias del presente. La segunda parte es una propuesta de análisis de la complejidad histórica de la región andina, en su unidad y en su diversidad. Así, trata de ir más allá de los esencialismos vigentes para

pensar esta realidad a partir de las principales coordenadas de su configuración y de su cambio. La primera edición de este libro fue publicada por la Universidad Nacional de Colombia en el año 2014 y se agotó en pocos meses. Heraclio Bonilla en esta segunda edición hace un agregado extenso en lo que corresponde a la revisión de la historiografía.
